Winning the Battle Against Prostate Cancer Gerald Chodak,2010-12-07 Prostate cancer is the second most common cancer in men with almost 200 000 new cases being diagnosed each year Today increasing numbers of men and their families play a more active role in their treatment and the results can be seen in the increase of men who survive prostate cancer Yet each year over 27 000 men die from prostate cancer This makes prostate cancer the second leading cause of cancer death in men behind lung cancer The range of controversial therapies and treatments for prostate cancer is greater than that of any other cancer affecting men This makes it difficult for men and their families to determine what are the best options available Rarely do doctors agree on which treatment a patient should receive or when they should receive it And many of the current books on prostate cancer suffer from considerable bias promoting one treatment over another without good scientific evidence Winning the Battle Against Prostate Cancer resolves the problem of contradictory and incomplete information The book is an unbiased and up to date look at prostate cancer treatments and therapies Dr Chodak lays out the pros and cons of all reasonable treatment options including the chances that a man may have a good result or develop side effects or complications Equally important Dr Chodak recognizes that men and their families need more than just the facts They are concerned not only with their survival but also what life will be like after treatment Winning the Battle Against Prostate Cancer offers empathetic insight into the impact of the disease on day to day activities so that patients and family members have a clear understanding of what lies ahead and what options are available should complications arise The book does not gloss over the controversies but presents them in a clear concise easy to understand manner

Battle Michael O'Hara,2002-02-21 The story of The Twinkling focuses on the life of Korle an angel that fell from heaven under the authority of Lucifer It delves into his past as an angel living a glorious life in heaven follows him to the depths of hell to earth as mankind and back again to heaven It explores unspoken possibilities that of the fallen angels being given a chance to choose which God to serve with that choice being made during their span of time on earth Though many scriptures are woven throughout the story this narrative is not meant to be theological in its message but is intended rather to inspire thought and interest in the eternal side of our existence The earth story deals with sibling jealousy and the profound chaos it can cause Paralleling jealousy back to the motivation that caused Lucifer to fall this story reveals not only how abusive events were manipulated by Lucy the jealous older sister but how they worked together for the good in the younger sister regardless of the original intent Alongside the chaos is the joy of having a best friend with good events happening in that relationship despite the trouble at home The heaven story is a continuation of the good events and so much more as Korle explores its wonders and never ending possibilities with his friend Nagee whom he later finds out is his earthly guardian angel The rest of the story told from heaven s point of view deals with hell s creation and existence end time events on earth and the final war that ends Satan s power over the earth and its inhabitants Interwoven throughout the story is the story of Jesus and the salvation offered through his death and resurrection Fascinating and spellbinding THE TWINKLING appeals to young and old alike

The Beginning of the End of My Life: My Battle with Leukemia & Other Things Ed Rennie,2005-11-08 This book tells the story of what really happens when battling a very serious disease in this case leukemia It tells about the human reaction of the author and his wife when told by an oncologist Mr Rennie you have prolymphocytic leukemia and then being told on a cancer telephone hot line that you may have only three months to live It translates in human detailed non medical terms such things as the hours spent in leather recliners receiving IVs of chemotherapy and other drugs too numerous to count getting stuck with needles ten times to find a vein sometimes confounding interactions with doctors nurses and insurance companies and nearly shaking to death one morning in the leather recliner It also tells some funny stories like Miss Blabbermouth in the surgeons waiting room and the time the author mooned an oncologist It also exposes the hopefully

outdated poor bastard with cancer syndrome Finally it totals up some interesting things such as number of needle sticks hours in an IV chair CT and PET scans bone marrow extractions and the amount of money that the disease has cost so far billed versus paid It is also a legacy book in that it tells many of the unforgettable lessons learned while growing up in a blue collar sports minded neighborhood in the guts of Philadelphia It tells about a dad with two very separate and distinct personalities one a very bad drunk dad and one an outstanding good dad and a perfect mother loving to the very end It outlines the authors two older brothers and two younger sisters and their important roles in the family a strong one to this day all of whom volunteered to be stem cell donors It describes the authors wives warmth understanding and stoic battle alongside of her husband Above all this is a good news book one which is intended to inform as well as bring a few knowledgeable smiles to those who have been through similar experiences and even bigger smiles to those who havent
