Committee Publications and Policies Governing Their Distribution United States. Congress. Joint Economic Committee,1978 **Prospect Theory and Foreign Policy Analysis in the Asia Pacific** Kai He,Huiyun Feng,2013 Why does North Korea behave erratically in pursuing its nuclear weapons program Why did the United States prefer bilateral alliances to multilateral ones in Asia after World War II Why did China become nice no more military coercion in dealing with the pro independence Taiwan President Chen Shuibian after 2000 Why did China compromise in the negotiation of the Chunxiao gas exploration in 2008 while Japan became provocative later in the Sino Japanese disputes in the East China Sea North Korea s nuclear behavior U S alliance strategy China s Taiwan policy and Sino Japanese territorial disputes are all important examples of seemingly irrational foreign policy decisions that have determined regional stability and Asian security By examining major events in Asian security this book investigates why and how leaders make risky and seemingly irrational decisions in international politics The authors take the innovative step of integrating the neoclassical realist framework in political science and prospect theory in psychology Their analysis suggests that political leaders are more likely to take risky actions when their vital interests and political legitimacy are seriously threatened For each case the authors first discuss the weaknesses of some of the prevailing arguments mainly from rationalist and constructivist theorizing and then offer an alternative explanation based on their political legitimacy prospect theory model This pioneering book tests and expands prospect theory to the study of Asian security and challenges traditional expected utility based rationalist theories of foreign policy behavior *Climate Change and Global Policy Regimes* Timothy Cadman,2013-03-25 An analysis of the global climate talks and the key human systems threatened by increased greenhouse gas emissions including health refugee management energy production carbon markets and local government **Energy Policy and Strategy for Rural Development** United States. Congress. Senate. Committee on Agriculture, Nutrition, and Forestry. Subcommittee on Rural Development,1977

Bibliography of Agriculture with Subject Index ,1983-10 **Health Policy and the NHS** Judith Allsop,2018-10-08 Health Policy and the NHS provides a thorough and up to date review of the changes in the structure and organisation of the health service It focuses on how successive governments have approached problems of health care their policy assumptions and the economic and political context of their decision making Divided into four parts the text considers in turn the foundations and framework of the NHS policy issues within the NHS that dominated the government s policy agenda until the late 1980s health and society and the critiques of health policy which developed in the late 1970s and 1980s and new directions for health policy in the future **Global Cooperation and G20** Saon Ray,Samridhi Jain,Vasundhara Thakur,Smita Miglani,2023-03-01 This book focuses on one of the two G20 tracks the finance track It examines the evolution of the finance track in G20 the organizational structure of the finance track and the role of international organizations in reforming the financial architecture It discusses how the agenda is formed and driven by the political economy of the host

country as well as the imperative of the time It also documents the finance track themes taken up by different G20 presidencies over the years Some of the common threads between the G20 emerging economies presidencies in terms of the finance track themes that the G20 leaders have considered include financial sector regulation and reform reform of international financial institutions global growth and macroeconomic policies international taxation and financial inclusion The book is an excellent resource for the researchers of international economics as well as for policymakers

The Future of Social Security Policy Ailsa McKay, 2005-07-25 Current debates concerning the future of social security provision in advanced capitalist states have raised the issue of a citizen s basic income CBI as a possible reform package a proposal based on the principles of individuality universality and unconditionality which would ensure a minimum income guaranteed for all members of society Implementing a CBI would consequently entail radical reform of existing patterns of welfare delivery and would bring into question the institutionalized relationship between work and welfare Ailsa McKay s book makes a unique and positive contribution to the CBI literature by examining the proposal from a feminist economics perspective Gender concerns are central to any debate on the future of social security policy in that state intervention in the field of income redistribution has differential impacts on men and women By drawing attention to the potential a CBI has in promoting equal rights of freedom for men and women this book serves to open up the debate to incorporate a more realistic and inclusive vision of the nature of modern socio economic relationships
