A Chronology and Calendar of Documents Relating to the London Book Trade 1641-1700 Donald Francis McKenzie, Maureen Bell, 2005-12-15 The Chronology and Calendar of Documents relating to the London Book Trade 1641 1700 provides for the first time easy access to information about the authors printers and distributors of books in the later seventeenth century Chronological entries allow an insight into the day to day workings of the book trade Substantial indexes allow quick reference to information on specific book titles named authors and book trade personnel and specific topics such as booksellers bills coffee houses and imported books

A Chronology and Calendar of Documents Relating to the London Book Trade 1641-1700 Donald Francis

McKenzie, Maureen Bell, 2005-12-15 *The Chronology and Calendar of Documents relating to the London Book Trade 1641-1700* presents abstracts of documents relating to the book trade and book production between 1641 and 1700. It brings together in one sequence edited abstracts of entries referring to named books, printers and booksellers selected from the manuscripts of the Stationers Company Court Books, all references to printing, publishing, bookselling and the book trade occurring in major historical printed sources: *Calendar of State Papers Domestic*, the *Journals of the Houses of Lords and Commons*, *Reports of the Royal Commission on Historical Manuscripts* and entries for contemporary pamphlets. The labour records of the printing and bookselling trades probably represent the fullest account of any work force in early modern England and the printed products of the trade survive in such great numbers that they enable us to examine them for evidence not only of who made and sold them but also of how they were made. These volumes constitute a reference work of importance not only for literature specialists, bibliographers and historians of book production but also for economic, social and political historians. Not only do they bring together records from a variety of separate printed sources thereby making explicit their interconnections but also they make accessible some less well known manuscript sources notably from the Stationers Company archives. Most importantly the *Chronology and Calendar* extends the earlier work of Arber, Greg and Jackson on the earlier seventeenth century. As a chronological sequence the volumes meet the need for a preliminary narrative history of the trade in the later seventeenth century and the provision of title name and topic indexes renders this an indispensable reference tool for research into the social, political and economic contexts of the book trade, its personnel and its printed output. *Calendar of State Papers, Domestic Series, of the Reign of Anne, Preserved in the Public Record Office* C. S. Knighton, 2005-10 A crucial work of reference for anyone interested in the history of the period. This volume of the *Calendar of State Papers Domestic* for the reign of Queen Anne covers the period from May 1704 to October 1705. It includes not only the main series of state papers domestic but also the related series of state papers Ireland, Scotland, military and naval entry books and Signet Office letter books and docket books. Together with incoming letters of the Secretaries of State there are also some copies of out letters, petitions, regular intelligence reports owing to the war with France and material relating to crime, law and order, censorship and the regulation of trade. There is also full listing of official passes issued to individuals to travel abroad. Overall the volume provides a mine of information on a range of subjects mentioned from the building of the Eddystone lighthouse and the invention of street lighting to a dispute between the colonists of Connecticut and the Mohican Indians. An indispensable tool for the professional historian. *United States Code* United States, 2018 **Wicca: a Year and a Day** Timothy Roderick, 2005 There are no short cuts to becoming a Witch.
