Protestant Mind of English Reformation, 1570-1640 Charles H. George, Katherine George, 2015-12-08 From 1570 to 1640 Protestantism became the leading moral and intellectual force in England During these seven decades of rapid social change the English Protestants were challenged to make morally and spiritually comprehensible a new pattern of civilization In numerous sermons and tracts such men as Donne Hall Hooker Laud and Perkins explored the meaning of man and his society The nature of the Protestant mind is a crucial question in modern historiography and sociology Drawing on the writings of these important years the authors find that the real genius of the Protestant mind was not Puritanism but the via media the reconciliation of religious and social tensions Puritanism the authors show is a word not a thing Originally published in 1961 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Protestant Mind of English Reformation, 1570-1640* Charles H. George, Katherine George, **The Protestant Mind of the English Reformation, 1570-1680** Charles H. George, 1961 *The Debate on the English Reformation*

Rosemary O'Day, 2015-11-01 Extensively revised and updated this new edition of *The Debate on the English Reformation* combines a discussion of successive historical approaches to the English Reformation with a critical review of recent debates in the area offering a major contribution to modern historiography as well as to Reformation studies. It explores the way in which successive generations have found the Reformation relevant to their own times and have in the process rediscovered, redefined, and rewritten its story. It shows that not only people who called themselves historians but also politicians, ecclesiastics, journalists, and campaigners argued about interpretations of the Reformation and the motivations of its principal agents. The author also shows how in the twentieth century the debate was influenced by the development of history as a subject and in the twenty-first century by state control of the academy. Undergraduates, researchers, and lecturers alike will find this an invaluable and essential companion to their studies.

Cultures of Calvinism in Early Modern Europe Crawford Gribben, Graeme Murdock, 2019-11-01 Scholars have associated Calvinism with print and literary cultures with republican, liberal, and participatory political cultures with cultures of violence and vandalism, enlightened cultures, cultures of social discipline, secular cultures, and with the emergence of capitalism. Reflecting on these arguments, the essays in this volume recognize that Reformed Protestantism did not develop as a uniform tradition but varied across space and time. The authors demonstrate that multiple iterations of Calvinism developed and impacted upon differing European communities that were experiencing social and cultural transition. They show how these different forms of Calvinism were shaped by their adherents and opponents and by the divergent political and social contexts in which they were articulated and performed. Recognizing that Reformed Protestantism developed in a variety of cultural settings, this volume analyzes the ways in which it related to the multi-confessional cultural environment that prevailed in Europe after the Reformation.
