Irony's Edge Linda Hutcheon, 1994 The edge of irony says Linda Hutcheon is always a social and political edge Irony depends upon interpretation it happens in the tricky unpredictable space between expression and understanding Irony's Edge is a fascinating compulsively readable study of the myriad forms and the effects of irony It sets out for the first time a sustained clear analysis of the theory and the political contexts of irony using a wide range of references from contemporary culture Examples extend from Madonna to Wagner from a clever quip in conversation to a contentious exhibition in a museum Irony's Edge outlines and then challenges all the major existing theories of irony providing the most comprehensive and critically challengin theory of irony to date *Cultural Theory and Popular Culture* John Storey, 1998 This reader is intended as a theoretical analytical and historical introduction to the study of popular culture within cultural studies It is divided into seven representative sections The first six sections each contain a selection of readings from a particular approach to popular culture culture and civilisation tradition culturalism structuralism and post structuralism Marxism feminism and postmodernism providing a comprehensive overview and examples of the main theoretical perspectives The final section contains readings from recent debates within the study of popular culture Together these sections chart the theoretical development of the study of popular culture within cultural studies and provide examples of the analysis of the texts and practices of popular culture within each specific tradition Each section is introduced edited and contextualised by John Storey **The Cultural Studies Reader** Simon During, 1999 The Cultural Studies Reader is essential reading for any student wanting to know how cultural studies developed where it is now and its future directions **Music, Performance and African Identities** Toyin Falola, Tyler Fleming, 2012-03-15 Cutting across countries genres and time periods this volume explores topics ranging from hip hop's influence on Maasai identity in current day Tanzania to jazz in Bulawayo during the

interwar years using music to tell a larger story about the cultures and societies of Africa **Theorizing Revolutions** John Foran, 2003-09-02 In *Theorizing Revolutions* some of the most exciting thinkers in the study of revolutions today look critically at the many theoretical frameworks through which revolutions can be understood and apply them to specific revolutionary cases. The theoretical approaches considered in this way include state centred perspectives, structural theory, world system analysis, elite models, demographic theories and feminism, and the revolutions covered range in time from the French Revolution to Eastern Europe in 1989 and in place from Russia to Vietnam and Nicaragua. **The Social Science Encyclopedia** Adam Kuper, 2003-12-16 The *Social Science Encyclopedia* first published in 1985 to acclaim from social scientists, librarians and students, was thoroughly revised in 1996 when reviewers began to describe it as a classic. This third edition has been radically recast. Over half the entries are new or have been entirely rewritten, and most of the balance have been substantially revised. Written by an international team of contributors, the *Encyclopedia* offers a global perspective on the key issues within the social sciences. Some 500 entries cover a variety of enduring and newly vital areas of study and research methods. Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences: What is the influence of genes on behaviour? What is the nature of consciousness and cognition? What are the causes of poverty and wealth? What are the roots of conflict: wars, revolutions and genocidal violence? This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society. **Club Cultures** Sarah Thornton, 2013-08-23 This is an innovative contribution to the study of popular culture, focusing on the youth cultures that revolve around dance clubs and raves. **Hollywood's Artists** Virginia Wright Wexman, 2020-07-21 Today the director is considered the leading artistic force behind a film. The production of a Hollywood movie requires the labor of many people: from screenwriters and editors to cinematographers and boom operators, but the director as author of the film overshadows them all. How did this concept of the director become so deeply ingrained in our understanding of cinema? In *Hollywood's Artists*, Virginia Wright Wexman offers a groundbreaking history of how movie directors became cinematic auteurs that reveals and pinpoints the influence of the Directors Guild of America (DGA). Guided by Frank Capra's mantra, 'one man, one film', the Guild has portrayed its director members as the creators responsible for turning Hollywood entertainment into cinematic art. Wexman details how the DGA differentiated itself from other industry unions, focusing on issues of status and creative control as opposed to bread and butter concerns like wages and working conditions. She also traces the Guild's struggle for creative and legal power, exploring subjects from the language of on-screen credits to the House Un-American Activities Committee's investigations of the movie industry. Wexman emphasizes the gendered nature of images of the great director, demonstrating how the DGA promoted the idea of the director as a masculine hero. Drawing on a broad array of archival sources, interviews and theoretical and sociological insight, *Hollywood's Artists* sheds new light on the ways in which the Directors Guild of America

has shaped the role and image of directors both within the Hollywood system and in the culture at large Cultural Hegemony in the United States Lee Artz, Bren Ortega Murphy, 2000-06-23 Popular usage equates hegemony with dominance a meaning far from Antonio Gramsci's original concept where hegemony appears as a contested culture that meets the minimum needs of the majority while serving the interests of the dominant class This text is the first to present cultural hegemony in its original form as a process of consent resistance and coercion Hegemony is illustrated with examples from American history and contemporary culture including practices that represent race gender and class in everyday life U S cultural hegemony depends in part on how well media government and other dominant institutions popularize beliefs and organize practices that promote individualism and consumerism Corporate dominance and market values reign only through the consent of the majority which for the time being finds material political and cultural benefit from existing social relations As deep social contradictions undermine brittle hegemonic relations the subordinate majority including blacks women and workers will seek a new cultural hegemony that overcomes race gender and class inequality **Urban Histories in Practice** Jeffrey Kruth, Steven Rugare, 2022-09-08 This volume brings together ideas about the material and social transformation of cities by asking what is the relationship between history memory and the contemporary city The urgency of this question grows in the contexts of rapid urbanization in the Global South and urban decline in the deindustrializing areas of the Global North Within these spaces multiple disciplines shape our capacity to know the contemporary city The work presented here invites the reader to undertake critical and creative approaches regarding how these disciplines might shape this process ultimately making it more equitable and just Using various methods the contributors engage in critical readings of specific built and discursive legacies in numerous global contexts Differing forms of a social agenda permeate each piece but none is utopian or totalizing Rather the emphasis is on various forms of close reading The authors begin with the city as found and address each context in specific and precise terms The contributions here bring together histories in critical and creative ways while also catalyzing future possibilities In this way these writings frame urban history and morphology discourse not only as arenas for theoretical posturing but also as calls for action *'Blerwytirhwng?' The Place of Welsh Pop Music* Sarah Hill, 2017-07-05 In the 1960s Welsh language popular music emerged as a vehicle for mobilizing a geographically dispersed community into political action As the decades progressed Welsh popular music developed beyond its acoustic folk roots adopting the various styles of contemporary popular music and ultimately gaining the cultural self confidence to compete in the Anglo American mainstream market The resulting tensions between Welsh and English amateur and professional rural and urban the local and the international necessitate the understanding of Welsh pop as part of a much larger cultural process Not merely a Celtic issue the cultural struggles faced by Welsh speakers in a predominantly Anglophone environment are similar to those faced by innumerable other minority communities enduring political social or linguistic domination The aim of *Blerwytirhwng The Place of Welsh Pop Music* is to explore the popular music which

accompanied those struggles to connect Wales to the larger Anglo American popular culture and to consider the shift in power from the dominant to the minority the centre to the periphery By surveying the development of Welsh language popular music from 1945 2000 Blerwythirhwng The Place of Welsh Pop examines those moments of crisis in Welsh cultural life which signalled a burgeoning sense of national identity which challenged paradigms of linguistic belonging and out of which emerged new expressions of Welshness *The SAGE Handbook of Early Childhood Literacy* Joanne Larson, Jackie Marsh, 2012-11-09 This new edition of the much loved Handbook of Early Childhood Literacy has been revised and updated to retain its cutting edge focus on emergent and important areas of research This comprehensive work guides the reader through current social cultural and historical analysis on a global scale The new edition contains a greater range of methodologies and chapters on space and literacy disabilities and early childhood literacy digital literacies indigenous literacy play and literacy policy In the Handbook readers will find coverage of all the key topics in early childhood literacy The exceptional list of contributors offers in depth expertise in their respective areas of knowledge The Handbook is essential for Undergraduate students Masters students PhD students CPD students researchers and literacy centre personnel The second edition of this internationally respected and widely used text encompasses a myriad of new issues and insights both through new contributions and thoughtfully revised chapters which raise fresh questions and challenges for research and practice In pushing the boundaries still further the handbook retains its rightful place at the forefront of research into early childhood literacy practice in the 21st century Professor Teresa Cremin Open University UK This handbook provides in depth knowledge of insights and theories about the dynamic process of how children come to know literacy as thinking humans in social and cultural spaces There is a rich array of research perspectives of children s meaning making through family and digital literacies play and literacy and in school and out of school literacy experiences Yetta Goodman Regents Professor University of Arizona *Dance of Life* Craig Lockard, 1998-04-01 The rock era is over according to one pop music expert Another laments that rock music is metamorphosed into the musical wallpaper of ten thousand lifts hotel foyers shopping centers airport lounges and television advertisements that await us in the 1990s Whatever its current role and significance in Anglo American society popular music has been and remains a tremendous social and cultural force in many parts of the world This book explores the connections between popular music genres and politics in Southeast Asia with particular emphasis on Indonesia the Philippines Thailand Malaysia and Singapore *Runaway Daughters* Kathryn A. Sloan, 2008-11-15 Against the backdrop of nineteenth century Oaxaca City Kathryn Sloan analyzes rapto trials cases of abduction and or seduction of a minor to gain insight beyond the actual crime and into the reality that testimonies by parents their children and witnesses reveal about courtship practices generational conflict the negotiation of honor and the relationship between the state and its working class citizens in post colonial Mexico Unlike the colonial era where paternal rule was absolute Sloan found that the state began to usurp parental authority in the home with the introduction of liberal

reform laws As these laws began to shape the terms of civil marriage the courtroom played a more significant role in the resolution of familial power struggles and the restoration of family honor in rapto cases Youths could now exert a measure of independence by asserting their rights to marry whom they wished In examining these growing rifts between the liberal state and familial order within its lower order citizens Sloan highlights the role that youths and the working class played in refashioning systems of marriage honor sexuality parental authority and filial obedience **Telling Chinese History**

Frederic E. Wakeman, 2009-03-10 Frederic Wakeman's scholarship is impeccable and the breadth of learning in this book is astounding I repeatedly found myself slowing down to savor the material Many of the essays in this collection are no longer easily accessible and placing them together in a single volume will be a great benefit to the next generation of students and scholars Joseph W Esherick author of The Origins of the Boxer Uprising This book brings together the best of Frederic Wakeman's articles all of which are beautifully written and represent the remarkable breadth of Wakeman's research The opportunity to read them together sheds new light on Chinese history and on the thought processes of one of the West's greatest historians Madeleine Zelin Director of the East Asian National Resource Center at Columbia University **Gaming**

Cultures and Place in Asia-Pacific Larissa Hjorth, Dean Chan, 2009-06-24 This collection explores the politics of game play and its cultural context by focusing on the Asia Pacific region Drawing from micro ethnographic studies to macro political economy analysis of techno nationalisms and transcultural flows of cultural capital it provides an interdisciplinary model for thinking through the politics of gaming **Genre in Popular Music** Fabian Holt, 2009-10-15 The popularity of the motion picture soundtrack O Brother Where Art Thou brought an extraordinary amount of attention to bluegrass but it also drew its share of criticism from some aficionados who felt the album's inclusion of more modern tracks misrepresented the genre This soundtrack these purists argued wasn't bluegrass but roots music a new and indeed more overarching category concocted by journalists and marketers Why is it that popular music genres like these and others are so passionately contested And how is it that these genres emerge coalesce change and die out In Genre in Popular Music Fabian Holt provides new understanding as to why we debate music categories and why those terms are unstable and always shifting To tackle the full complexity of genres in popular music Holt embarks on a wide ranging and ambitious collection of case studies Here he examines not only the different reactions to O Brother but also the impact of rock and roll's explosion in the 1950s and 1960s on country music and jazz and how the jazz and indie music scenes in Chicago have intermingled to expand the borders of their respective genres Throughout Holt finds that genres are an integral part of musical culture fundamental both to musical practice and experience and to the social organization of musical life
