Blue Dreams Lauren Slater, 2025-05-01 The explosive story of the discovery and development of psychiatric medications, as well as the science and the people behind their invention, told by a riveting writer and psychologist who shares her own experience with the highs and lows of psychiatric drugs. Although one in five Americans now takes at least one psychotropic drug, the fact remains that nearly seventy years after doctors first began prescribing them, not even their creators understand exactly how or why these drugs work or don't work on what ails our brains. Lauren Slater's revelatory account charts psychiatry's journey from its earliest drugs, Thorazine and lithium, up through Prozac and other major antidepressants of the present. *Blue Dreams* also chronicles experimental treatments involving Ecstasy, magic mushrooms, the most cutting-edge memory drugs, placebos, and even neural implants. In her thorough analysis of each treatment, Slater asks three fundamental questions: how was the drug born, how does it work or fail to work, and what does it reveal about the ailments it is meant to treat. Fearlessly weaving her own intimate experiences into comprehensive and wide-ranging research, Slater narrates a personal history of psychiatry itself. In the process, her powerful and groundbreaking exploration casts modern psychiatry's ubiquitous wonder drugs in a new light, revealing their ability to heal us or hurt us and proving an indispensable resource not only for those with a psychotropic prescription but for anyone who hopes to understand the limits of what we know about the human brain and the possibilities for future treatments.

Death of a Gigolo Laura Levine, 2020-12-29 It's homicide on the funny side as freelance writer and long-time Ben & Jerry's addict, Jaine Austen, battles crime and cellulite on the mean streets of Beverly Hills. Freelance writer Jaine Austen's life is suddenly full of romance. For one thing, she's reconnected with her ex, though her cat, Prozac, isn't happy about it. And Jaine's also got a new ghostwriting gig working on a steamy novel called *Fifty Shades of Turquoise*. Daisy Kincaid is in her sixties and heiress to a fortune. Now she wants to make a name for herself as a romance author with a little help from Jaine. That is, as Jaine labors away on love scenes, she gets to know the wealthy woman's gentleman friend, her household staff, and her social circle, every one of whom is horrified when Daisy falls under the spell of a much younger stud named Tommy, a rude, crude lothario who's made himself a fixture in Daisy's Bel Air mansion. After Tommy and Daisy shock everyone by announcing their engagement, it doesn't take long for someone to stab him in the neck with the solid gold Swiss Army knife that Daisy gave him as a gift. But to narrow down the list of suspects, Jaine will have to put a bookmark in that love story and focus all her creative talent into untangling a tale of money and murder.
