Provincial Landscapes Donald J. Raleigh, 2011-12-12 The closed nature of the Soviet Union combined with the West's intellectual paradigm of Communist totalitarianism prior to the 1970s have led to a one dimensional view of Soviet history both in Russia and the West The opening of former Soviet archives allows historians to explore a broad array of critical issues at the local level Provincial Landscapes is the first publication to begin filling this enormous gap in scholarship on the Soviet Union pointing the way to additional work that will certainly force major reevaluations of the nation's history Focusing on the years between the Revolution and Stalin's death the contributors to this volume address a variety of topics including how political events and social engineering played themselves out at the local level the construction of Bolshevik identities including class gender ethnicity and place the Soviet cultural project and the hybridization of Soviet cultural forms In showing how the local is related to the larger society the essays decenter standard narratives of Soviet history enrich the understanding of major events and turning points in that history and provide a context for the highly visible socio political and cultural role individual Russian provinces began to play after the breakup of the Soviet Union Popular Perceptions of Soviet Politics in the 1920s O. Velikanova, 2013-01-28 This is the first study of popular opinions in Soviet society in the 1920s These voices which made the Russian revolution characterize reactions to mobilization politics patriotic militarizing campaigns the tenth anniversary of the revolution and state attempts to unite the nation around a new Soviet identity

Kyiv as Regime City Martin J. Blackwell, 2016 Part Three Relegitimization 5 The State's Dignity Is Higher Than His Own Dignity The Relegitimization of Soviet Power 6 Tashkent Partisans and German Bitches Relationships with Soviet Power Conclusion Notes Bibliography Index **A Prison Without Walls?** Sarah Badcock, 2016-09-22 A Prison Without Walls presents a snapshot of daily life for exiles and their dependents in eastern Siberia during the very last years of the Tsarist regime from the 1905 revolution to the collapse of the Tsarist regime in 1917 This was an extraordinary period in Siberia's history as a place of punishment There was an unprecedented rise of Siberia's penal use in this fifteen year window and a dramatic increase in the number of exiles punished for political offences This work focuses on the region of Eastern Siberia taking the regions of Irkutsk and Yakutsk in north eastern Siberia as its focal points Siberian exile was the antithesis of Foucault's modern prison The State did not observe monitor and control its exiles closely often not even knowing where the exiles were Exiles were free to govern their daily lives free of fences and free from close observation and supervision but despite these freedoms Siberian exile represented one of Russia's most feared punishments In this volume Sarah Badcock seeks to humanise the individuals who made up the mass of exiles and the men women and children who followed them voluntarily into exile A Prison Without Walls is structured in a broad narrative arc that moves from travel to exile life and communities in exile work and escape and finally illness in exile The book gives a personal human empathetic insight into what exilic experience entailed and allows us to comprehend why eastern Siberia was regarded as a terrible punishment

despite its apparent freedoms *Demobilized Veterans in Late Stalinist Leningrad* Robert Dale, 2015-10-29 This book investigates the demobilization and post war readjustment of Red Army veterans in Leningrad and its environs after the Great Patriotic War Over 300 000 soldiers were stood down in this war ravaged region between July 1945 and 1948 They found the transition to civilian life more challenging than many could ever have imagined For civilian Leningraders reintegrating the rapid influx of former soldiers represented an enormous political economic social and cultural challenge In this book Robert Dale reveals how these former soldiers became civilians in a society devastated and traumatized by total warfare Dale discusses how and how successfully veterans became ordinary citizens Based on extensive original research in local and national archives oral history interviews and the examination of various newspaper collections *Demobilized Veterans in Late Stalinist Leningrad* peels back the myths woven around demobilization to reveal a darker history repressed by society and concealed from historiography While propaganda celebrated this disarmament as a smooth process which reunited veterans with their families reintegrated them into the workforce and facilitated upward social mobility the reality was rarely straightforward Many veterans were caught up in the scramble for work housing healthcare and state hand outs Others drifted to the social margins criminality or became the victims of post war political repression *Demobilized Veterans in Late Stalinist Leningrad* tells the story of both the failure of local representatives to support returning Soviet soldiers and the remarkable resilience and creativity of veterans in solving the problems created by their return to society It is a vital study for all scholars and students of post war Soviet history and the impact of war in the modern era *The Bloomsbury Handbook of the Russian Revolution* Geoffrey Swain, Charlotte Alston, Michael C. Hickey, Boris Kolonitskii, Franziska Schedewie, 2022-12-15 Through 30 interpretative essays *The Bloomsbury Handbook of the Russian Revolution* sees an international team of leading scholars comprehensively examine Russia's revolutionary years In the wake of the 2017 centenary this handbook is the first reference point for anyone wishing to learn more about the changes which took place in Russia between 1917 and 1921 and subsequently the 20th century Split into six sections covering political crises politicians and parties social groups identities regions and peoples and civil war the volume covers the collapse of Tsarism and the February Revolution the emergence of the Provisional Government and major historical figures such as Lenin Kerensky and the Socialist Revolutionary leader Viktor Chernov It also explores the events surrounding the Bolshevik seizure of power in October 1917 the first year of Soviet Government until the Bolshevik dictatorship was established and the impact on Russia of the subsequent civil war The focus is broader than these issues of high politics however since this handbook also considers events in the provinces as well as revolutionary Petrograd and examines the social impact of the revolution in terms of class gender age and culture *Telling October* Frederick Corney, 2018-08-06 All revolutionary regimes seek to legitimize themselves through foundation narratives that told and retold become constituent parts of the social fabric erasing or pushing aside alternative histories Frederick C Corney draws on a wide range of sources archives published works films to

explore the potent foundation narrative of Russia's Great October Socialist Revolution. He shows that even as it fought a bloody civil war with the forces that sought to displace it, the Bolshevik regime set about creating a new historical genealogy of which the October Revolution was the only possible culmination. This new narrative was forged through a complex process that included the sacralization of October through ritualized celebrations, its institutionalization in museums and professional institutes devoted to its study, and ambitious campaigns to persuade the masses that their lives were an inextricable part of this historical process. By the late 1920s the Bolshevik regime had transformed its representation of what had occurred in 1917 into a new orthodoxy: the October Revolution. Corney investigates efforts to convey the dramatic essence of 1917 as a Bolshevik story through the increasingly elaborate anniversary celebrations of 1918, 1919, and 1920. He also describes how official commissions during the 1920s sought to institutionalize this new foundation narrative as history and memory. In the book's final chapter, the author assesses the state of the October narrative at its tenth anniversary, paying particular attention to the versions presented in the celebratory films by Eisenstein and Pudovkin. A brief epilogue assesses October's fate in the years since the collapse of the Soviet Union.

Disease, Health Care and Government in Late Imperial Russia

Charlotte E. Henze, 2010-12-14. This book addresses fundamental issues about the last decades of Tsarist Russia, exploring the social, economic, and political impact of successive outbreaks of cholera and the politics of public health policy. It makes a significant contribution to current debates about how far and how successfully modernisation was being implemented by the Tsarist regime.

Hunger and War Wendy Z. Goldman, Donald A. Filtzer, 2015-06-01. Drawing on recently released Soviet archival materials, *Hunger and War* investigates state food supply policy and its impact on Soviet society during World War II. It explores the role of the state in provisioning the urban population, particularly workers, with food; feeding the Red Army; the medicalization of hunger; hunger in blockaded Leningrad; and civilian mortality from hunger and malnutrition in other home-front industrial regions. New research reported here challenges and complicates many of the narratives and counter-narratives about the war. The authors engage such difficult subjects as starvation, mortality, bitterness over privation, and inequalities in provisioning, and conflicts among state organizations. At the same time, they recognize the considerable role played by the Soviet state in organizing supplies of food to adequately support the military effort and defense production, and in developing policies that promoted social stability amid upheaval. The book makes a significant contribution to scholarship on the Soviet population's experience of World War II, as well as to studies of war and famine.
