Proudhon Marx Picasso Three Studies In The Sociology Of Art:

Proudhon, Marx, Picasso Max Raphael,1980 *Proudhon, Marx, Picasso* Max Raphael,1980 **Aesthetics and the Sociology of Art** Janet Wolff,2021-04-29 First published in 1983 *Aesthetics and the Sociology of Art* provides a lucid account of two divergent tendencies in the study of aesthetics At the one extreme traditional aestheticians have assumed that art and literature are wholly independent following only the laws and inspirations of artists and artistic movements and that the question of aesthetic value is accordingly unproblematic At the other extreme some sociologists have treated works of art as no more than manifestations of the socio economic circumstances which produce them arguing that aesthetic value is therefore entirely relative matter Janet Wolff shows how both the extreme positions are untenable and argues convincingly that we must accept that the conceptions and criteria of aesthetic value are socially constructed and inevitably ideological while stopping short of the reductionist alternative which fails to recognise the irreducible questions of pleasure and of aesthetic discourse This book provides an invaluable clear guide both to old debates and to otherwise obscure modern controversies which will be welcomed both by students and scholars in the sociology of art in aesthetics in art history and in literary criticism Proudhon, Marx, Picasso Max Raphael,1980 Marxism and the History of Art Andrew Hemingway,2006-07-20 This book is the first comprehensive introduction to Marxist approaches to art history Although the aesthetic was a crucial part of Marx and Engels s thought they left no full statement on the arts Although there is an abundant scholarship on Marxist approaches to literature the historiography of the visual arts has been largely neglected This book encompasses a range of influential thinkers and historians including William Morris Mikhail Lifshits Frederick Antal Francis Klingender Max Raphael Meyer Schapiro Walter Benjamin Henri Lefebvre and Arnold Hauser It also addresses the heritage of the New Left In the spirit of Marxism the authors interpret the achievements and limitations of Marxist art history in relation to the historical and political circumstances of its production providing an indispensable introduction to contemporary radical practices in the field Marxism and the Interpretation of Culture Cary Nelson, Lawrence Grossberg,1988 This title provides a picture of the state of Marxist thinking It aims to provoke a debate that will be of interest to those concerned with the status and development of Marxism and also to theorists in all fields of the human sciences **Imagination in Theory** Michele Barrett,1999-03 *Imagination in Theory* focuses on Michele Barrett s long standing interest in cultural questions and shows how it informs her analysis of current developments in social and feminist theory Taking culture theory and writing as its themes the book translates across the barriers between the humanities and social sciences raising a number of important and controversial issues *Radical Picasso* C. F. B. Miller,2021 Introduction The crystallisation of cubism Platonism after Cubism Mimesis after collage Cubism s refuse Picasso s sexuality Crucifixion and apocalypse Rotten sun Signed Picasso **The Cambridge Companion to Marx** Terrell Carver,1991-10-25 Marx was a highly original and polymathic thinker unhampered by disciplinary boundaries whose intellectual influence has been

enormous Yet in the wake of the collapse of Marxism Leninism in Eastern Europe the question arises as to how important his work really is for us now An important dimension of this volume is to place Marx's writings in their historical context and to separate what he actually said from what others in particular Engels interpreted him as saying Informed by current debates and new perspectives the volume provides a comprehensive coverage of all the major areas to which Marx made significant contributions

Meyer Schapiro's Critical Debates C. Oliver O'Donnell, 2019-10-14 Described in the New York Times as the greatest art historian America ever produced Meyer Schapiro was both a close friend to many of the famous artists of his generation and a scholar who engaged in public debate with some of the major intellectuals of his time This volume synthesizes his prolific career for the first time demonstrating how Schapiro worked from the nexus of artistic and intellectual practice to confront some of the twentieth century's most abiding questions Schapiro was renowned for pioneering interdisciplinary approaches to interpreting visual art His lengthy formal analyses in the 1920s Marxist interpretations in the 1930s psychoanalytic critiques in the 1950s and 1960s and semiotic explorations in the 1970s all helped open new avenues for inquiry Based on archival research C. Oliver O'Donnell's study is structured chronologically around eight defining debates in which Schapiro participated including his dispute with Isaiah Berlin over the life and writing of Bernard Berenson Schapiro's critique of Martin Heidegger's ekphrastic commentary on Van Gogh and his confrontation with Claude Lévi-Strauss over the applicability of mathematics to the interpretation of visual art O'Donnell's thoughtful analysis of these intellectual exchanges not only traces Schapiro's philosophical evolution but also relates them to the development of art history as a discipline to central tensions of artistic modernism and to modern intellectual history as a whole Comprehensive and thought provoking this study of Schapiro's career pieces together the separate strands of his work into one cohesive picture In doing so it reveals Schapiro's substantial impact on the field of art history and on twentieth century modernism
