Protocols Additional To The Geneva Conventions Of 12 August 1949:

Protocol Additional to the Geneva Conventions of 12 August 1949, and Relating to the Protection of Victims of International Armed Conflicts (Protocol I)., 2002 Protocol Additional to the Geneva Conventions of 12 August 1949, and Relating to the Protection of Victims of Non-International Armed Conflicts (Protocol II)., 2002 *Protocols Additional to the Geneva Conventions of 12 August 1949* International Committee of the Red Cross, 1977 *Extradition, Politics, and Human Rights* Christopher H. Pyle, 2001

Three hundred years ago few people cared about the murky past of new arrivals to the United States and the countries they had left made few efforts to pursue them to their new home Today with the growth of bureaucracy telecommunications and air travel extradition has become a full time business But the public s knowledge of and consequent concern about extradition remains minimal aroused from time to time by newspaper headlines only to fade In this readable and compelling history of extradition in America Christopher Pyle remedies that ignorance Using American constitutional law and drawing on a wealth of historical cases he describes the collision of law and politics that occurs when a foreign country demands the surrender of individuals held to be terrorists by some and freedom fighters by others He shows how U S policymakers have attempted to substitute deportation for extradition and turn the surrender of a foreign national or even an American citizen into a political rather than a judicial process Beginning with the New England Puritans refusal to surrender to the regicides who had signed the death warrant of King Charles I he traces the attitudes and ideologies that have shaped American extradition practice culminating in the efforts by the Reagan and Bush administrations to turn the legal extradition process into an executive tool of state policy Along the way we meet such legal luminaries as James Madison and John Stuart Mill William Rehnquist and Oliver North as well as pirates and fugitive slaves anarchists and refugees drug lords and runaway sailors Woven throughout this story is the author s belief that current developments in extradition law ignore or actually violate the principles of individual liberty due process and humanity on which we claim our country was built As he remarks in the Introduction Extradition involves the surrender of human beings persons under the protection of our Constitution to foreign regimes many of which are unjust This reality was well understood in the eighteenth and nineteenth centuries when the United States was a refuge for the victims of European oppression but it has been disregarded frequently in the twentieth century as we have sought to stem the tide of immigration and develop advantageous economic and political relations with autocratic regimes of every stripe

Author note Christopher H Pyle is Professor of Politics at Mount Holyoke College He is the author of several books and Congressional reports and has frequently testified before Congress on the subject of extradition and deportation Protocols Additional to the Geneva Conventions of 12 August 1949, 2010 *Protocol Additional to the Geneva Conventions of 12 August 1949*, 1977 The UN Convention on the Rights of Persons with Disabilities Ilias Bantekas, Michael Ashley Stein, Dimitris Anastasiou, 2018-10-25 This treatise is a detailed article by article examination of the United Nations Convention on the Rights of Persons with Disabilities CRPD Each

Documents on the Law of UN Peace Operations Bruce Oswald, Helen Durham, Adrian Bates, 2019-06-20 Since the first edition of this book was published in 2010 United Nations peace operations have evolved significantly In the Democratic Republic of the Congo Central African Republic and South Sudan UN peacekeepers are now engaged in building peace by fighting non State armed actors and must consider issues concerning the application of law and policy governing the use of armed force when protecting civilians In addition the UN and its peacekeepers are increasingly being held to higher standards of accountability to ensure that their engagement with local forces and populations meets normative requirements found in international humanitarian law and international human rights law This extensively revised edition of Documents on the Law of UN Peace Operations addresses the key normative principles rules and standards that have been a part of this evolution The book provides essential documents accompanied with commentary which identify and explain the legal framework or applicable legal norms involved in the planning management and conduct of UN peace operations Topics covered include obligations under international humanitarian law human rights law international criminal law and privileges and immunities Special attention is also paid to matters such as accountability the rule of law and the protection of civilians

International Dimensions of Humanitarian Law UNESCO, 2024-01-09 Commissioned by UNESCO from the Henry Dunant Institute this volume of essays lays the foundation for an international programme for the teaching of international humanitarian law within the framework of UNESCO's plan for the development of the teaching of human rights Parts I and II deal with the development of humanitarian ideas and law within different schools of thought and cultural traditions Part III with the law of armed conflict and Part IV with the application of international humanitarian law It is hoped that the publication of this volume which in its original French edition coincided with the 40th Anniversary of UNESCO and the International Year of Peace proclaimed in 1986 by the UN General Assembly will reinforce the determination of the international community to achieve the aim of the founders of UNESCO namely to construct the defences of peace in the minds of men

Governing food security Irene Hadiprayitno, Otto Hospes, 2023-09-04 With only five years left until the 2015 deadline to achieve the Millennium Development Goals food security still is a dream rather than reality a situation that exists when all people at all times have physical and economic access to sufficient safe and nutritious food to meet their dietary needs and food preferences for an active and healthy life

Political commitments at world summits on food security market based agricultural policies science based food safety regulation and voluntary guidelines on the right to food have not ended hunger malnourishment or food safety crises in our world The question arises whether food insecurity is a situation that exists in spite of these commitments and legal measures or rather due to them This book has three purposes Firstly it offers insights in how law politics and the right to food contribute to food security in both positive and negative ways For this purpose different theories concepts and methodologies from legal political anthropological and sociological sciences are used and developed Secondly the book explains that food security and food policies cannot be treated as given at one level or in one domain only This is done in different ways by pointing out the emergence of new paradigms on food security human rights and science that shape food policies by showing how law and policies at one level affect food security at another level and by treating food security and food policies as linked to governance regimes of agriculture food feed water or property Finally the book offers scholarly analysis of paradigms and practices but also presents social science based ways to indirectly contribute to food security varying from improving justiciability to building trust from seeking ways to address non scientific concerns to creating room for plurality of lifestyles and norms from unmasking dominant discourse to understanding or strengthening abilities or arrangements to cope with vulnerability
