Protecting Polar Regions:

Protecting Polar Regions Anita Ganeri, 2006 Presents an overview of the world's polar regions examining the plants and animals that live in the frozen regions and discussing why the habitats are endangered and what is being done to protect them *Wilderness Protection in Polar Regions* Antje Neumann, 2020-04-14 Antarctica's wilderness values even though specifically recognized by the Environmental Protocol to the Antarctic Treaty are rarely considered in practice This deficiency is especially apparent with regard to a more and more increasing human footprint caused among others by a growing number of tourists visiting the region and conducting a broad variety of activities On the basis of a detailed study of three Arctic wilderness areas the Hammastunturi Wilderness Reserve Finland the Archipelago of Svalbard Norway and the Denali National Park and Preserve Alaska United States as well as the relevant policies and legislation in these countries Antje Neumann identifies numerous lessons learnt that can serve as suggestions for improving the protection of wilderness in Antarctica Protecting the Polar Marine Environment Davor Vidas, 2000-11-23 How can we best protect the polar marine environment against pollution Leading scholars on environmental law the law of the sea and Arctic and Antarctic affairs here examine this important question To what extent do existing global instruments of environmental protection apply to the Arctic Ocean and the Southern Ocean Can the arrangements adopted at regional sub regional and national levels provide adequate protection This book examines and compares various levels of regulation in protecting the marine environment of the Arctic and Antarctic with specific attention to land based activities radioactive waste dumping and shipping in ice covered waters Developments since the establishment of the Arctic Council in 1996 and the entry into force of the Protocol on Environmental Protection to the Antarctic Treaty in 1998 are also discussed This is a volume that will appeal to polar specialists and to all those interested in environmental law and policy **Arctic Legal Regime for Environmental Protection** Linda Nowlan, 2001 For many years concerns have been expressed about environmental issues in the Arctic While the Arctic region unlike Antarctica has been inhabited for thousands of years it is under unique threat because of its vulnerability toward resource exploitation and the deposition of various airborne pollutants With its varied populations and with eight Nations asserting territorial interests the Arctic needs a careful approach to its protection and development This report describes the current Arctic environmental legal regime It also discusses the possibility of negotiating a sustainability treaty for the Arctic with high standards of environmental protection similar to those in the 1991 Protocol on Environmental Protection to the Antarctic Treaty It is hoped that this review of the legal and policy contrasts between the Arctic and Antarctic can help in the consideration of future directions for the Arctic legal regime **The Polar Regions and the Development of International Law** Donald Rothwell, 1996-11-13 A review of international law in the polar regions and its importance to the environment and to international relations The Law of the Sea and the Polar Regions Erik J.
