Australian Clinical Legal Education Adrian Evans, Anna Cody, Anna Copeland, Jeff Giddings, Peter Joy, Mary Anne Noone, Simon Rice, 2017-02-17 Clinical legal education CLE is potentially the major disruptor of traditional law schools core functions Good CLE challenges many central clichés of conventional learning in law everything from case book method to the 50 minute lecture And it can challenge a contemporary overemphasis on screen based learning particularly when those screens only provide information and require no interaction Australian Clinical Legal Education comes out of a thorough research program and offers the essential guidebook for anyone seeking to design and redesign accountable legal education that is education that does not just transform the learner but also inculcates in future lawyers a compassion for and service of those whom the law ought to serve Established law teachers will come to grips with the power of clinical method Law students struggling with overly dry conceptual content will experience the connections between skills the law and real life Regulators will look again at law curricula and ask law deans when

Linden Thomas, Steven Vaughan, Bharat Malkani, Theresa Lynch, 2018-10-04 *Clinical Legal Education* CLE can be defined in broad terms as the study of law through real or simulated casework It enables students to experience the law in action and to reflect on those experiences CLE offers an alternative learning experience to the traditional lecture seminar method and allows participants to take the study of law beyond the lecture theatre and library CLE has been a part of English law schools for several decades and is becoming an increasingly popular component of a number of programmes It is also well established in North America Australia and many other countries around the globe In some law schools CLE is credit bearing in others it is an extracurricular activity Some CLE schemes focus on social welfare law whilst others are commercially orientated A number are run in conjunction with third sector organisations and many are supported by private practice law firms This edited collection brings together academics lawyers third sector organisations and students to discuss the present experience and potential of CLE As such it will be of interest to a wide and diverse audience both within and outside the UK

clinical legal education particularly in light of the ongoing COVID 19 pandemic This book will be of particular interest to researchers in the fields of clinical legal education and the use of emerging technologies in legal education Through the Looking Glass Wendy Wheeler, David A. Thomas, J. Reuben Clark Law School, 1994 **A Handbook of Legal Education in Nigeria** Emiri, Oghenemaro Festus, 2018-05-22 This book is on the nature and practice of legal education in Nigeria with comparative material sometimes deployed to shed light on current local situation The primary goal of legal education is to prepare students for the profession To do this a faculty will need to pay attention to a theory of learning to guide it in implementing a programme that will serve the mission It is hoped that the basic information here provided on the basic structure and content of legal education and ensuing challenges should point in more fruitful directions to all in the legal profession in Nigeria Shaping the Bar Joan Howarth, 2022-12-13 The comprehensive source on attorney licensing and how to reform it In *Shaping the Bar* Joan Howarth describes how the twin gatekeepers of the legal profession law schools and licensers are failing the public Attorney licensing should be laser focused on readiness to practice law with the minimum competence of a new attorney According to Howarth requirements today are both too difficult and too easy Amid the crisis in unmet legal services record numbers of law school graduates disproportionately people of color are failing bar exams that are not meaningful tests of competence to practice At the same time after seven years of higher education hundreds of thousands of dollars of law school debt two months of cramming legal rules and success on a bar exam a candidate can be licensed to practice law without ever having been in a law office or even seen a lawyer with a client Howarth makes the case that the licensing rituals familiar to generations of lawyers unfocused law degrees and obsolete bar exams are protecting members of the profession more than the public Beyond explaining the failures of the current system this book presents the latest research on competent lawyering and examples of better approaches This book presents the path forward by means of licensing changes to protect the public while building an inclusive diverse competent ethical profession Thoughtful and engaging *Shaping the Bar* is both an authoritative account of attorney licensing and a pragmatic handbook for overdue equitable reform of a powerful profession *Handbook of Reflection and Reflective Inquiry* Nona Lyons, 2010-04-07 Philosophers have warned of the perils of a life spent without reflection but what constitutes reflective inquiry and why it is necessary in our lives can be an elusive concept Synthesizing ideas from minds as diverse as John Dewey and Paulo Freire the *Handbook of Reflection and Reflective Inquiry* presents reflective thought in its most vital aspects not as a fanciful or nostalgic exercise but as a powerful means of seeing familiar events anew encouraging critical thinking and crucial insight teaching and learning In its opening pages two seasoned educators Maxine Greene and Lee Shulman discuss reflective inquiry as a form of active attention Thoreau's wide awakeness an act of consciousness and a process by which people can understand themselves their work particularly in the form of life projects and others Building on this foundation the *Handbook* analyzes through the work of 40 internationally oriented authors Definitional issues concerning reflection what it

is and is not Worldwide social and moral conditions contributing to the growing interest in reflective inquiry in professional education Reflection as promoted across professional educational domains including K 12 education teacher education occupational therapy and the law Methods of facilitating and scaffolding reflective engagement Current pedagogical and research practices in reflection Approaches to assessing reflective inquiry Educators across the professions as well as adult educators counselors and psychologists and curriculum developers concerned with adult learning will find the Handbook of Reflection and Reflective Inquiry an invaluable teaching tool for challenging times **Street Law** Frances Ridout,Linden Thomas,2023-11-16 The first book of its kind published in the UK Street Law Theory and Practice is the ideal companion for all students engaging in credit bearing or non credit bearing Street Law projects Highly accessible and student focussed it teaches readers not only how to successfully design deliver and reflect on Street Law sessions but also the theory behind this practice It covers a full and diverse range of topics beginning with initial project design and ending at post project reflection and evaluation with a host of topics including interactive teaching techniques ethics and problem solving in between Designed to be read chronologically or as standalone chapters it is the perfect textbook for students at each stage of their Street Law journey Including quotes from active Street Law practitioners and coverage of contemporary Street Law topics such as the housing crisis the text is a fully up to date resource for today s law students Its original workbook format including an abundance of reflective questions activities and prompts with space included for students to write their responses ensures every reader develops not only a comprehensive insight of this important form of public legal education but also their own learning and practice **How to Set up and Run a Law Clinic** Donald Nicolson,JoNel Newman,Richard Grimes,2023-12-11 This accessible How To Guide provides practical expert guidance on how to successfully set up and run a law clinic Donald Nicolson JoNel Newman and Richard Grimes explore the process of designing a clinic to address unmet legal needs enhance student learning and maximise the additional benefits of a clinic **The Ethics Project in Legal Education** Michael Robertson,Lillian Corbin,Kieran Tranter,Francesca Bartlett,2010-10-06 This book discusses the teaching of legal ethics arguing that the current formal rules governing lawyers are inadequate as true engagement with ethical issues requires lawyers to exercise judgment and therefore there is a need to rethink the aims scope and methodology of legal ethics education The volume presents the views of a number of internationally renowned legal ethicists including Brent Cotter and David Chavkin exploring and questioning the teaching of legal ethics The contributions examine legal ethics teaching in a range of jurisdictions including the USA Canada Australia South Africa and Hong Kong A number of contributors discuss design issues that cover a broad field of methods including simulations the pervasive use of problem solving exercises and real world experiences with some of the essays revealing their empirical findings on the effectiveness of these methods and particularly as they affect the students **Legal Thoughts between the East and the West in the Multilevel Legal Order** Chang-fa Lo,Nigel N.T. Epistemic Communities at the Boundaries of Law Cecilia Blengino,Andrés Gascón-Cuenca,2019 As richly described in the various chapters of this book we see that clinics can act as a window to the functioning of law and the legal system Clinics allow students and faculty to see how laws and the legal system are functioning for groups of people who otherwise likely would not be a part of the common experience of professors and their students poor people generally migrants and refugees women and children exploited by trafficking people with disabilities ethnic minorities prisoners and so on Legal systems the world over tend to give less care and attention to the problems of the poor and other disempowered groups and such people usually lack access to well educated legal advocates to help them fight to make the legal system work for them Through clinic cases students and

faculty see the day today lives of people marginalized by the society see how the law affects and influences their lives and see how it serves or fails to serve them For law professors involved in clinical education such as the authors of this book heightened awareness of the law s operation for poor people adds another important perspective to the subjects of their research and work as commentators on the law Students can also be inspired to select topics for research papers master or PhD theses by exposure to problems in the law and legal system as it functions for their clients Dall introduzione
