Brian Butterworth,2022-04-26 An entertaining investigation of the numerical abilities of animals and our own appetite for arithmetic The philosopher Bertrand Russell once observed that realizing that a pair of apples and the passage of two days could somehow both be represented by the concept we call two was one of the most astonishing discoveries anyone had ever made So what do we make of the incredible fact that animals seem to have inherent mathematical abilities As cognitive psychologist Brian Butterworth shows us in Can Fish Count many simple animals such as bees which count trees and fence posts and guppies which can size up groups have a sense of numbers And unlike humans they don t need to be taught In telling animals stories Butterworth shines new light on one of our most ancient questions Just where exactly do numbers come from He reveals how insights gleaned from studying animals can help us make better sense of our own abilities Full of discovery and delight Can Fish Count is an astonishing journey through the animal kingdom and the human mind      **Rand McNally Chicago Street Guide and Transportation Directory** ,1927      **The Floor Is Lava** Ivan Brett,2019-05-28 With 100 games to start a party ideas to trigger conversation storytelling setups and fiendish puzzles no materials required The Floor Is Lava is a how to for turning screen free time into quality time Put down the phone and pick up the fun Analog play is known to stimulate imaginative thinking problem solving and interpersonal connection However games only seem to exist on screen now and quality time spent together in person is rarer than ever The Floor Is Lava is perfect for anyone looking to disconnect from technology and spend some time with family or friends Packed with one hundred screen free games it s the necessary antidote to digital overload and the answer to every occasion hosting a party long car rides cooling off on summer days sitting around the dinner table holiday gatherings rainy days The best part is you don t need anything to play So what
