This book accomplishes two distinct tasks First it develops the psychological theory of Dr Viktor E Frankl as a literary hermeneutic Second it applies the hermeneutic by reading the book of Job Key issues emerge through three movements The first movement addresses Frankl's concept of the feeling of meaninglessness and his rejection of reductionism and nihilism The second movement addresses the dual nature of meaning an association is revealed between Frankl's understanding of meaning and the Joban understanding of wisdom The third movement involves an exploration of Frankl's ideas of ultimate meaning and self transcendence As a Holocaust survivor Frankl had a personal stake in the effectiveness of his approach He lived the suffering about which he wrote Because of this reading the book of Job with a hermeneutic based on Frankl's ideas will present readers with opportunities to discover unique meanings and serve to clarify their attitudes toward pain guilt and death As meaning is discovered through participation with the text we will see that Job's final response can become a site for transcending suffering
