

EDITOR'S NOTEBOOK

The Evolution of Psychiatric Education

Time has no divisions to mark its passage. There is never a thunderstorm or blare of trumpets to announce the beginning of a new month or year.

—Thomas Mann

NOR HAS the panorama of psychiatric education, as it has developed, demonstrated sudden beginnings or endings. Like a great river, it began in the small streams and trickles of the slower-moving 19th century, building with the great wars and the technical, social, and cultural revolutions of this century into a massive river of diverse educational activities. Immersion in this vast stream of effort for the last 50 years has been, for this author, a fascinating journey—totally engrossing, often exhausting, frequently bewildering, but never boring.

Two factors seem to best characterize the broad movement of psychiatric education during this last half century: the exponential growth of information relevant to the psychiatrist's practice and thus his training, and what Roy Grinker recently referred to as the "struggle for eclecticism." As far as the information explosion is concerned, not only is there infinitely more information for the psychiatrist to become conversant with than 50 years ago, but this information is more relevant and applicable to patient care and "disease" prevention. To keep these bits and pieces in proper perspective and to effectively "program" them into educational endeavors presents a major struggle for educators—a constant battle to espouse what is scientifically sound, individually and socially relevant, and psychologically therapeutic.

The struggle for eclecticism requires that this be done without overemphasis of one area or blatant disregard of others. Not all efforts have succeeded, and many medical schools and residency programs have been labeled "organic," "biological," "descriptive," "social," "psychoanalytic," etc. So strong have been the feelings of various schools that the term "eclectic" itself has been frequently used for name-calling. I am pleased to observe that the struggle for eclecticism seems on the way to being won. Even such a discarded term as "neuropsychiatry" may enjoy a happy reincarnation—this time on a solid scientific base.

On the other hand, the battle with the information explosion and

In this section the Editor samples varied opinions on topical problems. The opinions expressed herein are not necessarily those of the Editor, nor can they in any way be construed as marking the official policy of the Journal.

Psychiatric Education Prologue To The 1980s

Roy W. Menninger, John C. Nemiah

Psychiatric Education Prologue To The 1980s:

Psychiatric Education Anne H. Rosenfeld,1976 *American Psychiatry After World War II (1944-1994)* Roy W.

Menninger, John C. Nemiah, 2008-11-01 The history of psychiatry is complex reflecting diverse origins in mythology cult beliefs astrology early medicine law religion philosophy and politics This complexity has generated considerable debate and an increasing outflow of historical scholarship ranging from the enthusiastic meliorism of pre World War II histories to the iconoclastic revisionism of the 1960s to more focused studies such as the history of asylums and the validity and efficacy of Freudian theory This volume intended as a successor to the centennial history of American psychiatry published by the American Psychiatric Association in 1944 summarizes the significant events and processes of the half century following World War II Most of this history is written by clinicians who were central figures in it In broad terms the history of psychiatry after the war can be viewed as the story of a cycling sequence shifting from a predominantly biological to a psychodynamic perspective and back again all presumably en route to an ultimate view that is truly integrated and interacting all the while with public perceptions expectations exasperations and disappointments In six sections Drs Roy Menninger and John Nemiah and their colleagues cover both the continuities and the dramatic changes of this period The first four sections of the book are roughly chronological The first section focuses on the war and its impact on psychiatry the second reviews postwar growth of the field psychoanalysis and psychotherapy psychiatric education and psychosomatic medicine the third recounts the rise of scientific empiricism biological psychiatry and nosology and the fourth discusses public attitudes and perceptions of public mental health policy deinstitutionalization antipsychiatry the consumer movement and managed care The fifth section examines the development of specialization and differentiation exemplified by child and adolescent psychiatry geriatric psychiatry addiction psychiatry and forensic psychiatry The concluding section examines ethics and women and minorities in psychiatry Anyone interested in psychiatry will find this book a fascinating read

Psychiatric Education Anne H. Rosenfeld,1976 Current Catalog National Library of Medicine (U.S.),1980 First multi year cumulation covers six years 1965 70 **Psychosomatic Medicine** Adam J. Krakowski,2012-12-06 It is our pleasure to introduce to the readers of *Advances in Psychosomatic Medicine I* the authors of 88 papers presented at the VIth World Congress of the International College of Psychosomatic Medicine in Montreal September 13 18 1981 These papers are representative of more than 700 presentations and discussions that occurred in the course of lectures symposia panels and workshops Adam J Krakowski M D primary editor of this volume together with Chase P Kimball M D GUnsel Koptagel Ilal M D and Hellmuth Freyberger M D are responsible for the solicitation and final editing of the papers included in this volume Most of the plenary papers presented at the Congress and subsequently received for publication are in preparation for a volume to be issued by S Karger Basel Switzerland as a special number edited by us with the assistance of Drs Freyberger and Koptagel Ilal The papers included in this volume represent the main substance of the Congress The editors regret that a

number of presentations were either received too late or in insufficient form to allow for publication at this time A number of other papers presented at the Congress have been released for publication in the Journal of Psychosomatic Research the Psychiatric Journal of the University of Ottawa General Hospital Psychiatry Psychosomatics and other journals Journal of Psychiatric Education ,1988 **Lewis's Child and Adolescent Psychiatry** Andrés Martin,Fred R. Volkmar,Melvin Lewis,2007 Established for fifteen years as the standard work in the field Melvin Lewis s Child and Adolescent Psychiatry A Comprehensive Textbook is now in its Fourth Edition Under the editorial direction of Andr s Martin and Fred R Volkmar two of Dr Lewis s colleagues at the world renowned Yale Child Study Center this classic text emphasizes the relationship between basic science and clinical research and integrates scientific principles with the realities of drug interactions This edition has been reorganized into a more compact clinically relevant book and completely updated with two thirds new contributing authors The new structure incorporates economics diversity and a heavy focus on evidence based practice Numerous new chapters include genetics research methodology and statistics and the continuum of care and location specific interventions A companion Website provides instant access to the complete fully searchable text **The American Journal of Psychiatry** ,1998-07 *Psychiatric Quarterly* ,1982 **American Handbook of Psychiatry, Second Edition** ,1981
