The Amazing Adventures of Roy Hicks Nalle Windahl, 2021-10-18 Ah I see you flipped to this side to see what the book is about Well I am sorry to disappoint you On this side of this book I will tell you why you should read this book and not what the book is about why is that then Well because what the book is really about is what it states in the title No point in repeating that here and if you want to know what adventures it might be it is better to read them inside the book than to get some examples of them here on the back of the cover I mean it would not be fair to the adventures that make up an entire book and try to squeeze them into a few words here on the back of the book would it If you should read this book or not depends on if you have read the first book in this series If not you really don't have to But it might be a good idea to start at the beginning Now if you have read the first book and you expect to continue the story just about where the first book ended I am sorry to disappoint you because you will have to wait for the fourth book to continue that part of the story In this book and the next book you will get other pieces of the puzzle pieces that will make the fourth book much more pleasant to read even if book two and three is not necessary to read to be able to enjoy the over all story But I promise that you will lack some important pieces and details that will make the whole reading experience of the fourth book possibly confusing And if you are fine with that then absolutely no need to read this book But if you are one of those who are curious and kind of want the whole picture I definitely recommend reading this book as well And the third once it gets published Enjoy
