Rethinking Security In East Asia Identity Power And Efficiency Studies In Asian Security:

Rethinking Security in East Asia J. J. Suh, Peter J. Katzenstein, Allen Carlson, 2004 Is East Asia heading towards war This text makes a case for a new theoretical approach called analytical eclecticism by the authors to the study of Asian security

Security Politics in the Asia-Pacific William T. Tow, 2009-10-15 In this book leading experts present research on the evolution of key issues in Asian security *Handbook of Asian Security Studies* Sumit Ganguly, Andrew Scobell, Joseph

Liow, 2009 **ASEAN's Cooperative Security Enterprise** H. Katsumata, 2010-01-20 Katsumata demonstrates that something interesting is taking place inside the ASEAN Regional Forum ARF He shows that an association of minor powers in Southeast Asia is promoting its cooperative security norm and influencing the policies of its external partners Thus the ARF is one of the important pathways to regional security *Changing Security Dynamics in East Asia* Elena

Atanassova-Cornelis, Frans-Paul van der Putten, 2016-04-30 This original and detailed collection explores how regional actors deal with uncertainties that are inherent to the current geopolitical situation in East Asia The contributors collectively demonstrate that strategic uncertainty has become a major factor in the shaping of the security order in East Asia

ASEAN and the Institutionalization of East Asia Ralf Emmers, 2011-09-28 This book examines the evolving multilateral security arrangements in East Asia with a focus on the role of the Association of Southeast Asian Nations ASEAN It explores the function and relevance of ASEAN in East Asia's emerging institutional security landscape These issues have direct implications for the future of the ASEAN Security Community the relevance of the ASEAN cooperative model to wider regional arrangements and finally for the further institutionalization of great power relations within these multilateral structures The book highlights ASEAN's successes and shortcomings It also considers ASEAN led institutions in the wider region and goes on to analyse alternative approaches to regionalism including the China Japan South Korea Trilateral Summit Overall it assesses how the various initiatives are likely to develop concluding that ASEAN despite its shortcomings is likely to continue to play a key role **Multilateral Asian Security Architecture** See Seng Tan, 2015-07-16 This book

provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia's multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN's significance to the successes and failures of Asia's multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia's regional architecture the fact remains that the countries considered here notwithstanding their present discontent over the

state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics international organisations security studies and IR more generally *ASEAN's Myanmar Crisis* Christopher Roberts,2010 In line with recent reviews of policy by Aung San Suu Kyi and the U S Government ASEAN's Myanmar Crisis Challenges to the Pursuit of a Security Community provides a clear and innovative analysis of why it is necessary to reassess regional and international approaches to Myanmar For the first time this book also reveals the full extent to which Myanmar has challenged the solidarity and development of ASEAN itself This is a must read for anyone interested in either Myanmar or the future In line with recent reviews of policy by Aung San Suu Kyi and the U S

Government ASEAN's Myanmar Cr **Critical security in the Asia-Pacific** Anthony Burke,Matt McDonald,2021-06-15 In the wake of 9 11 the Asian crisis and the 2004 tsunami traditional analytical frameworks are increasingly unable to explain how individuals and communities are rendered insecure or advance individual global or environmental security In the Asia Pacific the accepted wisdom of realism has meant that analyses rarely move beyond the statist militarist and exclusionary assumptions that underpin traditional realpolitik This innovative new book challenges these limitations and addresses the missing problems people and vulnerabilities of the Asia Pacific region It also turns a critical eye on traditional interstate strategic dynamics Critical security in the Asia Pacific applies both a critical theoretical approach that interrogates the deeper assumptions underpinning security discourses and a human centred policy approach that focuses on the security welfare and emancipation of individuals and communities Leading Asia Pacific researchers combine to apply these frameworks to the most pressing issues in the region from the Korean peninsula to environmental change Indonesian conflict the war on terror and the plight of refugees The result is a sophisticated and accessible account of often neglected realities of marginalization in the region and a compelling argument for the empowerment and security of the most vulnerable

The East Asian Peace M. Weissmann,2012-06-12 Using a case study based approach Weissmann analyses the post Cold War East Asian security setting to demonstrate why there is a paradoxical inter state peace He points out processes that have been important for the creation of a continuing relative peace in East Asia as well as conflict prevention and peacebuilding mechanisms **US-China Competition and the South China Sea Disputes** Huiyun Feng,Kai He,2018-05-11 Traditionally the South China Sea SCS issue was not on the negotiation table between the United States and China However the tensions between the United States and China over the SCS have gradually simmered up to a strategic level Why and how did the SCS become a flashpoint between the United States and China Will the United States and China really go to war over the SCS Why did China adopt an assertive policy towards the South China Sea in the 2000s What will regional actors do in the face of this new normal of competition between China and the United States Will multilateral institutions in the Asia Pacific alleviate the potential conflicts over the SCS disputes How will US Chinese competition in the SCS shape the dynamics of Asian security This edited book addresses these questions systematically and theoretically with

contributions from leading scholars in the field of US China relations and Asian security from the United States Australia the United Kingdom and Singapore It elevates the analysis of the SCS disputes from maritime and legal issues to the strategic level between the United States and China *Japan's Relations with Southeast Asia* Peng Er Lam,2013 The Fukuda Doctrine has been the official blueprint to Japan s foreign policy towards Southeast Asia since 1977 This book examines the Fukuda Doctrine in the context of Japan Southeast Asia relations and discusses the possibility of a non realist approach in the imagining and conduct of international relations in East Asia The collapse of 54 years of Liberal Democratic Party rule and the advent of a new Democratic Party of Japan raises the question of whether the Fukuda Doctrine is still relevant as a framework to analyse Tokyo s policy and behaviour towards Southeast Asia Looking at its origins and norms amidst three decades of change the book argues that the Fukuda Doctrine is still relevant to Japan Southeast Asian relations and should be extended to relations between China and Japan if an East Asian Community is to be built The book goes on to discuss the Fukuda Doctrine in relation to the power shift in Asia including the revitalization of Japan s security role By providing a detailed understanding of a non western perspective of Japan s relationship with Southeast Asia this book is a useful contribution for students and scholars of Asian Studies Politics and International Relations **Asian Geopolitics and the US-China Rivalry** Felix Heiduk,2021-07-22 This book analyses the ways in which foreign policy actors in Asia have responded to the emerging great power conflict between the US and the People s Republic of China focusing on medium and small states across the Indo Pacific The book offers a much needed counterpoint to existing analyses on the Indo Pacific and China s BRI and presents a new perspective by examining how great power politics are locally reinterpreted conditioned or at times even contested It illustrates the policy level challenges which the US China rivalry poses for established political and economic practices and outlines how these challenges can be best addressed by smaller states and their societies A timely assessment of the power play in the Indo Pacific with the angle of Sino American rivalry this book makes an important contribution to the study of Political Science International Relations Asian Studies and Security Studies Chapter 10 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license *Realising Rights* Mathew Davies,2014-09-15 This book presents the hitherto unstudied variety of ways that human rights socialisation is attempted in the context of regional organisations arguing that existing conceptual accounts of this phenomenon need to be expanded to best explain this diversity By placing the study of the European Union s relationship with Turkey alongside parallel studies of the Association of Southeast Asian Nations engagement with Myanmar and the Organization of American States history with Panama this book argues that rights socialisation efforts are far more diverse than previously thought Alongside the conditionality that dominates the EU experience and that has received the majority of existing academic attention this book argues that both the politics of social influence the strategic manipulation of legitimacy and the politics of debate over the meaning of

membership also drive socialisation efforts This book situates these socialisation efforts along the journey states take when applying to joining and then maintaining membership of a regional organisation and further distinguishes between what conditions are necessary for socialisation to be attempted and what further requirements are needed for that attempt to be successful To appreciate the diversity of socialisation politics revealed this book constructs an inclusive conceptual framework drawing on both rational choice and constructivist theorising and will be of interest to students of Politics and International Relations

Historical Dictionary of International Organizations in Asia and the Pacific Derek McDougall, 2014-10-01 Historical Dictionary of International Organizations in Asia and the Pacific Second Edition covers global international and regional organizations in Asia and the Pacific and encompasses both governmental and non governmental organizations This second edition covers the history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 200 cross referenced entries on important personalities thematic topics and major international issues affecting the region This book is a valuable tool for anyone seeking details about international organizations in Asia and the Pacific and the international context within which those organizations function

[ASEAN's External Agreements](#) Marise Cremona, David Kleimann, Joris Larik, Rena Lee, Pascal Vennesson, 2015-04-16 ASEAN is coming of age as an international actor and international treaty maker To date more than two hundred external agreements and other instruments have been concluded in the name of ASEAN This book provides the first systematic account of the legal framework governing ASEAN s burgeoning external relations practice It focuses in depth on ASEAN s wide ranging mandate to promote its values and principles in the wider region and beyond as well as the highly intergovernmental and at times haphazard handling of the bloc s relations with the outside world Furthermore it reveals that there are two basic meanings of ASEAN in its international dealings which have important implications under international law ASEAN as an international organisation with its own legal personality and ASEAN as the collectivity of its member states This timely and thoughtful book is a valuable resource for practitioners and scholars of international law ASEAN law international relations regional integration and governance

The ASEAN Regional Security Partnership Angela Pennisi di Floristella, 2015-08-25 ASEAN s role as a security provider remains largely a matter of scholarly debate Through the lens of the concept of regional security partnership this book uncovers a more nuanced understanding of ASEAN capacity highlighting both its merits and fragilities in coping with traditional and emerging security problems

The Routledge Handbook of Asian Security Studies Sumit Ganguly, Andrew Scobell, Joseph Chinyong Liow, 2009-12-04 The Handbook of Asian Security Studies provides a detailed exploration of security dynamics in the three distinct subregions that comprise Asia and also bridges the study of these regions by exploring the geopolitical links between each of them This Handbook is divided geographically into four main parts Part I Northeast Asia Part II South Asia Part III Southeast Asia Part IV Cross Regional Issues Despite the richness and complexity of security issues in Asia and the theoretical and conceptual debates

these have spawned there is no single volume that scholars can turn to for succinct cogent and dispassionate analysis of these issues The Handbook of Asian Security Studies fills this important gap in the literature dealing with all major security issues in the area which range from unresolved territorial disputes maritime and inland irredentist claims and intra state conflicts to transnational terrorist movements and nuclear rivalries This volume contains essays by many leading scholars in the field and will be essential reading for all students of Asian security Asian politics and International Relations in general Sumit Ganguly is a professor of Political Science and holds the Rabindranath Tagore Chair in Indian Cultures and Civilizations at Indiana University Bloomington He is the author co author editor or co editor of some 15 books on South Asian politics He is also the founding editor of the only refereed social science journal devoted to the study of contemporary India The India Review and a founding editor of Asian Security Andrew Scobell is Associate Professor of International Affairs and Director of the China Certificate Program at the Bush School of Government and Public Affairs at Texas A M University located in College Station Texas He is co editor of the journal Asian Security and has edited or co edited 12 books on Asian security topics Joseph Chinyong Liow is Associate Professor and Head of Research at the Rajaratnam School of International Studies Nanyang Technical University Singapore He is co editor of Order and Security in Southeast Asia Routledge 2005 and author of The Politics of Indonesia Malaysia Relations One Kin Two Nations Routledge 2005 Regional Organisations and Security Stephen Aris, Andreas Wenger, 2013-10-30 This book aims to examine the conceptions and practices of security adopted by Regional Organisations ROs across the globe Since the end of the Cold War there has been an increased focus on regions as a relevant realm for security with actors within regional contexts identifying a significant degree of interdependency between one another As a consequence international security has taken on a distinct regionally institutionalised character as seen by the increase in calls for greater utilisation of Chapter VIII Regional Arrangements of the UN in order to create a devolved UN led system of global security management However the idea of a system of global security management is a remote prospect because divergence seems to be as important as commonality in terms of regional security In light of the above Regional Organisations and Security analyses the primary ROs that are active in Africa Asia Eurasia the Middle East and South America The findings of individual case studies are compiled to highlight disparities and similarities in how security is seen prioritised understood practised managed and implemented across regions On this basis the authors reach conclusions about whether we live in an increasingly globalised or regionally distinct world and go on to assess the prospects for a globalised system of security management and consider how this might be developed and organised This book will be of interest to students of comparative regionalism international organisations international security and IR The Oxford Handbook of Comparative Regionalism Tanja A.
