Critical Neurophilosophy & Indigenous Wisdom Four Arrows, Gerg Cajete, Jongmin Lee, 2010-01-01 This book begins a long overdue dialogue between Western neuropsychology and Indigenous wisdom The latter holds that technology including that which supports the neurosciences is an important aspect of humanity but that without a deeper understanding of the sacred natural world its consequences will continue to disrupt the balance of life on Earth This book argues that without incorporating Indigenous wisdom into theories relating to brain research and scientific assumptions about human nature humanity may never learn how to avoid this problem After summarizing current studies about such important topics as generosity truthfulness courage humour art spirituality and lateralization two indigenous scholars and a South Korean neuroscientist discuss the research conclusions In most cases the ancient knowledge of Indigenous Peoples reveals significantly contrasting perspectives By offering students of neuropsychology and the various schools of neurophilosophy radically different views than those seen through the lens of Western science this book will help assure that understandings about the human brain may lead to a more healthy balance in human affairs Questions at the end of each chapter give opportunities for the reader to continue the dialogue and find further studies to support or refute the Indigenous assertions

Original Thinking Glenn Aparicio Parry,2015-04-14 In *Original Thinking* Glenn Aparicio Parry delves into the evolution of Western thought to recover the living roots of wisdom that can correct the imbalances in our modern worldview Inspired by groundbreaking dialogues that the author organized between Native American elders and leading edge Western scientists to explore the underlying principles of the cosmos this book offers a radical revisioning of how we think Asking questions such as Is it possible to come up with an original thought What does it mean to be human and How has our thinking created our world today Parry challenges us to consider many of our most basic assumptions To think originally as in thinking new thoughts that have never been thought or said before is according to Parry largely an illusion So too is the idea of linear human progress Most of us have traveled far from our ancestral lands and in so doing lost connection with place the origin of
