Legacies and Lifespans in Contemporary Women's Writing Gina Wisker,Leanne Bibby,Heidi Yeandle,2023-07-03 This book examines the connections and conversations between women writers from the twentieth century and the twenty first century The essays consider the ways in which twenty first century women writers look back and respond to their

predecessors within the field of contemporary women's writing The book looks back to the foundations of contemporary women's writing and also considers how this category may be defined in future decades We ask how writers and readers have interpreted the contemporary a moving target and an often contentious term especially in light of feminist theory and criticism of the late twentieth century Writing about the relationships between women's writings is an always vital ongoing political project with a rich history These essays argue that establishing and defining the contemporary is for women writers another ongoing political project to which this collection of essays aims in part to contribute
