**Rethinking the Nineteenth Century** Francisco O. Ramirez, 1988      **Nineteenth Century Prose**, 2011      *Revivalism and Cultural Change* George M. Thomas, 2019-04-08

The history of Christianity in America has been marked by recurring periods of religious revivals or awakenings. In this book, George M. Thomas addresses the economic and political context of evangelical revivalism and its historical linkages with economic expansion and Republicanism in the nineteenth century. Thomas argues that large scale change results in social movements that articulate new organizations and definitions of individual, society, authority, and cosmos. Drawing on religious newspapers, party policies and agendas, and quantitative analyses of voting patterns and census data, he claims that revivalism in this period framed the rules and identities of the expanding market economy and the national policy. Subtle and complex. Fascinating. Randolph Roth, *Pennsylvania History*.

*Revivalism and Cultural Change* should be read with interest by those interested in religious movements as well as the connections among religion, economics, and politics. Charles L. Harper, *Contemporary Sociology*. Readers old and new stand to gain much from Thomas's sophisticated study of the macrosociology of religion in the United States during the nineteenth century. He has given the sociology of religion its best quantitative study of revivalism since the close of the 1970s. *Journal for the Scientific Study of Religion*.

**Fugitive Slaves and Spaces of Freedom in North America** Damian Alan Pargas, 2020-09-08

This volume introduces a new way to study the experiences of runaway slaves by defining different spaces of freedom they inhabited. It also provides a groundbreaking continental view of fugitive slave migration, moving beyond the usual regional or national approaches to explore locations in Canada, the U.S. North and South, Mexico, and the Caribbean. Using newspapers, advertisements, and new demographic data, contributors show how events like the Revolutionary War and westward expansion shaped the slave experience. Contributors investigate sites of formal freedom where slavery was abolished and refugees were legally free to determine the extent to which fugitive slaves experienced freedom in places like Canada while still being subject to racism. In sites of semiformal freedom, as in the northern United States, fugitives' claims to freedom were precarious because state abolition laws conflicted with federal fugitive slave laws. Contributors show how local committees strategized to interfere with the work of slave catchers to protect refugees. Sites of informal freedom were created within the slaveholding South where runaways who felt relocating to distant destinations was too risky formed maroon communities or attempted to blend in with free black populations. These individuals procured false documents or changed their names to avoid detection and pass as free. The essays discuss slaves' motivations for choosing these destinations, the social networks that supported their plans, what it was like to settle in their new societies, and how slave flight impacted broader debates about slavery. This volume redraws the map of escape and emancipation during this period, emphasizing the importance of place in defining the meaning and extent of freedom. Contributors: Kyle Ainsworth, Mekala Audain, Gordon S. Barker, Sylviane A. Diouf, Roy E. Finkenbine, Graham Russell Gao Hodges, Jeffrey R. Kerr, Ritchie Viola.

Franziska Miller James David Nichols Damian Alan Pargas Matthew Pinsker A volume in the series Southern Dissent edited by Stanley Harrold and Randall M Miller Humanitarian Intervention and Changing Labor Relations Marcel van der Linden, 2010-12-17 The sixteen essays in this collection discuss the direct and indirect impact of the British Act for the Abolition of the Slave Trade 1807 on labor relations in the Americas Africa and South East Asia *Overcoming Global Inequalities* Immanuel Wallerstein, Christopher Chase-Dunn, Christian Suter, 2015-11-17 This book examines the changing nature of global inequalities and efforts that are being made to move toward a more egalitarian world society The contributors are world historical sociologists and geographers who place the contemporary issues of unequal power wealth and income in a global historical perspective The geographers examine the roles of geopolitics and patterns of warfare in the historical development of the modern world system and the sociologists examine endeavours to improve the situations of poor peoples and nations and to engage the challenges of sustainability that are linked with global inequalities *Overcoming Global Inequalities* contains cutting edge research from engaged social scientists intended to help humanity deal with the challenges of global inequality in the 21st century *Making Waves* William G. Martin, 2015-12-03 *Making Waves* unearths the successive worldwide waves of revolts rebellions and revolutions that have shaken and remade the world from the eighteenth century to the present It challenges us to rethink not only our limited conceptions of social movements but the very character and possibilities of social movements The authors show how successive outbursts of global social protest have undermined world capitalist orders and through both their successes and their failures provided the basis for long periods of stable capitalist rule across all the zones of the world economy The surprises start in the Age of Revolution when the antisystemic wave of slave revolts that led to the Haitian Revolution is related to the systemic effects of their combination with the U S and French Revolutions The analysis comes up to the present when a wave of post 1989 movements points to quite divergent futures based as in the past on the search for alternatives to communities organized by capital accumulation nation states and the accelerating commodification and fragmentation of human needs identities and desires *Slavery and Capitalism* David McNally, 2025 The first systematic Marxist account of the capitalist character of Atlantic slavery Karl Marx's writings on enslavement and labor have fallen out of favor among historians but David McNally injects new life into them *Slavery and Capitalism* gives the first systematic Marxist account of the capitalist character of Atlantic slavery using colonial travel literature planter records and diaries and slave narratives to support the provocative claim for enslaved labor in the plantation system as capitalist commodity production Weaving together history political economy and radical abolitionism McNally demonstrates that plantation slaves formed a modern working class Unlike those scholars who insist that enslaved people were too sensible to set their sights on liberty he highlights the self activity of enslaved people fighting for their freedom and reframes their resistance as labor struggles over production and reproduction with significant implications for US and Atlantic history and for understanding the roots of racial capitalism *The Meaning Of Freedom* Frank

McGlynn, Seymour Drescher, 1992-05-15 In this interdisciplinary study scholars consider the aftermath of slavery focusing on Caribbean societies and the southern United States What was the nature and impact of slave emancipation Did the change in legal status conceal underlying continuities in American plantation societies Was there a common postemancipation pattern of economic development How did emancipation affect the politics and culture of race and class This comparative study addresses precisely these types of questions as it makes a significant contribution to a new a growing field Ecology and the World-System Walter L. Goldfrank, David Goodman, Andrew Szasz, 1999-06-30 Integrating environmental and world systems analyses in chapters ranging from the ancient to the contemporary from the global to the local from West to East and from North to South this book is the first collection to analyze environmental issues from the world systems perspective The introduction provides Immanuel Wallerstein s fullest explication of the role of ecological constraints in the world system Early chapters diagnose the increasing environmental threats to global sustainability and suggest ways to arrive at an integrated theoretical understanding of those threats The work then shows the historical and geographical range necessary to do justice to ecological considerations in chapters considering ancient civilizations capitalism the circumpolar North the dam builders of Asia and the polluters of East Central Europe The final chapters analyze the successes and limits of environmental movements in the United States South Africa and South Korea *Space and Transport in the World-System* Stephen G. Bunker, Paul S. Ciccantell, 1998-02-28 Key metaphors in world system analysis are profoundly spatial but there have been few attempts to understand how space location and topography affect world system organization and process To fill this gap this book examines case studies of the restructuring of space and transport in core semiperipheral and peripheral economies It addresses such topics as the role of ocean transport in linking terrestrially based units of the capitalist world economy the role of land transport systems in the construction and restructuring of relationships between raw materials peripheries and core economies and the role of the airplane in transforming and representing changing spatial economic and social relations in the capitalist world economy World systems theory and many other perspectives on the world economy including international political economy and analysis of globalization typically pay only limited attention to issues of space location and the role of transportation in the world economy This book identifies key theoretical and empirical issues and provides the basis for formulating research strategies to address this gap in our understanding **On the Road to Global Labour History**, 2017-09-18 Global Labour History is a latecomer to historical science It has only developed in the last three decades This anthology provides a comprehensive overview of the state of the art Prominent representatives of the discipline discuss its fundamental methodological and conceptual aspects In addition the volume contains field and case studies from Africa and Latin America as well as from the Middle East and China In these studies the local regional and continental constitutive processes of the working class are discussed from a global historical perspective The anthology has been composed as a Festschrift dedicated to Marcel van der Linden the leading theoretician of and networker for Global Labour

History      **Emergent Issues in Education** Robert F. Arnove, Philip G. Altbach, Gail P. Kelly, 1992-07-01 In *Emergent Issues in Education* leading scholars in comparative education and in the politics sociology anthropology and economics of education illuminate worldwide trends in critical issues that confront policymakers and practitioners in different national settings Among the topics raised and analyzed are the organization governance and financing of education the content of curriculum texts and tests and the quality and nature of teacher training Among the issues examined is the tension that has emerged between the imperative to achieve equality of educational opportunity and the concern of educational decision makers to maintain and upgrade the quality of academic offerings Aspects of this tension are manifested in the reform movements of the 1980s especially the excellence movement that has resurfaced in the United States Reform movements are evident in countries that have experienced increased enrollment at all levels of schooling in the post World War II period In the United States as elsewhere there has been a reassessment of the relevance of education to the economy and polity and of the role of government and industry in education      **Asia and the Transformation of the World-System** Ganesh K. Trichur, 2015-12-03 In this collaboratively authored book world system scholars critically synthesize Asia's re-emerging centrality despite the myriad financial crises that have punctuated the end of the U S dominated Cold War world order From different vantage points the authors review the turbulent landscape of the region that points toward a new Asian world order as well as contradictory symptoms and signals The text highlights the salience of Northeast Asia the resurgence of Russia and Eurasianism and the class gender and ecological implications of a conflict ridden regional ascent for the future of the North South divide and for the struggle between the spirit of Davos and the spirit of Porto Alegre      *Sacred Companies* Nicholas Jay Demerath, 1998 Religion is intrinsically social and hence irretrievably organizational although organization is often seen as the darker side of the religious experience power routinization and bureaucracy Religion and secular organizations have long received separate scholarly scrutiny but until now their confluence has been little considered This interdisciplinary collection of mostly unpublished papers is the first volume to remedy the deficit The project grew out of a three year inquiry into religious institutions undertaken by Yale University's Program on Non Profit Organizations and sponsored by the Lilly Endowment The scholars who took part in this effort were challenged to apply new perspectives to the study of religious organizations especially that strand of contemporary secular organizational theory known as New Institutionalism The result was this groundbreaking volume which includes papers on various aspects of such topics as the historical sources and patterns of U S religious organizations contemporary patterns of denominational authority the congregation as an organization and the interface between religious and secular institutions and movements The contributors include an interdisciplinary mix of scholars from economics history law social administration and sociology      *Hegemonic Decline* Jonathan Friedman, Christopher Chase-Dunn, 2016-01-08 Although the United States is currently the world's only military and economic superpower the nation's superpower status may not last The possible futures of the global

system and the role of U S power are illuminated by careful study of the past This book addresses the problems of conceptualizing and assessing hegemonic rise and decline in comparative and historical perspective Several chapters are devoted to the study of hegemony in premodern world systems And several chapters scrutinize the contemporary position and trajectory of the United States in the larger world system in comparison with the rise and decline of earlier great powers such as the Dutch and British empires Contributors Kasja Ekholm Johnny Persson Norihisa Yamashita Giovanni Arrighi Beverly Silver Karen Barkey Jonathan Friedman Christopher Chase Dunn Rebecca Giem Andrew Jorgenson John Rogers Shoon Lio Thomas Reifer Peter Taylor Albert Bergesen Omar Lizardo Thomas D Hall     **A World-Systems Reader** Thomas D. Hall,2000-03-01 This book brings together some of the most influential new research from the world systems perspective The authors survey and analyze new and emerging topics from a wide range of disciplinary perspectives from political science to archaeology Each analytical essay is written in accessible language so that the volume serves as a lucid introduction both to the tradition of world systems thought and the new debates that are sparking further research today

**Food and Agrarian Orders in the World-Economy** Philip McMichael,1995-01-30 The emergence of a world economy depends on the reorganization of agriculture and food systems to provision the work force and the industries associated with the division of labor This work emphasizes the central role played by food and agriculture in the world economy The book includes a historical dimension along with the formulation of the challenges that face the world today Social scientists of all kinds but especially economists sociologists environmentalists and political scientists should be interested in this volume

*Age Structuring in Comparative Perspective* David I. Kertzer,K. Warner Schaie,2013-05-13 This volume studies age as a basis for social organization by uniting research from the social science disciplines while implementing both cross cultural and historical perspectives The contributors a distinguished interdisciplinary group of scholars advance our understanding of age structuring by relating the changing societal level processes and individual aging experiences and examining retirement practices age and power in society and cultural conceptions of age     **Contested Ground** Donna J. Guy,Thomas E. Sheridan,1998-04-01 The Spanish empire in the Americas spanned two continents and a vast diversity of peoples and landscapes Yet intriguing parallels characterized conquest colonization and indigenous resistance along its northern and southern frontiers from the role played by Jesuit missions in the subjugation of native peoples to the emergence of livestock industries with their attendant cowboys and gauchos and threats of Indian raids In this book nine historians three anthropologists and one sociologist compare and contrast these fringes of New Spain between 1500 and 1880 showing that in each region the frontier represented contested ground where different cultures and politics clashed in ways heretofore little understood The contributors reveal similarities in Indian white relations military policy economic development and social structure and they show differences in instances such as the emergence of a major urban center in the south and the activities of rival powers The authors also show how ecological and historical differences between the northern and southern

frontiers produced intellectual differences as well In North America the frontier came to be viewed as a land of opportunity and a crucible of democracy in the south it was considered a spawning ground of barbarism and despotism By exploring issues of ethnicity and gender as well as the different facets of indigenous resistance both violent and nonviolent these essays point up both the vitality and the volatility of the frontier as a place where power was constantly being contested and negotiated
