Reforming Agricultural Markets In Africa:

Reforming agricultural markets in Africa Kherallah, Mylene, Delgado, Christopher L., Gabre-Madhin, Eleni Z., Minot, Nicholas, Johnson, Michael, 2002-01-01 The long term reduction of hunger and poverty in Sub Saharan Africa remains one of the great challenges for the international development community Eliminating hunger and promoting widespread growth in the region inevitably involves agriculture given its central role in the region s economies Over the past 20 years most African governments have carried out reforms to deregulate agricultural markets and reduce the role of state enterprises How much has the state actually withdrawn from agricultural markets Have well functioning private markets emerged How successful were these reforms in boosting agricultural production economic growth and the incomes of the rural poor What lessons can we learn from the reform process The authors of this book address these questions through an analysis based on an extensive review of experiences with reform focusing on three major agricultural markets fertilizer food crops and export crops They examine the historical rationales for intervention the factors contributing to reform the process of implementation and the impact of the reforms on farmers and consumers in Sub Saharan Africa The authors find that reforms have had many favorable results but that the impact has been muted by partial implementation and structural constraints They propose a new agenda for promoting the development of agricultural markets in Sub Saharan Africa identifying areas where governments can play a supportive role They argue that appropriate agricultural marketing policies and investments can improve livelihoods and the economic health of the region

Agricultural Marketing in Tropical Africa H. Laurens van der Laan, Tjalling Dijkstra, Aad van Tilburg, 2018-08-09 First published in 1999 this volume explores how African agriculture has always had a strong appeal for the people of the Netherlands This is due to 1 a long established interest in tropical agriculture going back to the days when Indonesia was a Dutch colony 2 a broad based desire to help the Third World and 3 the view that Tropical Africa is highly dependent on agriculture As practical expertise in Africa and systematic research on African agriculture grew specialization became both possible and necessary This volume reflects the specialization in marketing which has been welcomed by economists geographers and scholars of agricultural marketing In addition to a general introductory chapter this book includes five contributions on staple food grains two on export crops two on cattle and one on horticulture Nine of the chapters are country specific covering Benin Burkina Faso Cameroon Cote d'Ivoire Ghana Kenya Sierra Leone Tanzania and Zambia
