

# Sculpture Light Space

**Brent Richards**

## **Sculpture Light Space:**

**Phenomenal** Robin Lee Clark, 2011-10-08 During the 1960s and 1970s a loosely affiliated group of Los Angeles artists including Larry Bell Mary Corse Robert Irwin James Turrell and Doug Wheeler more intrigued by questions of perception than by the crafting of discrete objects embraced light as their primary medium Whether by directing the flow of natural light embedding artificial light within objects or architecture or playing with light through the use of reflective translucent or transparent materials each of these artists created situations capable of stimulating heightened sensory awareness in the receptive viewer Phenomenal California Light Space Surface companion book to the exhibition of the same name explores and documents the unique traits of the phenomenologically engaged work produced in Southern California during those decades and traces its ongoing influence on current generations of international artists Foreword by Hugh M Davies

Additional contributors Michael Auping Stephanie Hanor Adrian Kohn Dawna Schuld Artists Peter Alexander Larry Bell Ron Cooper Mary Corse Robert Irwin Craig Kauffman John McCracken Bruce Nauman Eric Orr Helen Pashgian James Turrell De Wain Valentine Doug Wheeler

**Modern Sculpture** Douglas Dreishpoon, 2022-10-25 Artists of any ilk can be extremely opinionated when it comes to what they do how they do it and what it might mean Sculptors are no exception Modern Sculpture Artists in Their Own Words presents a selection of manifestos documents statements articles and interviews from more than ninety subjects including an ample selection of contemporary sculptors With this book editor Douglas Dreishpoon defers to sculptors whose varied points of view illuminate the medium's perpetual transformation from object to action concept to phenomenon over the course of two centuries Each chapter progresses in chronological sequence to highlight the dominant stylistic philosophical and thematic threads that unite each kindred group The result is a distinctive artist centric history and survey of sculpture that showcases the expansive dimensions and malleability of the medium

**Culture and Computing** Matthias Rauterberg, 2023-07-11 This book constitutes the refereed proceedings of the 11th International Conference on Culture and Computing C C 2023 held as part of the 25th International Conference HCI International 2023 which was held virtually in Copenhagen Denmark in July 2023 The total of 1578 papers and 396 posters included in the HCII 2023 proceedings was carefully reviewed and selected from 7472 submissions The C C 2023 proceeding focuses on preserving disseminating and creating cultural heritages via ICT e.g. digital archives to empower humanities research via ICT i.e. digital humanities to create art and expressions via ICT i.e. media art to support interactive cultural heritage experiences e.g. rituals and to understand new cultures born on the Internet e.g. net culture social media games

**Art as Organism** Charissa N. Terranova, 2015-10-10 In this groundbreaking book Charissa Terranova unearths a forgotten narrative of modernism which charts the influence that biology General Systems Theory and cybernetics had on art in the twentieth century From kinetic and interactive art to early computer art and installations spanning an entire city she shows that the digital image was a rich and expansive artistic medium of modernism This book links the emergence of the digital image to

the dispersion of biocentric aesthetic philosophies developed by Bauhaus pedagogue Laszlo Moholy Nagy from 1920s Berlin to the Massachusetts Institute of Technology in the 1970s It uncovers seminal but overlooked references to biology the organism feedback loops emotions and the Gestalt along with an intricate genealogy of related thinkers across disciplines Terranova interprets anew major art movements such as the Bauhaus Op Art and Experiments in Art and Technology E A T by referencing contemporary insights from architects embryologists electrical engineers and computer scientists among others This book reveals the complex connections between visual culture science and technology that comprise the deep history of twentieth century art

**New Glass Architecture** Brent Richards, 2006 Much of modern architecture has been conceived using glass to create minimal structures This book begins with an introduction that traces the history of glass in architecture and also describes the developments in glass technology It also features specially commissioned photographs by the renowned architectural photographer Dennis Gilbert

**The Art of Light on Stage** Yaron Abulafia, 2015-07-16 The Art of Light on Stage is the first history of theatre lighting design to bring the story right up to date In this extraordinary volume award winning designer Yaron Abulafia explores the poetics of light charting the evolution of lighting design against the background of contemporary performance The book looks at the material and the conceptual the technological and the transcendental Never before has theatre design been so vividly and excitingly illuminated The book examines the evolution of lighting design in contemporary theatre through an exploration of two fundamental issues 1 What gave rise to the new directions in lighting design in contemporary theatre 2 How can these new directions be viewed within the context of lighting design history The study then focuses on the phenomenological and semiotic aspects of the medium for light the role of light as a performer as the medium of visual perception and as a stimulus for imaginative representations in selected contemporary theatre productions by Robert Wilson Romeo Castellucci Heiner Goebbels Jossi Wieler and David Zinder This ground breaking book will be required reading for anyone concerned with the future of performance

Art Jonathan Vickery, Diarmuid Costello, 2007-01-01 The last few decades have witnessed an explosion in ideas and theories on art Art itself has never been so topical but much recent thinking remains inaccessible and difficult to use This book assesses the work of those thinkers including artists who have had a major impact on making criticizing and interpreting art since the 1960s With entries by leading international experts this book presents a concise critical appraisal of thinkers and their ideas about art and its place in the wider cultural context A guide to the key thinkers who shape today s world of art this book is a vital reference for anyone interested in modern and contemporary art its history philosophy and practice

KLEIN Joseph KOSUTH Rosalind KRAUSS Julia KRISTEVA Barbara KRUGER Niklas LUHMANN Jean Fran ois LYOTARD Maurice MERLEAU PONTY WJT MITCHELL Robert MORRIS Linda NOCHLIN Adrian PIPER Griselda POLLOCK Robert SMITHSON Jeff WALL Albrecht WELLMER Richard WOLLHEIM      *Kaleidoscopes of Fire: Unleashing the Magic of Glass Art* Pasquale De Marco, 2025-07-15 Immerse yourself in the captivating world of glass art with this comprehensive and visually stunning volume Embark on a journey through the ages from the ancient origins of glassmaking to the cutting edge innovations of contemporary artists Discover the diverse techniques employed by glass artists from traditional glassblowing and kilnworking to experimental flameworking and sculpting Explore the unique properties of glass as a medium its ability to capture light color and imagination and its power to evoke emotions and challenge perceptions Delve into the rich history of glass art tracing its evolution across cultures and civilizations Learn about the groundbreaking contributions of master glassblowers and the significant role of glass art in architecture design and contemporary society Discover how glass artists engage with social environmental and political issues using their medium to raise awareness provoke thought and inspire change This book showcases the artistry innovation and passion that drive the dynamic field of glass art Through stunning visuals and engaging narratives it celebrates the beauty and versatility of glass as an artistic medium Whether you are an art enthusiast a collector or simply someone who appreciates the beauty of glass this book promises an enriching and immersive experience With its comprehensive exploration of glass art s history techniques and significance this book is an essential resource for anyone interested in this captivating art form It offers a deeper understanding of the creative process the technical mastery and the boundless possibilities of glass as a medium of artistic expression Allow this book to be your guide as you explore the captivating world of glass art where light color and imagination converge to create works of extraordinary beauty and significance If you like this book write a review      **Making Images Move** Gregory Zinman, 2020-01-03 Making Images Move reveals a new history of cinema by uncovering its connections to other media and art forms In this richly illustrated volume Gregory Zinman explores how moving image artists who worked in experimental film pushed the medium toward abstraction through a number of unconventional filmmaking practices including painting and scratching directly on the film strip deteriorating film with water dirt and bleach and applying materials such as paper and glue This book provides a comprehensive history of this tradition of handmade cinema from the early twentieth century to the present opening up new conversations about the production meaning and significance of the moving image From painted film to kinetic art and from psychedelic light shows to video synthesis Gregory Zinman recovers the range of forms tools and intentions that make up cinema s shadow history deepening awareness of the intersection of art and media in the twentieth century and anticipating what is to come      Material Modernity Deborah Ascher Barnstone, Maria Makela, 2022-01-27 Material Modernity explores creative innovation in German art design and architecture during the Weimar Republic charting both the rise of new media and the re fashioning of old media Weimar became famous for the explosion of creative ingenuity across

the arts in Germany due to experiments with new techniques including the move towards abstraction in painting and sculpture and inventive work in such new media as paper and plastic which utilized both new and old methods of art production Individual chapters in this book consider inventions such as the camera and materials like celluloid examine the role of new materials including concrete composites in opening up fresh avenues in the plastic arts and relate advances in the understanding of color perception and psychology to an increased interest in visual perception and the latent potential of color as both architectural ornament and carrier of emotional force in space While art historians usually argue that experimentation in the Weimar Republic was the result of an intentional rejection of traditional modes of expression in the conscious attempt to invent a modern art and architecture unshackled from historic media and methods this volume shows that the drivers for innovation were often far more complex and nuanced It first of all describes how the material shortages precipitated by the First World War along with the devastation to industrial infrastructure and disruption of historic trade routes affected art as did a spirit of experimentation that permeated interwar German culture It then analyzes new challenges in the 1920s to artistic conventions in traditional art modes like painting sculpture drawing architecture textiles and print making and simultaneously probes the likely causes of innovative new methods of artistic production that appeared such as photomontage assemblage mechanical art and multi media art In doing so *Material Modernity* fills a significant gap in Weimar scholarship and art history literature

**The Oxford Dictionary of American Art & Artists** Ann Lee

Morgan,2018-10-04 This new edition of *The Oxford Dictionary of American Art and Artists* has been fully revised and updated as well as including dozens of new entries offering an insightful and informative view of America s artistic heritage An indispensable biographical and critical guide to American art from colonial times to contemporary postmodernism this valuable resource provides readers with a wealth of factual detail and perceptive analysis of America s leading artists This new edition has been updated to include a number of entries on prevailing topics such as body art light and space Indian American art scatter art and transactional art and features many new or greatly expanded biographical entries on artists such as Ida Applebroog Guerilla Girls Peter Hujar and Shirin Neshat Morgan offers readers a wealth of authoritative information as well as well informed analysis and criticism of artists and their work Filled with fascinating historical background and penetrating insight *The Oxford Dictionary of American Art and Artists* is an essential resource for art lovers everywhere

*Twentieth-Century American Art* Erika Doss,2002-04-26 Jackson Pollock Georgia O Keeffe Andy Warhol Julian Schnabel and Laurie Anderson are just some of the major American artists of the twentieth century From the 1893 Chicago World s Fair to the 2000 Whitney Biennial a rapid succession of art movements and different styles reflected the extreme changes in American culture and society as well as America s position within the international art world This exciting new look at twentieth century American art explores the relationships between American art museums and audiences in the century that came to be called the American century Extending beyond New York it covers the emergence of

Feminist art in Los Angeles in the 1970s the Black art movement the expansion of galleries and art schools and the highly political public controversies surrounding arts funding All the key movements are fully discussed including early American Modernism the New Negro movement Regionalism Abstract Expressionism Pop Art and Neo Expressionism *Screening Statues* Steven Jacobs, 2018-04-30 A dynamic scholarly engagement with Susanne Bier's work *Atmospheres of Projection* Giuliana Bruno, 2022-10-13 Following on the success of *Surface* Bruno's previous book with us in this new one she explores the act and art of projection in its manifold guises and what those can tell us about how we think and feel and create the world we inhabit This is not just an exploration of the psychological operation of projection the idea that we cast onto others the qualities we refuse to acknowledge in ourselves It is a major work of cultural history and media archaeology As a way to transform space and atmosphere projection has a long history in the arts dating back to shadow plays camera obscuras magic lantern shows and phantasmagoria But the atmosphere of projection is not a thing of the past alone It is alive and well today It continues to fascinate us as screens filled with moving figures pervade the spaces of the art gallery and the museum as well as the environments of our daily lives What is the root of our fascination How does it manifest in contemporary art How do we define atmosphere How is projection an atmosphere Are these two modalities conceptually and historically related and how so Why are artists today so interested in environments and in elements of projection To explain this continual fascination with projection and atmosphere Bruno traverses psychoanalysis architecture the history of science visual art and moving image culture to see how projective mechanisms and their environments have developed over time

**Allan Kaprow, Robert Smithson, and the Limits to Art** Philip Ursprung, Fiona Elliott, 2013-05-10 This innovative study of two of the most important artists of the twentieth century links the art practices of Allan Kaprow and Robert Smithson in their attempts to test the limits of art both what it is and where it is Ursprung provides a sophisticated yet accessible analysis placing the two artists firmly in the art world of the 1960s as well as in the art historical discourse of the following decades Although their practices were quite different they both extended the studio and gallery into desert landscapes abandoned warehouses industrial sites train stations and other spaces Ursprung bolsters his argument with substantial archival research and sociological and economic models of expansion and limits *Rise of Abstract* Everett Sinclair, AI, 2025-02-26 *Rise of Abstract* explores how abstract sculpture revolutionized art and design by shifting focus from representation to form material and space It examines the philosophical and socio cultural forces behind this shift highlighting how early 20th century artists broke from tradition to explore new modes of expression The book reveals abstract sculpture's lasting influence demonstrating its principles in architecture product design and user interface design The book argues that abstract sculpture fostered innovation in design by prioritizing experimentation and problem solving through form bridging the gap between fine art and practical applications One intriguing fact is how the rise of abstraction coincided with rapid industrialization reflecting a desire to break free from established conventions The book progresses

from defining abstract sculpture's core tenets and examining contributing artistic movements like Cubism and Futurism to exploring its influence on various design disciplines and discussing its contemporary relevance. This book uniquely focuses on abstract sculpture's impact on design, often overlooked in art history. Through historical documents, artist manifestos, and contemporary design research, it provides a comprehensive look at how abstract art reshaped the design world. By adopting a balanced tone, *Rise of Abstract* makes complex ideas accessible to students, practitioners, and anyone interested in the history of modern art and its relationship to contemporary culture.

**History of Art** Horst Woldemar Janson, Anthony F. Janson, 2004. For forty years, this widely acclaimed classic has remained unsurpassed as an introduction to art in the Western world, boasting the matchless credibility of the Janson name. This newest update features a more contemporary, more colorful design and a vast array of extraordinarily produced illustrations that have become the Janson hallmark. A narrative voice makes this book a truly enjoyable read, and carefully reviewed and revised updates to this edition offer the utmost clarity in contributions based on recent scholarship. Extensive captions for the book's incredible art program offer profound insight through the eyes of twentieth-century art historians speaking about specific pieces of art featured throughout. Significantly changed in this edition is the chapter on The Late Renaissance, in which Janson offers a new perspective on the subject, tracing in detail the religious art tied to the Catholic Reform movement, whose early history is little known to many readers of art history. Janson has also rearranged early Renaissance art according to genres instead of time sequence, and he has followed the reinterpretation of Etruscan art begun in recent years by German and English art historians. With a truly humanist approach, this book gives written and visual meaning to the captivating story of what artists have tried to express and why for more than 30,000 years.

**Screen Space Reconfigured** Susanne Saether, Synne Tollerud Bull, 2025-10-01. *Screen Space Reconfigured* is the first edited volume that critically and theoretically examines the many novel renderings of space brought to us by 21st-century screens. Exploring key cases such as post-perspectival space, 3D vertical framing, haptics, and layering, this volume takes stock of emerging forms of screen space and spatialities as they move from the margins to the centre of contemporary media practice. Recent years have seen a marked scholarly interest in spatial dimensions and conceptions of moving image culture, with some theorists claiming that a spatial turn has taken place in media studies and screen practices alike. Yet this is the first book-length study dedicated to on-screen spatiality as such. Spanning mainstream cinema, experimental film, video art, mobile screens, and stadium entertainment, the volume includes contributions from such acclaimed authors as Giuliana Bruno and Tom Gunning, as well as a younger generation of scholars.

**A Companion to Digital Art** Christiane Paul, 2022-01-06. Reflecting the dynamic creativity of its subject, this definitive guide spans the evolution, aesthetics, and practice of today's digital art, combining fresh, emerging perspectives with the nuanced insights of leading theorists. Showcases the critical and theoretical approaches in this fast-moving discipline. Explores the history and evolution of digital art, its aesthetics, and politics, as well as its often turbulent relationships with established institutions.

Provides a platform for the most influential voices shaping the current discourse surrounding digital art combining fresh emerging perspectives with the nuanced insights of leading theorists Tackles digital art's primary practical challenges how to present document and preserve pieces that could be erased forever by rapidly accelerating technological obsolescence Up to date forward looking and critically reflective this authoritative new collection is informed throughout by a deep appreciation of the technical intricacies of digital art

Historical Dictionary of Contemporary Art Ann Lee Morgan, 2016-12-05 The Historical Dictionary of Contemporary Art illuminates important artists styles and movements of the past 70 years Beginning with the immediate post World War II period it encompasses earlier 20th century masters including Pablo Picasso Henri Matisse Henry Moore Alberto Giacometti Joan Mir Jean Dubuffet Stuart Davis Georgia O Keeffe and other well known figures who remained creatively productive while also inspiring younger generations The book covers subsequent developments including abstract expressionism happenings pop art minimalism conceptual art arte povera feminist art photorealism neo expressionism and postmodernism as well as the contributions of such artists as Jackson Pollock Willem de Kooning Mark Rothko Helen Frankenthaler Joan Mitchell Robert Rauschenberg David Hockney Ellsworth Kelly Francis Bacon Louise Bourgeois Lucio Fontana Andy Warhol Richard Serra Donald Judd Joseph Beuys Christo Anselm Kiefer Judy Chicago Ai Weiwei and Jeff Koons Historical Dictionary of Contemporary Art contains a chronology an introduction and an extensive bibliography including more than 900 cross referenced entries on important artists styles terms and movements This book is an excellent resource for students researchers and anyone wanting to know more about contemporary art
