Rethinking Psychological Anthropology Philip D. Bock, Philip K. Bock, 1995-03-01 The author provides a critical account of the ways that anthropologists have used and misused psychological concepts in their studies of various societies

Rethinking Psychological Anthropology Philip K. Bock, 1999 In this introduction to an important field Bock provides a critical account of the ways that anthropologists have used and misused psychological concepts in their studies of various societies He argues that we must be aware of these past efforts and errors if we are to develop culturally sensitive ways of understanding the relationship of individuals to their societies Starting with nineteenth century studies of primitive mentality the book examines the school of culture and personality including cross cultural correlational studies and continuing on to recent work on sociobiology shamanism self and emotion Relevant psychological concepts are explained as needed and each approach is presented in its own terms before critical examination publisher Fundamentals of Research on Culture and Psychology Valery Chirkov, 2015-11-19 This unique text covers the core research methods and the philosophical assumptions that underlie various strategies designs and methodologies used when researching cultural issues It teaches readers why and

for what purpose one conducts research on cultural issues so as to give them a better sense of the thinking that should happen before they go out and collect data More than a methods text it is about all the steps that go into doing cross cultural research It discusses how to select the most appropriate methods for data analysis and which approach to use and details quantitative qualitative and mixed methods for experimental lab studies and ethnographic field work **The SAGE**

Cross-Cultural Psychology John W. Berry, 2002-09-05 This second edition of the best selling textbook Cross Cultural Psychology has been substantially revised to provide the student with the most comprehensive overview of cross cultural psychology available in one volume The team of internationally acclaimed authors have included the most up to date research in the field and written two new chapters on language and on emotion Within a universalistic framework the book emphasises not only research on basic processes and theory but also methodology and applications of cross cultural psychology with respect to acculturation organisational processes communication health and national development The new format of the book is designed to make it even more accessible and reader friendly and includes chapter outlines chapter summaries further reading and a glossary of key terms **About Psychology** Darryl B. Hill, Michael J. Kral, 2003-03-27 A critical and historical overview of psychology **Anthropologists in the Field** Lynne Hume, Jane Mulcock, 2004 An excellent introduction to real world ethnography this book covers short and long term participant observation and ethnographic interviewing and uses diverse cultures as cases **Global Mental Health** Brandon A Kohrt, Emily

Mendenhall,2016-07-01 While there is increasing political interest in research and policy making for global mental health there remain major gaps in the education of students in health fields for understanding the complexities of diverse mental health conditions Drawing on the experience of many well known experts in this area this book uses engaging narratives to illustrate that mental illnesses are not only problems experienced by individuals but must also be understood and treated at the social and cultural levels The book includes discussion of traditional versus biomedical beliefs about mental illness the role of culture in mental illness intersections between religion and mental health intersections of mind and body and access to health care is ideal for courses on global mental health in psychology public health and anthropology departments and other health related programs

The Shadow Side of Fieldwork Athena McLean,Annette Leibling,2008-04-15 The Shadow Side of Fieldwork draws attention to the typically hidden or unacknowledged aspects of ethnographic fieldwork encounters that nevertheless shape the resulting knowledge and texts Addressing these invisible elusive unspoken or mysterious elements introduces a distinctive rigor and responsibility to ethnographic research Luminaries in anthropology dare to explore the unspeakable and invisible in the ethnographic encounter Considers personal and professional challenges ethical epistemological and political faced by researchers who examine the subjectivities inherent in their ethnographic insights Explores the value and limitations of addressing the personal in ethnographic research Includes a critical discussion of the anthropologist s self in the field Introduces imaginative rigor to ethnographic research to heighten confidence in anthropological knowledge

Sport, Dance and Embodied Identities Noel Dyck,Eduardo P. Archetti,2020-08-20 Sport and dance command the passions and devotion of countless athletes dancers and fans worldwide Although conventionally thought to reside within separate social realms these two embodied cultural forms are revealed in this benchmark volume to share a vital capacity to constitute and express identities through their practiced movements and scripted forms Thus the work of choreographers and coaches along with the performances of dancers and athletes offer not merely entertainment and aesthetic accomplishment but also powerful means for celebrating existing social arrangements and cultural ideals or alternately for imagining and advocating new ones Drawing on a wide selection of sport and dance activities from around the world this book elucidates the ways in which embodied performances both mirror and reshape social life It traces for example how football salsa and tango can each be employed to articulate or rewrite national and gender identities Also examined are children s sport and the dynamics by which immigration and cultural integration along with the socialization of children and youth may be directed through the organization of community sport The volume investigates the marshalling of sport and dance in settings from Africa to Ireland as vehicles for framing moral issues that revolve around the appropriate use protection and exhibition of the body This innovative study establishes the paradoxical fashion in which dance and sport can unite certain people and communities while at the same time serving exclusionary and nationalistic purposes

Fire in the Dragon and Other Psychoanalytic Essays on Folklore Géza Róheim,2021-08-10 The only Freudian to have been

originally trained in folklore and the first psychoanalytic anthropologist to carry out fieldwork Gza Rcheim 1891 1953 contributed substantially to the worldwide study of cultures Combining a global perspective with encyclopedic knowledge of ethnographic sources this Hungarian analyst demonstrates the validity of Freudian theory in both Western and non Western settings These seventeen essays written between 1922 and 1953 are among Rcheim s most significant published writings and are collected here for the first time to introduce a new generation of readers to his unique interpretations of myths folktales and legends From Australian aboriginal mythology to Native American trickster tales from the Grimm folktale canon to Hungarian folk belief Rcheim explores a wide range of issues such as the relationship of dreams to folklore and the primacy of infantile conditioning in the formation of adult fantasy An introduction by folklorist Alan Dundes describes Rcheim s career and each essay is prefaced by a brief consideration of its intellectual and bibliographical context **The Routledge**
