**Collaborative Writing in the Long Nineteenth Century** Heather Bozant Witcher, 2022-03-17 Bringing the collaborative process to life through an array of examples Heather Witcher shows that sympathetic co creation is far more than the mere act of writing together While foregrounding the material aspects of collaboration hands uniting on the page blank space left for fellow contributors the writing and exchanging of drafts this study also illuminates its social aspects and its reliance on Victorian liberalism dialogue the circulation of correspondence the lived experience of collaboration and on a less material plane transhistorical collaborations with figures of the past Witcher takes a broad approach to these partnerships and in doing so challenges traditional expectations surrounding the nature of authorship itself not least its typical classification as a solitary activity Within this new framework collaboration enables the titles of coauthor influencer editor critic and inspiration to coexist This book celebrates the plurality of collaboration and underscores the truly social nature of nineteenth century writing

**Women and Early Modern Cultures of Translation** Hilary Brown, 2022 Women and Early Modern Cultures of Translation Beyond the Female Tradition is a major new intervention in research on early modern translation and will be an essential point of reference for anyone interested in the history of women translators Research on women translators has often focused on early modern England the example of early modern England has been taken as the norm for the rest of the continent and has shaped research on gender and translation more generally This book brings a new European perspective to the field by introducing the case of Germany It draws attention to forty women who can be identified as translators in sixteenth and seventeenth century Germany and shows how their work does not fit easily into traditional narratives about marginalization and subversiveness The study uses the example of Germany to argue against reading the work of translating women primarily through the lens of gender and to challenge claims about the existence of a female translation tradition which transcends the boundaries of time and place Broadening our perspective to include Germany provides a more nuanced and informed account of the position of women within European translation cultures and forces us to rethink gender as a category of analysis in translation history The book makes the case for a new woman interrogated approach to translation history to borrow a concept from Carol Maier and as such it will provide a blueprint for future work in the area Provided by publisher

**T. S. Eliot and the Art of Collaboration** Richard Badenhause, 2005-01-13 Richard Badenhause examines the crucial role that collaboration with other writers played in the development of T S Eliot s works from the earliest poetry and unpublished prose to the late plays He demonstrates Eliot s dependence on collaboration in order to create but also his struggle to accept the implications of the process In case studies of Eliot s collaborations Badenhause reveals the

complexities of Eliot's theory and practice of collaboration Examining a wide range of familiar and uncollected materials Badenhansen explores Eliot's social psychological textual encounters with collaborators such as Ezra Pound John Hayward Martin Browne and Vivienne Eliot among others Finally this study shows how Eliot's later work increasingly accommodates his audience as he attempted to apply his theories of collaboration more broadly to social cultural and political concerns

*Sociocultural and Power-Relational Dimensions of Multilingual Writing* Amir Kalan, 2021-05-14 This book examines the writing practices of three adult multilingual writers through the prism of their writing in English as an additional language It illustrates some of the social cultural and political contexts of the writers literacy activities and discusses how these impact their literate and intellectual lives It reflects on the para and meta textual dimensions of writing because organic writing practices are almost always performed within sociocultural and power relational contexts In our highly compartmentalized educational structures writing education has been severed from those organic components focusing mainly on writing stylistics This book proposes creating space for organic writing practices in our everyday writing pedagogies and argues for a writing pedagogy that acknowledges the complex interactions of social emotional and identity related layers of writing

Gender, Collaboration, and Authorship in German Culture John B. Lyon, Laura Deiulio, 2019-08-22 Gender Collaboration and Authorship in German Culture challenges a model of literary production that persists in literary studies the so called Geniekult or the idea of the solitary male author as genius that emerged around 1800 in German lands A closer look at creative practices during this time indicates that collaborative creative endeavors specifically joint ventures between women and men were an important mode of literary production during this era This volume surveys a variety of such collaborations and proves that male and female spheres of creation were not as distinct as has been previously thought It demonstrates that the model of the male genius that dominated literary studies for centuries was not inevitable that viable alternatives to it existed Finally it demands that we rethink definitions of an author and a literary work in ways that account for the complex modes of creation from which they arose Collective Creation in Contemporary Performance Kathryn Mederos

Syssoyeva, 2013-08-28 This edited volume situates its contemporary practice in the tradition which emerged at the beginning of the twentieth century Collective Creation in Contemporary Performance examines collective and devised theatre practices internationally and demonstrates the prevalence breadth and significance of modern collective creation **The History of**

*Theaters of Desire: Authors, Readers, and the Reproduction of Early Chinese Song-Drama, 1300-2000* P.

Sieber,2003-07-17 Blending a flair for textual nuance with theoretical engagement *Theaters of Desire* not only contributes to our understanding of the most influential form of early Chinese song drama in local and international cultural contexts but adds a Chinese perspective to the scholarship on print culture authorship and the regulatory discourses of desire The book argues that particularly between 1550 and 1680 Chinese elite editors rewrote and printed early plays and songs so called Yuan dynasty zaju and sanqu to imagine and embody new concepts of authorship readership and desire an interpretation that contrasts starkly with the national and racially oriented reception of song drama developed by European critics after 1735 and subsequently modified by Japanese and Chinese critics after 1897 By analyzing the critical and material facets of the early song and play tradition across different historical periods and cultural settings *Theaters of Desire* presents a compelling case study of literary canon formation      *Creative Activism Research, Pedagogy and Practice* Elspeth Tilley,2022-03-10 This collection explores the growing global recognition of creativity and the arts as vital to social movements and change Bringing together diverse perspectives from leading academics and practitioners who investigate how creative activism is deployed taught and critically analysed it delineates the key parameters of this emerging field

**Women's Literary Collaboration, Queerness, and Late-Victorian Culture** Jill R. Ehnenn,2017-05-15 The first full length study to focus exclusively on nineteenth century British women while examining queer authorship and culture Jill R Ehnenn s book is a timely interrogation into the different histories and functions of women s literary partnerships For Vernon Lee Violet Paget and Kit Anstruther Thomson Somerville and Ross Edith Somerville and Violet Martin Elizabeth Robins and Florence Bell and Katharine Bradley and Edith Cooper the couple who wrote under the pseudonym of Michael Field collaborative life and work functioned strategically as sites of discursive resistance that critique Victorian culture in ways that would be characterized today as feminist lesbian and queer Ehnenn s project shows that collaborative texts from such diverse genres as poetry fiction drama the essay and autobiography negotiate many limitations of post Enlightenment patriarchy Cartesian subjectivity and solitary creativity industrial capitalism and alienated labor and heterosexism In so doing these jointly authored texts employ a transgressive aesthetic and invoke the potentials of female spectatorship refusals of representation and the rewriting of history Ehnenn s book will be a valuable resource for scholars and students of Victorian literature and culture women s and gender studies and collaborative writing      **A Vocabulary of Thinking** Deborah M. Mix,2007-12

Using experimental style as a framework for close readings of writings produced by late twentieth century North American women Deborah Mix places Gertrude Stein at the center of a feminist and multicultural account of twentieth century innovative writing Her meticulously argued work maps literary affiliations that connect Stein to the work of Harryette Mullen

Daphne Marlatt Betsy Warland Lyn Hejinian and Theresa Hak Kyung Cha By distinguishing a vocabulary which is flexible evolving and simultaneously individual and communal from a lexicon which is recorded fixed and carries the burden of masculine authority Mix argues that Stein s experimentalism both enables and demands the complex responses of these authors Arguing that these authors have received relatively little attention because of the difficulty in categorizing them Mix brings the writing of women of color lesbians and collaborative writers into the discussion of experimental writing Thus rather than exploring conventional lines of influence she departs from earlier scholarship by using Stein and her work as a lens through which to read the ways these authors have renegotiated tradition authority and innovation Building on the tradition of experimental or avant garde writing in the United States Mix questions the politics of the canon and literary influence offers close readings of previously neglected contemporary writers whose work doesn t fit within conventional categories and by linking genres not typically associated with experimentalism lyric epic and autobiography challenges ongoing reevaluations of innovative writing

Snauwaert Rosemary Sullivan and Sheena Wilson      *Toward an Anti-Capitalist Composition* James Rushing Daniel, 2022-08-15 In *Toward an Anti Capitalist Composition* James Rushing Daniel argues that capitalism is eminently responsible for the entangled catastrophes of the twenty first century precarity economic and racial inequality the decline of democratic culture and climate change and that it must accordingly become a central focus in the teaching of writing Delving into pedagogy research and institutional work he calls for an ambitious reimagining of composition as a discipline opposed to capitalism's excesses Drawing on an array of philosophers political theorists and activists Daniel outlines an anti capitalist approach informed by the common a concept theorized by Pierre Dardot and Christian Laval as a solidaristic response to capitalism rooted in inventive political action Rather than relying upon claims of membership or ownership the common supports radical collective acts of remaking that comprehensively reject capitalist logics Applying this approach to collaborative writing student debt working culture and digital writing Daniel demonstrates how the writing classroom may be oriented toward capitalist harms and prepare students to critique and resist them He likewise employs the common to theorize how anti capitalist interventions beyond the classroom could challenge institutional privatization and oppose the adjunctification of the professoriate Arguing that composition scholars have long neglected marketization and corporate power *Toward an Anti Capitalist Composition* extends a case for adopting a resolute anti capitalist stance in the field and for remaking the university as a site of common work      **New Books on Women and Feminism** ,2002      [Transpositions](#) Alison Rice, 2021-10-15 This publication benefited from the support of the Institute for Scholarship in the Liberal Arts at the University of Notre Dame This collective volume concentrates on the concept of transposition exploring its potential as a lens through which to examine recent Francophone literary cinematic theatrical musical and artistic creations that reveal multilingual and multicultural realities The chapters are composed by leading scholars in French and Francophone Studies who engage in interdisciplinary reflections on the ways transcontinental movement has influenced diverse genres It begins with the premise that an attentiveness to migration has inspired writers artists filmmakers playwrights and musicians to engage in new forms of translation in their work Their own diverse backgrounds combine with their awareness of the itineraries of others to have an impact on the innovative languages that emerge in their creative production These contemporary figures realize that migratory actualities must be transposed into different linguistic and cultural contexts in order to be legible and audible in order to be perceptible either for the reader the listener or the viewer The novels films plays works of art and musical pieces that exemplify such transpositions adopt inventive elements that push the limits of formal composition in French This work is therefore often inspiring as it points in evocative ways toward fluid influences and a plurality of interactions that render impossible any static conception of being or belonging
