*Phoenicians and Carthaginians in the Western Mediterranean* Giovanna Pisano,1999      *Tra Cartagine e Roma* Salvatore De Vincenzo,2012-12-06 This work investigates the Carthaginian territories in Sicily from the period of Punic settlement of the western portion of the island in the 6th century BC through the creation of the Roman province and the Augustan administration It analyzes fundamental questions regarding the Punic and Roman presence in Sicily Specific areas of emphasis include topography town planning fortifications residential architecture temples and necropolises      *Colonial Religion and Indigenous Society in the Archaic Western Mediterranean, C. 750-400 BCE* Lela Manning Urquhart,2010 This project examines the long term responses of indigenous societies in Sicily and Sardinia to colonial religion in the ancient western Mediterranean It conducts a comparative analysis of religious developments among indigenous Greek and Phoenician communities between the 8th and 5th centuries BC It shows that while indigenous communities near Greek colonies in Sicily integrated Greek style material culture and practices into their religious lives those near Phoenician colonies in Sardinia and Sicily showed much less interest in Phoenician material culture and religion This contrast is then explained in terms of the greater social accessibility and more communal features of Greek polis religion which made its practices and material culture broadly attractive across cultural divides in a time of rapid social change      *Rivista di studi fenici*,2013      *La ceramica fenicia di Sardegna* Lorenza Campanella,2000      *The Rough Guide to Sardinia* Robert Andrews,2004 This guide to Sardinia opens with a 16 page section featuring photography of the island s highlights from the beaches of the southern coast to the evocative prehistoric ruins of
