**Elizabeth A. Wood**

## **Rethinking The Soviet Experience Politics And History Since 1917:**

*Rethinking the Soviet Experience* Stephen F. Cohen, 1986 Written in 1985 this book cuts through the Cold War stereotypes of the Soviet Union to arrive at fresh interpretations of that country's traumatic history and later political realities The author probes Soviet history society and politics to explain how the U S S R remained stable from revolution through the mid 1980s

**Rethinking the Soviet Experience** Stephen F. Cohen, 1984 *Rethinking the Soviet experience* Stephen F. Cohen, 1985

The Baba and the Comrade Elizabeth A. Wood, 1997 How could the baba traditionally the backward Russian woman be mobilized as a comrade in the construction of a new state and society Drawing on newly available archival materials historian Elizabeth Wood explores the Bolshevik government's campaign to draw women into the public sphere and involve them in the world of politics in the early Soviet years

Debates on Stalinism Mark Edele, 2020-06-11 *Debates on Stalinism* introduces major debates about Stalinism during and after the Cold War Did Stalinism form a system in its own right or was it a mere stage in the overall development of Soviet society Was it an aberration from Leninism or the logical conclusion of Marxism Was its violence the revenge of the Russian past or the result of a revolutionary mindset Was Stalinism the work of a madman or the product of social forces beyond his control The book shows the complexities of historiographical debates where evidence politics personality and biography are strongly entangled *Debates on Stalinism* allows readers to better understand not only the history of history writing but also contemporary controversies and conflicts in the successor states of the Soviet Union in particular Russia and Ukraine

Politics, Work, and Daily Life in the USSR James R. Millar, 1987 *Politics work and daily life in the USSR* is designed to illustrate how the Soviet social system really works and how the Soviet people cope with it This study is based on the first comprehensive survey of life in the USSR since the Harvard Project over thirty three years ago The essays contained analyze the variations in attitude and behaviour reflected in the findings of the Soviet Interview Project a five year investigation of contemporary daily life in the USSR The survey involved interviewing thousands of recent emigrants from the USSR to the United States as a means of learning about their former day to day lives Some aspects of this survey dealt with areas the Soviets themselves had never investigated so the data were not and indeed still are not available even in unpublished Soviet sources This study of a large volume of firsthand observations is extremely valuable to anyone interested in the inner workings and behavioural dynamics of the contemporary Soviet social system

**Counterfactual Thought Experiments in World Politics** Philip E. Tetlock, Aaron Belkin, 2020-06-30 Political scientists often ask themselves what might have been if history had unfolded differently if Stalin had been ousted as General Party Secretary or if the United States had not dropped the bomb on Japan Although scholars sometimes scoff at applying hypothetical reasoning to world politics the contributors to this volume including James Fearon Richard Lebow Margaret Levi Bruce Russett and Barry Weingast find such counterfactual conjectures not only useful but necessary for drawing causal inferences from historical data Given the importance of

counterfactuals it is perhaps surprising that we lack standards for evaluating them To fill this gap Philip Tetlock and Aaron Belkin propose a set of criteria for distinguishing plausible from implausible counterfactual conjectures across a wide range of applications The contributors to this volume make use of these and other criteria to evaluate counterfactuals that emerge in diverse methodological contexts including comparative case studies game theory and statistical analysis Taken together these essays go a long way toward establishing a more nuanced and rigorous framework for assessing counterfactual arguments about world politics in particular and about the social sciences more broadly

**The Totalitarian Legacy of the Bolshevik Revolution** Alexander Riley, Alfred Kentigern Siewers, 2019-06-18 In this collection world renowned scholars of Bolshevism and world communism analyze the human costs of the Bolshevik Revolution its contribution to the spread of totalitarianism and the responses it inspired among American and Western intellectuals Together their essays constitute a profound refusal of the poesy of totalitarianism that is based on sober research and detailed analysis of the limits of utopian politics and the dangers of cruel ideologies based in the cosmetic aesthetic of moral perfectionism and lyric intoxication This study provides an accurate and succinct depiction of the nature of Bolshevism and its consequences in light of several decades of research including former Soviet archival materials and American intelligence such as the Venona files

**Stalin and Stalinism** Martin McCauley, 2019-04-09 One of the most successful dictators of the twentieth century Stalin transformed the Communist Party of the Soviet Union into one of the world's leading political parties Stalin and Stalinism explores how he amassed retained and deployed power to dominate not only his close associates but the population of the Soviet Union and Soviet Empire Moving from leader to autocrat and finally despot Stalin played a key role in shaping the first half of the twentieth century with at one time around one third of the planet adopting his system His influence lives on despite turning their backs on Stalin's anti capitalism in the later twentieth century countries such as China and Vietnam retain his political model the unbridled power of the Communist Party First published in 1983 Stalin and Stalinism has established itself as one of the most popular textbooks for those who want to understand the Stalin phenomenon This updated fourth edition draws on a wealth of new publications and includes increased discussion on culture religion and the new society that Stalin fashioned as well as more on spying Stalin's legacy and his character as well as his actions Supported by a chronology of key events Who's Who and Guide to Further Reading this concise assessment of one of the major figures of the twentieth century world history remains an essential read for students of the subject

*Evgeny Pashukanis* Michael Head, 2007-09-12 A thorough examination of Pashukanis' writings this book is a significant contribution to a proper assessment of Pashukanis' work the value of his theoretical legacy and the contemporary relevance of Marxist legal theory Interest in the best known Soviet legal scholar Evgeny Pashukanis remains widespread and his work retains considerable relevance His writings provide a rich source of material on the Marxist theory of law and the state as well as the attempts to apply that doctrine in Soviet Russia In this book Michael Head considers Pashukanis' work both within its historical context

and in relation to contemporary legal theory answering a range of questions including How and why did Pashukanis emerge as the pre eminent Soviet jurist from 1924 to 1930 Why did he come under only minor criticism from 1930 to 1936 and then be denounced and executed in 1937 as a Trotskyite saboteur Why have many Western scholars generally praised the quality and originality of Pashukanis work yet also drawn the conclusion that his fate illustrates the intrinsic impossibility of the entire communist project Serving as an introduction to Pashukanis and Marxist legal theory and a timely contribution in light of the universal assault on civil liberties in the indefinite War on Terror and the constant escalation of law and order measures in Western societies this volume is an invaluable resource for those interested in jurisprudence and critical thought

*A Companion to Russian History* Abbott Gleason, 2014-01-28 This companion comprises 28 essays by international scholars offering an analytical overview of the development of Russian history from the earliest Slavs through to the present day Includes essays by both prominent and emerging scholars from Russia Great Britain the US and Canada Analyzes the entire sweep of Russian history from debates over how to identify the earliest Slavs through the Yeltsin Era and future prospects for post Soviet Russia Offers an extensive review of the medieval period religion culture and the experiences of ordinary people Offers a balanced review of both traditional and cutting edge topics demonstrating the range and dynamism of the field

**Politics, Paradigms, and Intelligence Failures** Ofira Seliktar, 2015-05-20 Washington's failure to foresee the collapse of its superpower rival ranks high in the pantheon of predictive failures The question of who got what right or wrong has been intertwined with the deeper issue of who won the Cold War Like the disputes over who lost China and Iran this debate has been fought out along ideological and partisan lines with conservatives claiming credit for the Evil Empire's demise and liberals arguing that the causes were internal to the Soviet Union The intelligence community has come in for harsh criticism for overestimating Soviet strength and overlooking the symptoms of crisis the discipline of Sovietology has dissolved into acrimonious irrelevance Drawing on declassified documents interviews and careful analysis of contemporaneous literature this book offers the first systematic analysis of this predictive failure at the paradigmatic foreign policy and intelligence levels Although it is focused on the Soviet case it offers lessons that are both timely and necessary

The Soviet Myth of World War II Jonathan Brunstedt, 2021-07-15 This pioneering monograph a Foreign Affairs Best Book of the Year asks how a socialist society ostensibly committed to Marxist ideals of internationalism and global class struggle reconciled itself to notions of patriotism homeland Russian ethnocentrism and the glorification of war Through the lens of the myth and remembrance of victory in World War II arguably the central defining event of the Soviet epoch the book shows that while state historical narratives reinforced a sense of Russian primacy and Russian dominated ethnic hierarchy the story of the war enabled an alternative supra ethnic source of belonging which subsumed Russian and non Russian loyalties alike to the Soviet whole The tension and competition between Russocentric and internationalist conceptions of victory which burst into the open during the late 1980s reflected a wider struggle over the nature of patriotic identity in a multiethnic

society that continues to reverberate in the post Soviet space The book sheds new light on long standing questions linked to the politics of remembrance and provides a crucial historical context for the patriotic revival of the war s memory in Russia today Joseph Stalin and the Art of Tyranny William Nester,2025-10-30 Joseph Stalin and the Art of Tyranny examines authoritarian rule revealing how tyrants sustain power through a mix of comfort terror love and fear often convincing their subjects of their divine purpose Such leaders build systems of loyalists and subservient institutions enabling unchecked authority Joseph Stalin exemplifies this tyranny As Soviet leader from 1929 to 1953 he implemented totalitarian policies nationalizing industry and agriculture controlling economic production through five year plans and eliminating dissent through imprisonment forced labour or execution His brutal regime caused an estimated 20 million deaths Despite this grim legacy Stalin s reputation remains divisive In Western democracies he is remembered as a genocidal dictator but in Russia he often ranks among the most admired historical figures illustrating the paradox of his influence Stalinism served as a model for Communist regimes in China Vietnam and Cuba shaping their governance While many of these nations transitioned toward democracy countries like Russia China and North Korea continue to echo Stalinist practices Modern leaders such as Saddam Hussein Vladimir Putin and Xi Jinping have adopted similar strategies of control Joseph Stalin and the Art of Tyranny offers crucial insights into authoritarianism revealing the enduring appeal and devastating impact of totalitarian rule

**Extreme Politics** Charles King,2010-01-14 Why do some violent conflicts endure across the centuries while others become dimly remembered ancient struggles among forgotten peoples Is nationalism really the powerful force that it appeared to be in the 1990s This wide ranging work examines the conceptual intersection of nationalist ideology social violence and the political transformation of Europe and Eurasia over the last two decades The end of communism seemed to usher in a period of radical change an era of extreme politics that pitted nations ethnic groups and violent entrepreneurs against one another from the wars in the Balkans and Caucasus to the apparent upsurge in nationalist mobilization throughout the region But the last twenty years have also illustrated the incredible diversity of political life after the end of one party rule Extreme Politics engages with themes from the micropolitics of social violence to the history of nationalism studies to the nature of demographic change in Eurasia Published twenty years since the collapse of communism Extreme Politics charts the end of Eastern Europe as a place and chronicles the ongoing revolution in the scholarly study of the post communist world The Moderate Bolshevik Charters Wynn,2022-04-11 This first English language biography of Mikhail

Tomsky reveals his central role in all the key developments in early Soviet history including the stormy debates over the role of unions in the self proclaimed workers state Charters Wynn s compelling account illuminates how the charismatic Tomsky rose from an impoverished working class background and years of tsarist prison and Siberian exile to become both a Politburo member and the head of the trade unions where he helped shape Soviet domestic and foreign policy along generally moderate lines throughout the 1920s His failed attempt to block Stalin s catastrophic adoption of forced

collectivization would tragically make Tomsky a prime target in the Great Purges      **Stakhanovism and the Politics of Productivity in the USSR, 1935-1941** Lewis H. Siegelbaum, 1988 The movement's significance as a symbol of a shift in official Soviet priorities from construction of the means of production to intensive use of capital and labor is emphasized in this analysis      **Moscow Politics and The Rise of Stalin** Catherine Merridale, 1990-10-19 Focusing on the development of the Communist Party in Moscow between 1925 and 1932 and its ultimate assumption of absolute power This volume examines in detail the political changes in Moscow including the crisis over collectivization and the organization strategy of the Party in Moscow      Historical Narratives in the Soviet Union and Post-Soviet Russia T. Sherlock, 2007-04-16 Establishing a causal link between historical discourse and political change this important book describes the role of historical discourse in establishing maintaining or destroying elite and mass political identities in Soviet and post Soviet space      *Modern Revolutions* John Dunn, 1989-06-22 Many political regimes today draw such legitimacy as they have from a revolution the destruction of an existing political elite and its replacement by a different group or groups drawn from inside the same society A large part of the ideological dispute in world politics has come in consequence to turn on an interpretation of the character of revolutions as political and social events It is extremely difficult to separate ideological assessments of the desirability or otherwise of what has occurred in revolutions from causal explanations of why these revolutions occurred and both major traditions in the analysis of revolutionary phenomena have been damaged by their failure to distinguish clearly between explanation and assessment In examining eight major revolutions of the twentieth century John Dunn helps readers to remedy this state of affairs by thinking for themselves
