Nurses Who Led The Way:

Realizing the Future of Nursing: VA Nurses Tell Their Story Department of Veteran Affairs Nurses, 2015-09-29 The stories told in this book reflect the hard work and dedication of the Veterans Affairs nurses who provide care to our nation's heroes. Four key messages outlined in the book help explain the important role of VA nurses. Key Message 1 Nurses should practice to the full extent of their education and training. Key Message 2 Nurses should achieve higher levels of education and training through an improved education system that promotes seamless academic progression. Key Message 3 Nurses should be full partners with physicians and other health care professionals in redesigning health care in the United States. Key Message 4 Effective workforce planning and policy making require better data collection and an improved information structure. This book addresses the staffing issues in military healthcare with policy and workforce planning towards an improved information structure between the nurses, healthcare professionals and physicians. Keywords: Department of Veterans Affairs nursing program, Veteran Affairs VA nursing nurses, Veterans Affairs nursing education program, VA nursing education program, U.S. Department of Veterans Affairs, U.S. department of veterans affairs, VA staffing issues in military healthcare.

An Officer and a Lady Betty Bandel, 2004 One of the negative consequences of the 1978 integration of the various women's auxiliaries into the mainstream of the U.S. military was a loss of institutional memory. The Women in Military Service for America Memorial Foundation was established in part to preserve a thread of history by documenting and celebrating the rich and varied experiences of women in the U.S. military. From 1942 to 1945, Lieutenant Colonel Betty Bandel retired, served in the Women's Army Auxiliary Corps (WAAC), later WAC, the Women's Army Corps, eventually heading the WAC Division of the Army Air Force. During these years, she wrote hundreds of letters to family and friends, tracing her growth from an enthusiastic recruit, a girl in the presence of public figures such as Eleanor Roosevelt, code named Rover, to a seasoned officer and leader. Bandel was one of the Corps' most influential senior officers. Her letters are rich with detail about the WAC's contribution to the war effort and the inner workings of the first large non-nurse contingent of American military women. In addition, her letters offer a revealing look at the wartime emergence of professional women. Perhaps for the first time, women oversaw and directed hundreds of thousands of personnel, acquired professional and personal experiences, and built networks that would guide and influence them well past their war years. Thus, Betty Bandel's story is not only an intimate account of one woman's military experience during World War II but part of the larger story of women's history and progress.
