Bellier, Thomas M. Wilson, 2020-12-22 One of the problems facing Europe is that the building of institutional Europe and top down efforts to get Europeans to imagine their common identity do not necessarily result in political and cultural unity Anthropologists have been slow to consider the difficulties presented by the expansion of the EU model and its implications for Europe in the 21st Century Representing a new trend in European anthropology this book examines how people adjust to their different experiences of the new Europe The role of culture religion and ideology as well as insiders social and professional practices are all shown to shed light on the cultural logic sustaining the institutions and policies of the European Union On the one hand the activities of the European institutions in Brussels illustrate how people of many different nationalities languages and cultures can live and work together On the other hand the interests of many people at the local regional and national levels are not the same as the Eurocrats Contributors explore the issues of unity and diversity in Europe building through various European institutions images and programmes and their effects on a variety of definitions of identity in such locales as France Denmark the United Kingdom Ireland and Belgium Federalism Doomed? Andreas Heinemann-Grüder, 2002 The conceptual uncertainty when dealing with processes of integration and disintegration in Europe is striking because traditional notions of the nation state constitutionalism sovereignty and federalism do not account for emerging realities in either Western or Eastern Europe This volume explores the complex inter relationship between federal arrangements and their effects on integrating multi ethnic societies in Europe and takes stock of current debates on the effects of federalism on integration and disintegration in Eastern and Western Europe For the first time federalism is addressed in a pan European context and an attempt is made to look for remedies to overcome nationalism in both East and West within a federalist institutional framework European Foreign Policy and the European Parliament in the 1990s Donatella M. Viola, 2019-06-04 This title was first published in 2000 This book investigates the European Parliament's stance vis à vis the 1990 1991 Gulf and 1991 1992 Yugoslav crises In unveiling the parliamentary multi faceted view of these events reference has been made to the positions taken by constituent political groups and their voting behaviour In particular the following questions have been addressed has the European Parliament sought to define and shape a common foreign policy with respect to the above crises What specific functions have the European Parliament political groups performed Have political groups succeeded in achieving an internal cohesion Has the European Parliament overcome divisions among its members through the formation of party coalitions despite the considerable flow of published material on external relations of the European Union and the European Parliament virtually no study has explored in depth the links between these two areas The purpose of this book is to fill the gap in the existing literature breaking new ground by combining a qualitative and qualitative analysis of parliamentary behaviour with foreign policy *Contemporary European Foreign Policy* Walter Carlsnaes, Helene Sjørnsen, Brian White, 2004-04-01 This major new book introduces and examines the latest developments in European foreign policy It provides a complete overview of the ways in which the very nature of foreign policy in Europe has

changed and advances new insights into contemporary European foreign policy analysis The book is structured around three parts Part one provides a concise overview of the latest theories and concepts in this growing field of study and research Part two assembles and reviews a series of contemporary issue areas including security and defense economic foreign policy diplomacy national cooperation human rights and sovereignty Part three mirrors and builds on Part two by providing an applied case study to each of the preceding topics Throughout the book the authors address and incorporate both the national and European Union levels of foreign policy and explore the complex interactions between the two The result is a book that will be essential reading for all students and researchers seeking a deeper understanding of European foreign policy today and the wider implications for future foreign policy analysis in politics and international relations
