Emerging Market Multinationals in Sub-Saharan Africa Aleksandra Wąsowska, 2025-02-25 The successful entry and survival of multinational enterprises MNEs in foreign markets largely depend on how governments and other stakeholders perceive their legitimacy How do emerging market MNEs legitimise their operations in distant markets What legitimacy threats must they overcome This book explores these questions by examining MNEs from three BRIC economies Brazil India China and Poland the largest economy in Central and Eastern Europe as they enter Sub Saharan Africa SSA We compare how these firms establish legitimacy in SSA exploring both similarities i e general patterns of legitimacy building and differences often rooted in the interplay between the historical and developmental trajectories of their home and host countries The uniqueness of this book lies in three key aspects Firstly it is the first to explore emerging market multinationals entering Africa through the lens of legitimacy building Secondly it analyses the behaviour of corporations from four emerging markets highlighting both commonalities and divergences in their legitimacy challenges and strategies Thirdly its concise format and balance between theory and practice make it particularly useful to a broad range of audiences including scholars students and practitioners especially entrepreneurs and managers aiming for success in Africa s fast growing markets By blending theory with practical insights the book is valuable for scholars students and practitioners in International Business IB and Strategy providing actionable knowledge for entrepreneurs and managers aiming to thrive in the dynamic African markets

The Global Credit Crunch and Foreign Banks' Lending to Emerging Markets Herman Kamil, Kulwant Rai, 2010-04-01 The recent global financial turmoil raised questions about the stability of foreign banks financing to emerging market countries While foreign banks lending growth to most emerging market regions contracted sharply lending to Latin America and the Caribbean LAC was significantly more resilient Analyzing detailed BIS data on global banks lending to LAC countries whether extended directly by their headquarters abroad or by their local affiliates in host countries we show that the propagation of the global credit crunch was significantly more muted in countries where most of foreign banks lending was channeled in domestic currency We also show that foreign banks involvement in LAC has differed in fundamental ways from that in other regions with most of their lending to LAC conducted by their local subsidiaries denominated in domestic currency and funded from a domestic deposit base These characteristics help explain why LAC has not been struck as hard as other emerging markets by the global deleveraging and pullback in foreign banks lending World Trade Organization A.
