Design and Agency John Potvin, Marie-Ève Marchand, 2020-05-14 Design and Agency brings together leading international design scholars and practitioners to address the concept of agency in relation to objects organisations and people The authors set out to expand the scope of design history and practice avoiding the heroic narratives of a typical modernist approach They consider both how the agents of design construct and express their identities and subjectivities through practice while also investigating the distinctive contribution of design in the construction of individual identity and subjectivity Individual chapters explore notions of agency in a range of design disciplines and historical periods including the agency of women in effecting changes to the design of offices and working practices the role of Jeffrey Lindsay and Buckminster Fuller in developing the design of a geodesic dome Le Corbusier s Casa Curutchet a re consideration of the gendered historiography of the Jugendstil movement and Bruce Mau s design exhibitions Taken together the essays in Design and Agency provide a much needed response to the traditional texts which dominate design history With a broad

chronological span from 1900 to the present and an equally broad understanding of the term design it expands how we view the discipline and shows how design itself can be an agent for social cultural and economic change Design for Culture and Prosperity Zhaoyan Zheng,2001 *Nineteenth-Century Design* Clive Edwards,2021-03-30 This is volume three in a four volume edition of primary source materials that document the histories of design across the long nineteenth century Each volume is arranged by appropriate sub themes and it is the first set of primary sources to be gathered together in this comprehensive and accessible format Design refers to more than simply products and personalities or even cultural ideas it involves consideration of ways of design thinking and applications as well as the philosophies and the other disciplines that impinge upon it Here the third volume considers the issues of design production and practices including debates about the role of machine and craft the impact of new materials and technologies as well as issues of marketing and mediation The volumes will be of interest to a range of scholars and students including those in art and design history visual culture and nineteenth century material culture They will also be of interest to a broad range of scholars working in areas including aesthetics gender politics and philosophy **Sustainable Design for the Built Environment** Rob Fleming,Saglinda H Roberts,2019-01-18 Sustainable Design for the Built Environment marks the transition of sustainable design from a specialty service to the mainstream approach for creating a healthy and resilient built environment This groundbreaking and transformative approach introduces sustainable design in a clear concise easy to read format This book takes the reader deep into the foundations of sustainable design and creates a holistic and integrative approach addressing the social cultural ecological and aesthetic aspects in addition to the typical performance driven goals The first section of the book is themed around the origins principles and frameworks of sustainable design aimed at inspiring a deeper broader and more inclusive view of sustainability The second section examines strategies such as biophilia and biomimicry adaptation and resilience health and well being The third section examines the application of sustainability principles from the global urban district building and human scale illustrating how a systems thinking approach allows sustainable design to span the context of time space and varied perspectives This textbook is intended to inspire a new vision for the future that unites human activity with natural processes to form a regenerative coevolutionary model for sustainable design By allowing the reader an insightful look into the history motivations and values of sustainable design they begin to see sustainable design not only as a way to deliver green buildings but as a comprehensive and transformative meta framework that is so needed in every sector of society Supported by extensive online resources including videos and PowerPoints for each chapter this book will be essential reading for students of sustainability and sustainable design Prosperity by Design George McReynolds,2001-04 Service-Learning in Design and Planning Tom Angotti,Cheryl Doble,Paula Horrigan,2012-01-03 An authoritative guide to service learning and collaborative design that challenges the boundaries between communities and universities and advances meaningful partnerships *Feng Shui: A Simple Plan for Feng Shui Design in Your Home and Life (The Ultimate Guide to*
