Rethinking Investor-State Arbitration Flavia Marisi, 2023-10-18 A significant increase in investor State arbitration cases has been observed since the 2000s The trust placed by investors and States in this method of dispute resolution stems from several strengths In addition to its neutrality one of the primary reasons for its widespread use is its adaptability enabling it to address specific challenges that have emerged in recent decades The following elements highlight this adaptability the arbitration procedure can be customised to meet the specific needs of the disputing parties and stakeholders involved It effectively responds to evolving cultural norms and ethical considerations such as diversity gender representation corporate social responsibility environmental issues and human rights Moreover it can adapt to global health crises by facilitating online hearings Finally during times of international armed conflict economic exchanges trade investment and investor State dispute settlement foster economic integration and interdependence contributing to maintaining commercial peace and supporting international peace and security However investor State arbitration has sparked vigorous debates with many advocating for reform in three crucial aspects transparency legitimacy and consistency Multilateral negotiations are currently underway on various fronts including the negotiation of more sustainable investment treaties amendments to institutional arbitral rules the design of a multilateral investment court and the development of enhanced policy frameworks This book delves into the history of investor State dispute resolution to provide readers with an understanding of how its main features have evolved over time It examines the most intensely debated procedural issues analyses their multifaceted characteristics reviews the complex relationship between investor State arbitration and the European Union and explores potential options for addressing stakeholder concerns Rethinking Investment Law David Schneiderman, Gus Van Harten, 2024-01-07 Investment law protections for foreign investors constrain states and compensate investors With diverse contributions explaining the conventional law and its limitations Rethinking Investment Law seeks a more balanced vision of how international law can protect individuals in general not just foreign asset owners **Rethinking International Law and Justice** Charles Sampford, Spencer Zifcak, 2016-04-08 General principles of law have made and are likely further to make a significant contribution to our understanding of the constituent elements of global justice Dealing extensively with global headline issues of peace security and justice this book explores justice arising in specific areas of international law as well as underlying theories of justice from political science and international relations With contributions from leading academics and practitioners the book adopts an interdisciplinary approach Covering issues such as international humanitarian law and examining the significance of non state actors for the development of international law the collection concludes with the complex question of how best to rethink aspects of international justice The lessons derived from this research will have wide implications for both developed and emerging nation states in rethinking sensitive issues of international law and justice As such this book will be of interest to academics and practitioners interested in international

Rethinking Fascism and Dictatorship in Europe A. Kallis, 2014-09-25 Fascism exerted a crucial ideological and political influence across Europe and beyond Its appeal reached much further than the expanding transnational circle of fascists crossing into the territory of the mainstream authoritarian and traditional right Meanwhile fascism s seemingly inexorable rise unfolded against the backdrop of a dramatic shift towards dictatorship in large parts of Europe during the 1920s and especially 1930s These dictatorships shared a growing conviction that fascism was the driving force of a new post liberal fiercely nationalist and anti communist order The ten contributions to this volume seek to capture theoretically and empirically the complex transnational dynamic between interwar dictatorships This dynamic involving diffusion of ideas and practices cross fertilisation and reflexive adaptation muddled the boundaries between fascist and authoritarian constituencies of the interwar European right      Islam and Contemporary Civilisation Halim Rane, 2010-07-15 Islam and Contemporary Civilisation examines the most complex debates and dilemmas facing Islam today both internally and in its relations with Western civilisation Halim Rane provides a concise and comprehensive introduction to Islam and modern developments in Muslim thought and tackles questions of Islamic law human rights democracy jihad and the Israel Palestine conflict in the context of Islam West relations In confronting these challenging issues Rane proposes a way forward that has

far reaching implications for advancing mutual understanding and finding common ground between the Muslim world and the West Islamic Studies Series Volume 7      **EU Foreign Relations Law** Marise Cremona, Bruno de Witte, 2008-07-25 This book reappraises the constitutional fundamentals of EU foreign relations law The essays in the book examine and reassess the basic principles of EU foreign relations law that have emerged over 50 years of incremental Treaty based and judicial development and explore the particular character of the EU s external constitution They have been written against a background of change and debate the deliberation over the character of the appropriate constitutional framework which has surrounded the drafting of the Constitutional and Reform Treaties the increasingly cross pillar nature of much EU external action and renewed interest in the accountability of foreign relations policy and practice to democratic and judicial review within and without the EU This collection will be of interest not only to EU foreign relations law specialists but also to those concerned with broader constitutional issues within EU law In exploring the legal context in which the EU seeks to develop an international identity and to structure and execute policies at the international level the collection will also interest those working in international relations      *Rethinking Literacy in the Era of Sustainability and Artificial Intelligence* Diogo, Ana, Joaquim, Ana Filipa, de Almeida, Cristina Vaz, 2025-05-28 In the era of sustainability and artificial intelligence AI the concept of literacy evolves beyond traditional reading and writing skills to encompass digital fluency environmental awareness and ethical understanding As AI transforms accessibility processing and information generation and as sustainability becomes a global imperative individuals must be equipped with critical engagement regarding complex systems data and technologies Rethinking literacy means fostering a generation capable of navigating the challenges of climate change technological disruption and social equity Further exploration of this new form of literacy may empower people to understand the world while actively shaping a more ethical intelligent and sustainable future Rethinking Literacy in the Era of Sustainability and Artificial Intelligence explores the changing landscape of literacy analyzing how definitions and expectations evolve in the modern context It demonstrates the crucial role of sustainability and AI in contemporary education investigating the transformation of literacy skills over time This book covers topics such as digital technology machine learning and social entrepreneurship and is a useful resource for business owners computer engineers academicians researchers and environmental scientists      **The Cambridge Companion to Business and Human Rights Law** Ilias Bantekas, Michael Ashley Stein, 2021-09-09 An innovative textbook setting out a systematic approach to business and human rights      *Rethinking Transnationalism* Ludger Pries, 2008-08-18 This book presents theoretical contributions to the transnationalism approach and offers empirical studies in the field of the transnationalization of organizations      **Muslims in Australia** Samina Yasmeen, 2010      **Immigration Detention and Human Rights** Galina Cornelisse, 2010-03-08 Practices of immigration detention are largely resistant to conventional forms of legal correction because contemporary liberal democracies justify these practices with an appeal to their territorial sovereignty a concept that thwarts the very

communicability of individual interests in modern constitutionalism However this book argues that human rights in the specific context of immigration detention can function as destabilisation rights subjecting to full legal scrutiny those claims that the national state presents as predominantly based on its territorial sovereignty The resulting destabilisation of territorial sovereignty in both domestic and international constitutionalism will have ramifications for a number of instruments of migration control the perceived necessity and legitimacy of which is almost exclusively based on the self referential notion of territorial sovereignty

Zena Prodromou, 2020-08-12 In the process of resolving disputes it is not uncommon for parties to justify actions otherwise in breach of their obligations by invoking the need to protect some aspect of the elusive concept of public order Until this thoroughly researched book the criteria and factors against which international dispute bodies assess such claims have remained unclear Now by providing an in depth comparative analysis of relevant jurisprudence under four distinct international dispute resolution systems trade investment human rights and international commercial arbitration the author of this invaluable book identifies common core benchmarks for the application of the public order exception To achieve the broadest possible scope for her analysis the author examines the public order exception s function role and application within the following international dispute resolution systems relevant World Trade Organization WTO agreements as enforced by the organization s Dispute Settlement Body and Appellate Body international investment agreements as enforced by competent Arbitral Tribunals and Annulment Committees under the International Center for Settlement of Investment Disputes provisions under the Inter American Convention of Human Rights and the European Convention of Human Rights as enforced by the Inter American Court of Human Rights and the European Court of Human Rights respectively and the New York Convention as enforced by national tribunals across the world Controversies tensions and pitfalls inherent in invoking the public order exception are elucidated along with clear guidelines on how arguments may be crafted in order to enhance prospects of success Throughout tables and graphs systematize key aspects of the relevant jurisprudence under each of the dispute resolution systems analysed As an immediate practical resource for lawyers on any side of a dispute who wish to invoke or strengthen a public order exception claim the book s systematic analysis will be welcomed by lawyers active in WTO disputes international investment arbitration human rights law or enforcement of foreign arbitral awards Academics and policymakers will find a signal contribution to the ongoing debate on the existence legal basis content and functions of the transnational public order **Doing Justice to History** Barrie Sander, 2021-03-09 As communities struggle to make sense of mass atrocities expectations have increasingly been placed on international criminal courts to render authoritative historical accounts of episodes of mass violence Taking these expectations as its point of departure this book seeks to understand international criminal courts through the prism of their

historical function The book critically examines how such courts confront the past by constructing historical narratives concerning both the culpability of the accused on trial and the broader mass atrocity contexts in which they are alleged to have participated The book argues that international criminal courts are host to struggles for historical justice discursive contests between different actors vying for judicial acknowledgement of their interpretations of the past By examining these struggles within different institutional settings the book uncovers the legitimating qualities of international criminal judgments In particular it illuminates what tends to be foregrounded and included within as well as marginalised and excluded from the narratives of international criminal courts in practice What emerges from this account is a sense of the significance of thinking about the emancipatory limits and possibilities of international criminal courts in terms of the historical narratives that are constructed and contested within and beyond the courtroom
