Protecting The President The Inside Story Of Secret Service Agent:

Protecting the Presidential Candidates Mel Ayton, 2021-11-24 *Protecting the Presidential Candidates* is the first book of its kind to examine how presidents and presidential candidates were protected during the presidential election cycles from JFK to Biden. It is also the first book of its kind to tell the story of the role of state troopers and private bodyguards in protecting presidential candidates. Protection for candidates changed and evolved from the free wheeling style of the 1950s and early 1960s which afforded presidential candidates little or no protection to the growth of bodyguard personnel, increased intelligence facilities and state of the art technology employed today to keep the candidates safe. Presidential candidates relish connecting with the public and it has given greater visibility to the bodyguards who are willing to place themselves between a presidential candidate and a would be attacker. In the milieu in which the Secret Service operates, bodyguards have witnessed the terrors of election campaigns when presidential candidates have waded into crowds to shake hands with their supporters, rode in open top cars and made sudden but risky changes to their schedules, oblivious to the fact that in every campaign there have been people stalking candidates with ill intent. Many stories revealed in *Protecting the Presidential Candidates* have remained largely hidden from the public, some buried in newspaper archives and others in oral histories, presidential libraries or official government documents. The author draws on numerous sources including FBI files, presidential biographies, vice presidential biographies, civilian bodyguard memoirs, Secret Service agent memoirs, White House staff memoirs and more so that these stories can now be told. The book also allows readers to gain an insight into the personal as well as professional relationships between the candidate and the bodyguards who protected them. Some candidates were so trusting of their bodyguards they embraced them as part of an inner circle of advisers. Bodyguards have also witnessed embarrassing moments in a candidate's campaign and how intrusive they have been at the most delicate of moments. The president's day is your day, one agent said. Nobody sees the president the way an agent does.

Protecting the President Dan Bongino, 2021-01-12 Being a Secret Service agent is one of the most treacherous jobs in the world and never more so than in today's highly polarized America. Facing threats from fence jumpers and manifesto writers and from fanatical terrorists and sophisticated spies, protecting the president is harder than ever. In an age of hyper partisan politics, emotions are high and crazies are a dime a dozen. On top of that, with international tensions reaching a boiling point, it's harder than ever to determine friend from foe. Yet the President of the United States is in very real danger if the Secret Service doesn't change course soon and evolve with the rapidly changing threat environment. Highly motivated bad guys are already working on technologically advanced methodologies and are constantly striving to formulate the logistics of an attack on the White House. Eventually, terrorist planners will find a way to acquire the technology, weapons, explosives and know how to make an attempt on the life of the President. The only question is: What are we going to do about it? *Protecting the President* provides not only a rare insider glimpse of what the Secret Service does but explores the challenges facing the agents today.
