**Money for Everyone** Malcolm Torry, 2013-06-27 Due to government cuts the benefits system is currently a hot topic. In this timely book a Citizen's Income sometimes called a Basic Income is defined as an unconditional non-withdrawable income for every individual as a right of citizenship. This much-needed book written by an experienced researcher and author is the first for over a decade to analyse the social, economic and labour market advantages of a Citizen's Income in the UK. It demonstrates that it would be simple and cheap to administer, would reduce inequality, enhance individual freedom and would be good for the economy, social cohesion, families and the employment market. It also contains international comparisons and links with broader issues around the meaning of poverty and inequality, making a valuable contribution to the debate around benefits. Accessibly written this is essential reading for policy makers, researchers, teachers, students and anyone interested in the future of our society and our economy.

***Lived Institutions as History of Experience*** Johanna Annola, Hanna Lindberg, Pirjo Markkola, 2023-12-26 This open access book focuses on institutions that were produced and formed by the emerging welfare state. How were institutions experienced by the people who interacted with them? How did institutions as sites of experience shape and structure people's everyday lives?

Histories of institutions have mainly focused on the structures and power relations produced by institutional settings. Likewise despite an extensive historiography of the welfare state reflections on individuals experiences of welfare are few. By using lived institutions as its conceptual frame this edited collection merges the fields of institutional studies the history of the welfare state and the novel and vibrant field of the history of experience.
