Radically Speaking:

Radically Speaking Diane Bell, Renate Klein, 1996 The contributors to *Radically Speaking* show that a radical feminist analysis cuts across class race sexuality region religion and across the generations It is essential reading for Women's Studies sociology cultural studies and anyone interested in processes of social change The collection reveals the global reach of radical feminism and analyzes the causes and solutions to patriarchal oppression Seventy writers discuss their ideas and practice of contemporary feminism

Radical Feminism Today Denise Thompson, 2001-06-01 *Radical Feminism Today* offers a timely and engaging account of exactly what feminism is and what it is not Author Denise Thompson questions much of what has come to be taken for granted as feminism and points to the limitations of implicitly defining feminism in terms of women gender difference or race gender class She challenges some of the most widely accepted ideas about feminism and in doing so opens up a number of hitherto closed debates allowing for the possibility of moving those debates further

Radical Feminism F. Mackay, 2015-02-17 *Feminism is not dead* This groundbreaking book advances a radical and pioneering feminist manifesto for today's modern audience that exposes the real reasons as to why women are still oppressed and what feminist activism must do to counter it through a vibrant and original account of the global Reclaim the Night March

When Women Ask the Questions Marilyn Jacoby Boxer, 2001-09-28 In *When Women Ask the Questions* Marilyn Boxer traces the successes and failures of women's studies examines the field's enduring impact on the world of higher education and concludes that the rise of women's studies has challenged the university in the same way that feminism has challenged society at large Drawing on her experiences as a historian feminist academic administrator and former chair of a women's studies program Boxer observes that by working for justice and for changes necessary to make the attainment of justice a practical possibility women's studies ensures that women are heard in the processes and places where knowledge is created taught and preserved The intellectual transformation behind the emergence of women's studies Boxer concludes is one of historic proportions Like other great moments in human experience it has given rise to a flowering of art literature and science and to the challenging of previously accepted authorities of text and tradition

Speaking Out Tanya Serisier, 2018-11-19 This is the first critical study of feminist practices of speaking out in response to rape This book argues that feminist anti rape politics are characterised by a belief in the transformative potential of women's personal narratives of sexual violence The political mobilisation of these narratives has been an incredibly successful strategy but one with unresolved ethical questions and political limitations The book explores both the successes and the unresolved questions through feminist archival materials published narratives of sexual violence and mass media and internet sources It argues that that a rethinking of the role and place of women's stories and the politics of speaking out is vital for a rethinking of feminist politics around sexual violence and key to fresh approaches to combating this violence

Constructing Human Trafficking Jennifer K. Lobasz, 2018-07-31 Human trafficking has come to be seen as a growing threat and transnational advocacy networks opposed to human trafficking have succeeded in establishing trafficking as a pressing political problem The meaning of human trafficking however remains an object of significant and heated contestation This project draws upon feminist and poststructuralist international relations theories to offer a genealogy of U S neo abolitionism The analysis examines activist campaigns legislative and policy debates and legislation surrounding human trafficking and the Trafficking Victims Protection Act in order to argue that the dominant US framing of trafficking as prostitution and sex slavery is not as hegemonic as scholars and activists commonly argue In fact constructions of human trafficking have become more amenable to reconfiguration paradoxically in large part because of

Evangelical attempts to widen the frame This is an empirically novel and theoretically rich account of an urgent transnational issue of concern to activists voters and policymakers around the globe **Colombian Women** Elena Garcés,2008-01-01

Women deliver themselves from subjugation by recovering their voices by educating themselves and by speaking out in unison against forces that have kept them under heel The scope of Colombian Women The Struggle Out of Silence is both personal and global personal to the interviewees and to Elena Garcés herself as she tells her own story and global in that many features of the patriarchy and its dysfunction extend well beyond the borders of Colombia **Feminist Thought**
