Protectionism And Liberalisation Ireland And The Election:

Protectionism to Liberalisation Maurice Fitzgerald, 2018-02-06 This title was first published in 2000 This work examines Irish government towards European integration in the second post war decade by concentrating on crisis points or flash points it does this in a fairly subject oriented manner concerning Dublin s decision making processes The central themes of this study are concentrated on economic matters but they deal with other tenets when relevant too be they of a cultural diplomatic ideological military political or social nature

Exchange Rates and Economic Policy in the 20th Century

Derek H. Aldcroft, 2017-07-05 The themes of this study are the exchange rate regimes chosen by policy makers in the twentieth century the means used to maintain these regimes and the impact of these decisions on individual national economies and the world economy in general The book draws heavily on new research showing the lessons and the legacy left for policy makers by the gold standard and the attempt at its resurrection in the 1920s In examining issues such as the gold exchange standard the gold bullion standard the experience of floating exchange rates the Bretton Woods arrangements the EMS and the ERM and the Currency Board approach there is a conscious attempt to draw out the relevance of history for policy makers now

Sean Lemass Bryce Evans, 2011-08-17 Se n Lemass enjoys unrivalled acclaim as the Architect of Modern Ireland Yet there remain great gaps in our knowledge of this mythic figure and his golden age Up to now Lemass a colossus of twentieth century Irish history was airbrushed to fit a narrative of national progress Today this narrative is undergoing an agonising reappraisal This groundbreaking study reveals the man behind the myth and asks questions previously skirted around What emerges is an authoritarian cunning workaholic patriot a shrewd political tactician whose impatience lay not just with the old Ireland but with democracy itself This is the untold story of a great man and his lasting impact on a nation s imagination

The Dynamics of Irish Politics Paul Bew, Ellen Hazelkorn, Henry Patterson, 1989 *The Irish Economy in a Comparative Institutional Perspective* Lars Mjøset, National Economic and Social Council, 1992 Focuses on economic growth and development in Ireland from the 17th century to the 1980s in comparison with five European countries

From the Bog to the Cloud Patrick Bresnihan, Patrick Brodie, 2025-10-24 The green digital transition is underway But what does this transition look like when dictated by the energy and resource demands of monopoly tech How has this situation come to be And where is it being resisted This provocative book uncovers the hidden intersections of land resource extraction and climate policy in the transition to greener and smarter economies Challenging eco modern and techno solutionist approaches the book links narratives of sustainability with colonial histories and uneven development arguing that tech driven transitions replicate exploitative patterns of imperial capitalism Using Ireland as a focal point the authors show how the history and depth of the country s postcolonial dependency on multinational investment especially US technology companies comes into friction with disparate land based struggles Thinking with these movements the book offers a critique of dependent models of development and proposes an anti imperialist approach to environmental politics
