

A man with a beard and mustache, wearing a dark zip-up shirt, is looking upwards and to the left. He is standing in front of a dark wood-paneled wall. In the upper left corner, there is a small, square, gold-framed picture hanging on the wall. The lighting is dramatic, with strong shadows.

Prosecuted Innocence

George P. Fletcher

Prosecuted Innocence:

Prosecuted Innocence Kreig Vens, 2003-11 Trystin Brock is a gifted swimmer who has everything going for him The first sophomore ever appointed as Captain of Lincoln Memorial High School s swim team with a girlfriend in college he was the envy of his classmates What could possibly go wrong Twenty eight years in a maximum security prison that s what went wrong A prosecutor with an agenda a narcissistic judge and corrupt politicians circumvent Innocent until proven guilty forcing Trystin into a legal political quagmire where he fights for his freedom his sanity and his life *Convicted but Innocent* C. Ronald Huff, Arye Rattner, Edward Sagarin, 1996-01-23 Addressing the specific issues surrounding wrongful convictions and their implications for society *Convicted but Innocent* includes survey data concerning the possible magnitude of the problem and its causes fascinating actual case samples detailed analyses of the major factors associated with wrongful conviction discussion of public policy implications and recommendations for reducing the occurrence of such convictions The authors maintain that while no system of justice can be perfect a focus on preventable errors can substantially reduce the number of current conviction injustices Controversies in Innocence Cases in America Sarah Lucy Cooper, 2016-05-13 *Controversies in Innocence Cases in America* brings together leading experts on the investigation litigation and scholarly analysis of innocence cases in America from legal political and ethical perspectives The contributors many of whom work on these cases daily investigate contemporary issues presented by innocence cases and the exoneration movement as a whole These issues include the challenges faced by the movement causes of wrongful convictions problems associated with investigating proving and defining innocence and theories of reform Each issue is placed within a multi disciplinary perspective to provide cogent observations and recommendations for the effective handling of these cases and for what changes should be adopted in order to improve the American criminal justice system when it is faced with its most harrowing sight an innocent defendant **Prosecution Complex** Daniel S. Medwed, 2013-11 American prosecutors are asked to play two roles within the criminal justice system they are supposed to be ministers of justice whose only goals are to ensure fair trials and they are also advocates of the government whose success rates are measured by how many convictions they get Because of this second role sometimes prosecutors suppress evidence in order to establish a defendant s guilt and safeguard that conviction over time In *Prosecution Complex* Daniel S Medwed shows how prosecutors are told to lock up criminals and protect the rights of defendants This double role creates an institutional prosecution complex that animates how district attorneys offices treat potentially innocent defendants at all stages of the process and that can cause prosecutors to aid in the conviction of the innocent Ultimately *Prosecution Complex* shows how while most prosecutors aim to do justice only some hit that target consistently Contesting the Far Right Claudia Leeb, 2024-04-23 Why have so many people responded to the insecurity exploitation alienation and isolation of precarity capitalism by supporting the far right In this timely book Claudia Leeb argues that psychoanalytic and feminist critical theory illuminates how economic and psychological factors interact to

produce this extreme political shift Contesting the Far Right examines right wing recruitment tactics in the United States and Austria where people discontented with the status quo have turned to far right parties and movements that further cement capitalism's adverse effects Leeb contends that Freudian psychoanalytic theory and early Frankfurt School Critical Theory provide analytical tools to explain this apparent contradiction in psychological terms Living under precarity capitalism generates feelings of failure and anxiety which people experience as non wholeness because it has become difficult if not impossible to live up to the fetish of economic interpersonal and bodily success and the far right preys on such feelings Its psychologically oriented propaganda tactics produce the illusion of wholeness and a positive sense of self while leaving the socioeconomic conditions that cause people's suffering intact At the same time they remove the inhibitions that keep people's repressed aggression and racist and sexist attitudes in check To demonstrate the workings of this process Leeb compares cases including Trump and the alt right in the United States and the Freedom Party and the identitarian movement in Austria At once theoretically rich and politically engaged this book also offers ways to resist the far right and counter the psychological appeal of its propaganda techniques

The Presumption of Innocence in International Human Rights and Criminal Law Michelle Coleman, 2021-03-03 This book provides a comprehensive analysis of the presumption of innocence from both a practical and theoretical point of view Throughout the book a framework for the presumption of innocence is developed The book approaches the right to presumption of innocence from an international human rights perspective using specific examples drawn from international criminal law The result is a framework for understanding the right that is grounded in human rights law This framework can then be applied across different national and international systems When applied it can help determine when the presumption of innocence is being infringed upon eroded violated and ensure that the presumption of innocence is protected The book is an essential resource for students academics and practitioners working in the areas of human rights criminal law international criminal law and evidence The themes also have a more general application to national jurisdictions and legal theory

Sentencing the Self-Convicted Julian V Roberts, Jesper Ryberg, 2023-02-23 This book addresses the fundamental ethical and legal aspects penal consequences and social context arising from a citizen's acceptance of guilt The focus is upon sentencing people who have pleaded guilty in short post adjudication rather than issues arising from discussions in the pretrial phase of the criminal process The vast majority of defendants across all common law jurisdictions plead guilty and as a result receive a reduced sentence Concessions by a defendant attract more lenient State punishment in all western legal systems The concession is significant At a stroke a guilty plea relieves the State of the burden of proving the defendant's guilt beyond a reasonable doubt and in open court Plea based sentencing has become even more visible in recent years The book provides insightful commentary on the following questions If an individual voluntarily accepts guilt should the State receive this plea without further investigation or any disinterested adjudication Is it ethically acceptable to allow suspects and defendants to self convict in

this manner without independent confirmation and evidence to support a conviction If it is acceptable what is the appropriate State response to such offenders If the defendant is detained pretrial the ability to secure release in return for a plea may be particularly enticing Might it be too enticing resulting in wrongful convictions

Basic Concepts of Criminal Law George P. Fletcher, 1998-09-03 In the United States today criminal justice can vary from state to state as various states alter the Modern Penal Code to suit their own local preferences and concerns In Eastern Europe the post Communist countries are quickly adopting new criminal codes to reflect their specific national concerns as they gain autonomy from what was once a centralized Soviet policy As commonalities among countries and states disintegrate how are we to view the basic concepts of criminal law as a whole Eminent legal scholar George Fletcher acknowledges that criminal law is becoming increasingly localized with every country and state adopting their own conception of punishable behavior determining their own definitions of offenses Yet by taking a step back from the details and linguistic variations of the criminal codes Fletcher is able to perceive an underlying unity among diverse systems of criminal justice Challenging common assumptions he discovers a unity that emerges not on the surface of statutory rules and case law but in the underlying debates that inform them Basic Concepts of Criminal Law identifies a set of twelve distinctions that shape and guide the controversies that inevitably break out in every system of criminal justice Devoting a chapter to

each of these twelve concepts Fletcher maps out what he considers to be the deep structure of all systems of criminal law Understanding these distinctions will not only enable students to appreciate the universal fundamental ideas of criminal law but will enable them to understand the significance of local details and variations This accessible illustration of the unity of diverse systems of criminal justice will provoke and inform students and scholars of law and the philosophy of law as well as lawyers seeking a better understanding of the law they practice
