One Earth Four Or Five Worlds Reflections On Contemporary History:

One Earth, Four Or Five Worlds Octavio Paz, 1985 **Blood, Ink, and Culture** Roger Bartra, 2002-07-12 In this collection Bartra offers commentary on connections between popular culture national ideology and the state assessing sociocultural events and processes in Mexico and analyzing Mexico's cultural and political relationship to the U S

Violence and the Latin American Revolutionaries Michael Radu, This volume departs both from approaches to revolution in Latin America that emphasize interests and those that emphasize socioeconomic and political injustice Rather it deals with real life flesh and bone revolutionary cadres their thoughts backgrounds mentalities and behavior Going beyond clichés about Soviet encroachment in Latin America and injustice breeds revolution the contributors address the issue of the relationship between leaders and followers in a revolutionary context seeing revolutionary leaders as the key to articulating and defining the agenda of the revolution In contrast to most theorizing revolutionary leaders almost invariably come from the privileged even aristocratic classes The findings raise the issue of how well these leaders actually represent the peoples for which they claim to speak They also prompt questions about the democratic nature of guerrilla organizations If the leaders are so far removed by social background and education personal experience and ideological articulation from their followers how realistic is it to see the Left as a purveyor of progress Perhaps it is more correct say the contributors to see their claims as manipulative tactics directed to resolving a struggle for power among competing elites The selection of topics ranges from the historical development of revolutionary struggles since Che Guevara Halperin and Ratliff to the more specific application and motivation behind them Ybarra Rojas and Tismaneanu Chapters deal with the attempt to define a typology of revolutionary leaders Radu and their Western supporters Hollander Some authors Payne Horowitz combine these approaches Many issues examined in this volume are new including an analysis of the gap between the internationalist outlook of the leaders and the parochial views of their followers The violent organizations of the Left in Latin America are shown to be largely the functional result of upper and middle class leaders who combine an appeal to the lumpenproletariat at home with support of alienated Westerners to pursue their own elitist agenda Contexts for Amos Mark Daniel Carroll R., 1992-02-01 This learned volume offers a close reading of chapters 3 to 6 of the book of Amos and attempts to locate biblical study and theological reflection within the complex cultural context of Latin America The author prefaces his study with a wide ranging survey of the continuing debate over the proper use of the Bible as a model for the structures of society The author's particular focus is Latin America and through sociological and textual analysis he seeks to define the role of the prophetic biblical voice in this society and presses for a recognition of moral complexities and a constant questioning and self evaluation from those who would claim to speak for God in society *The Capacity to Govern* Yehezkel Dror, 2012-12-06 The inadequacies of contemporary forms of governance are increasingly recognized the brain drain from politics distrust of governments the danger of mass media and money dominated elections and the failure of governments to find good policy

options on major issues Industry civil society and non governmental organizations however important cannot compensate for government s incapacity to shape the future which only it is democratically entitled to do Radical improvements in governance are urgently needed but salient proposals are scarce This book diagnoses contemporary governments as obsolete and proposes changes in values structures staffing public understanding and political culture to equip governance for the radically novel challenges of the 21st century This is the first Report dealing with governance commissioned and approved by the Club of Rome testifying to the significance of this book

Iranian Intellectuals and the West

Mehrzad Boroujerdi,1996-11-01 Mehrzad Boroujerdi challenges the way many Americans perceive present day Iran as well as how Iranians view the West He examines the works of thinkers seminal in defining modern Iran virtually unknown in the U S and concludes that Islam was not the primary source of their inspiration Their efforts forge an authentic national identity lay at the heart of Iranian thought These intellectuals both religious and secular appropriated Islam as the vehicle through which they could most effectively challenge or accommodate modernity and Westernization Through such a fitting appropriation Boroujerdi asserts could modern Iranian thinkers lay the foundation for a nativist vision of an unsullied culture seemingly free of Western influence Drawing on the works of Michel Foucault and Edward Said this book explore how Iranians use their own misunderstandings about the West to form their own identity and in return how Westerns describe Iran in negative terms to help them reaffirm the superiority of their own culture Boroujerdi also argues that Iranian intellectuals have been deeply indebted to Western thought which has served as the cultural reference through which they continue to struggle with issues of identity and selfhood
