The Alexandria Quartet

"... If ever a book bore an instantly recognizable signature on every sentence, this is it. It is in fact a formidable, glowing achievement, and no one has remarked the thing about it is that in spite of the all-pervading spirit of Alexandria, it has, too, a timeliness and grandeur peculiar to works that are big enough to make a world of their own." *The Times Literary Supplement* 30.1.67

Jim Clarke,2017-10-26 The book is the first full length text on Anthony Burgess s fiction in a generation and offers a radical and innovative way of understanding the extensive literary achievements of one of the twentieth century s most innovative authors This book explores Burgess s dazzlingly diverse range of novels through the one key theme which links them all the artistic process itself Borrowing from Nietzsche s aesthetic dichotomy of Apollo and Dionysus the book uncovers the protracted evolution of Burgess s fiction and offers a unifying theory which links his early postcolonial fiction chronologically via his modernist experiments like A Clockwork Orange and Nothing Like The Sun to his late classics Mozart and the Wolfgang and A Dead Man in Deptford This volume clarifies Burgess s seminal role as both late modernist and early postmodernist and lucidly unveils the legacy of England s most mercurial novelist Indian Metaphysics in Lawrence

Durrell Re-read James M. Clawson, 2016-06-20 Reading the twelve major novels of Lawrence Durrell this study argues for their consideration as a single major project an opus marked by themes of liminality and betweenness As major texts of mid twentieth century literature repeatedly earning nominations for the Nobel Prize Durrell's work has attracted renewed critical attention since his centenary in 2012 This study shows the thematic unity of the opus in five areas First by disrupting expectations of love and death and by fashioning plural narrators works in the opus blend notions of the subject and the object Second in their use of metafictional elements the texts present themselves as

neither fiction nor reality Third their approach to place and identity offers something between the naturalistic and the human centric Fourth though the texts initial concerns are engaged with understanding the past and preparing for a future they all resolve in something like the present And fifth though the novels reject many aspects of modernism they reside nevertheless between the poles of modernism and postmodernism Shared with other writers including T S Eliot and Henry Miller as early as the 1940s Durrell s plans for his major works of fiction remained consistent through the publication of the last novel in 1985 and these plans show the need to consider the twelve major works as a unitary whole □□□□□□□□ ,1976
