Southeast Asia Accessions List Cornell University. Libraries, 1989 One Day in a Long War Jeffrey L. Ethell, Alfred Price, 1989 Two historians chronicle May 10 1972 the launch day of Linebacker a highly clarified huge scale Navy and Air Force surprise operation marking the resumption of U S bombing raids on North Vietnam One Day in a Long War Jeffrey L. Ethell, 1991-11-01 Forthcoming Books Rose Army, 1998-06 One Day Too Long Timothy Neil Castle, 1999 He chronicles the Communist air attack on Site 85 the only such aerial bombing of the entire Vietnam War and further details the successful ground assault and current U S and Vietnamese efforts to explain away the missing men **One Day in a Long War** Jeffrey L. Ethell, Alfred Price, 1991-05-01 **Air War Against North Vietnam** United States. Congress. Senate. Committee on Armed Services. Preparedness Investigation Subcommittee, 1967 **Gradual Failure** Jacob Van Staaveren, 2002 **Gradual Failure: The Air War Over North Vietnam, 1965-1966** Jacob Van Staaveren, 2011-07-18 The air war against North Vietnam was launched with the nickname Rolling Thunder This book covers the first phase from March 1965 to late 1966 It begins with the planning and execution of two initial limited air strikes nicknamed Flaming Dart I and II As the air campaign gradually expanded and the permissible targeting area moved northward many in Washington believed air power could never win the war in the north The United States Air Force reached its nadir during the opening two years of the Rolling Thunder air campaign in North Vietnam Never had the Air Force operated with so many restraints and to so little effect These pages are painful but necessary reading for all who care about the nation's military power The author served as a historian for over twenty years with the Air Force history program Originally published by the Air Force History and Museums Program **Air War Over North Vietnam** Stephen Emerson, 2018-02-28 In early 1965 the United States unleashed the largest sustained aerial bombing campaign since World War II against North Vietnam Through an ever escalating onslaught of destruction Operation Rolling Thunder intended to signal America's unwavering commitment to its South Vietnamese ally in the face of continued North Vietnamese aggression break Hanoi's political will to prosecute the war and bring about a negotiated settlement to the conflict It was not to be Against the backdrop of the Cold War and fears of widening the conflict into a global confrontation Washington policy makers micromanaged and mismanaged the air campaign and increasingly muddled strategic objectives and operational methods that ultimately sowed the seeds of failure despite the heroic sacrifices by U S Air Force and Navy pilots and crews Despite flying some 306 000 combat sorties and dropping 864 000 tons of ordnance on North Vietnam 42 per cent more than that used in the Pacific theater during World War II Operation Rolling Thunder failed to drive Hanoi decisively to the negotiating table and end the war That would take another four years and another air campaign But by building on the hard earned political and military lessons of the past the Nixon Administration and American military commanders would get another chance to prove themselves when they implemented operations Linebacker I and II in May and December 1972 And this time the results would be vastly different When

Eschmann, 2017-02-12 Twelve days that shook the world The beginning of the end By the end of Day 9 the bombing of North Vietnam had taken an enormous toll The planners were running out of suitable targets because the damage inflicted on most targets was higher than initially predicted It became questionable whether those few targets remaining in the high threat areas were even of sufficient worth to continue attacking The commander of the air force in the Pacific even suggested that it was time to look for targets in lower threat areas As on previous days the TACAIR support effectively countered the enemy defenses The few MiGs which had managed to get airborne were driven away by the American fighter patrols Although up to 70 SAMs had been fired at the B 52's the accuracy was noticeably poorer The last desperate attempts to defend Hanoi were being made and it appeared the offensive was rapidly coming to a conclusion In late 1972 the Vietnam peace talks were stalled with the war at perhaps its most crucial point The United States was searching for a way to strangle North Vietnam's war waging capabilities by shutting down its supply pipelines in order to force it back to the negotiating table The solution *Linebacker II* a massive intricately coordinated twelve day assault by over 700 combat aircraft against vital targets around Hanoi and Haiphong enemy cities heavily guarded by MiGs SAM missiles and radar guided anti-aircraft Here is an unprecedented look at one of the most critical campaigns of modern air warfare a previously untold story documented in rich fascinating detail It is told in the vividly personal words of the pilots and crews who flew the missions men who dramatically helped to end the American role in the Vietnam conflict and to bring the POWs home Praise for *Linebacker* Military buffs will appreciate this minutely

Ridnour, 2016 As Dennis M. Mike Ridnour writes in the foreword of his new oral history The Vietnam Air War First Person over five million missions were flown in the Vietnam War The many pilots crew and support personnel who risked their lives daily don t deserve to fade into obscurity Unhappy with the lack of first person retellings of the war Ridnour made it his new mission to preserve these men s tales of bravery and duty The result is more than one hundred stories from the front lines of the war Air Force Fighter Pilots Weapon Systems Operators WSOs and Electronic Warfare Officers EWOs recount their stories of air to air engagements near misses successes and failures A pilot explains why he buys a drink for every tanker driver he meets An airman explains what a Thud is A veteran vividly describes his homecoming These stories and others provide a much different account of the war than those found in history books The pages come alive with perilous missions and skilled maneuvers Airmen from all walks of life were united during the war and their tales include stirring accounts of friendship and comradeship **100 Missions North** Ken Bell, 2000-12 A harrowing personal account of the extraordinary dangerous missions the author and his comrades flew over North Vietnam in 1966 1967 At that time American airmen were faced with unprecedented defenses and the highest pilot loss rate exceeding 25% since the early days of the US strategic bombing of Europe during World War II This thrilling book tells what it was like to muster the courage to climb into the cockpit day after day as you watched your comrades fall one by one and how the pilots fought back **The Vietnam War: Air war, North Vietnam**, 1988 **Hognose Silent Warrior** G. F. Schreader, 2017-10-12 The Silent Warriors of the U S Air Force Security Service the back enders on SAC s Hognose RC 135 reconnaissance planes had quietly been in all the USAF air campaigns of the Vietnam War Little is known about the critical role that a few thousand of these unheralded flyboys played in America s air war against communist aggression in Southeast Asia during that era They were merely one of the many integral pieces of the great puzzle that history knows as Vietnam They performed their top secret role in a most spectacular fashion by intercepting enemy communications about troop and materiel movements on the ground surface to air launches and anti aircraft targeting and MiG fighter pilot communications The author was one among many of those American kids of the 60 s who were selected to join the privileged ranks of the air force s elite This is yet

another untold story about Vietnam one you may not have heard about before It is America s involvement as seen through a much different lens a story about those who fought this war using intellect as their only weapon From the early 1960 s until the war was officially declared over after the fall of Saigon in 1975 there was a period of great advancement in America s intelligence gathering efforts It was an unprecedented endeavor to monitor collect and process real time data and information utilized for foreign intelligence and counterintelligence purposes America s skills were honed beyond expectations during this era in particular the airborne intercept mission programs that expanded beyond utilizing older prop planes to newer jet models like the RB 47 later the U 2 and SR 71 super spy planes and in particular the Boeing 717 model configured as the RC 135 reconnaissance aircraft that could be manned with up to thirty five crew members Mostly enlisted personnel these Silent Warriors as they came to be called were the creme de le creme of the USAF They were schooled in linguist

The Vietnam Air War: from the Cockpit Dennis M. Ridnour, 2017-12-26 Grit Courage Tenacity It took a lot to survive the Vietnam War These stories come from real Vietnam airmen and their support crews recounting actual incidents that are sometimes funny sometimes tense and sometimes heartrendingly tragic Part of the fabric of one of the most controversial conflicts in American military history these are experiences many who came and fought never signed up for From pulse pounding combat missions to teary eyed reflections at the funerals of heroes lost these accounts of war and its impacts are as real as it gets Back cover

[Air War - Vietnam](#) Frank Harvey, 1967 From the briefing rooms and bombing runs to the dogfights and last ditch bail outs here are the true stories of the fighting men of Vietnam as told by aviation expert Frank Harvey This is what it was like to fight in the flame filled skies of Southeast Asia
