Messages to Young People Ellen Gould Harmon White,1930
White,2002 **Messages to Young People** Ellen G. White,2002 Message to Young People Ellen White,2021-07-27
Messages to Young People by Ellen G White A NEW GIANT Print Edition A4 and big size 15 letters for those people that have problems with the vision Many messages of instruction sympathy reproof and encouragement have come from her pen addressed directly to the young people And these messages always directing the minds of the youth to Christ and to his word as the only source of strength in building noble Christian manhood and womanhood have done much to foster the spirit of consecration that has characterized so many of our young people It was in 1892 and 1893 that messages were given suggesting that our young people should be organized into bands and societies for Christian work **Adolescents and Sex** Sarah Bekaert,2018-08-08 Working with young people can present many challenges Sexual health and contraceptive issues with teenagers often raise legal ethical and sometimes child protection concerns This comprehensive and practical guide is packed with useful advice on contraceptive methods sexually transmitted infections adolescent legal and ethical issues It is presented in an easy to read format that can be dipped into when required and highlights how a young persons clinic can be set up and how existing services can be made more approachable This book will serve as a useful quick reference and all those working with young people will find it valuable reading *Online Resilience and Wellbeing in Young People* Andy Phippen,Louisa Street,2021-11-23 This book explores online resilience and safety from a new perspective by drawing extensively upon the youth voice While online safety as a concept has now existed for well over ten years the majority of policy and narrative is driven by preventative and adultist views of ensuring safety from harm Underpinned by extensive empirical work this book argues that safety or freedom from harm is not an achievable goal and we should refocus upon harm reduction and risk mitigation Fundamental to this argument is that the youth voice clearly states that they will not disclose or ask adults for support because they do not believe they will get help or worse will be punished as a result of disclosure The research shows that professionals often bring their own digital value biases into safeguarding decisions and feel that they should be white knights to young people rather than listening to them and supporting them in a non judgemental way The book will be of great value to researchers and students as well as practitioners teachers and parents interested in digital resilience and safeguarding internet security and youth online behaviour and wellbeing **The Handbook of Clinical Intervention with Young People who Sexually Abuse** Gary O'Reilly,William L. innovation but they are often also considered a problem that we do not know how to respond to Young people can make adults feel uncomfortable because they are neither children who can be told what to do nor adults to be treated as equals From the perspective of adults their status is socially and culturally ambiguous

What Young People Want from Mental Health Services Kerry Gibson, 2021-09-27 Young people experience one of the highest rates of mental health problems of any group but make the least use of the support available to them To reach young people in distress we need to understand what this digital generation want from mental health professionals and services Based on interviews with nearly 400 young people this book offers a vision of youth mental health issues and services through the eyes of young people themselves It offers professionals important insights into the meaning of identity and agency for this generation and explores how these

issues play out in young people's expectations of mental health support. It shows how, despite young people's immersion in digital technology, genuine and trusting relationships remain a key ingredient in their priorities for support. It considers what access to mental health support means for a generation who have grown up with the immediacy enabled by digital technology. Young people's accounts also provide crucial insights into how they are using digital resources to manage their own mental health in ways often not appreciated by professionals who design internet interventions. *What Young People Want From Mental Health Services* offers clear guidance to counsellors, psychologists, psychiatrists, youth workers, social workers, service providers and policymakers about how to work with youth and design their services so they are a better match for young people today. It contributes to a growing movement calling for a Youth Informed Approach to mental health to address the needs of young people.
