Reshaping Culture Knowledge And Learning Policy And Content In The New Zealand Curriculum Framework:

Reshaping Culture, Knowledge and Learning? Anne-Marie O'Neill, John Andrews Clark, Roger Openshaw, 2004 This text the first of two volumes presents a series of expansive critiques on the policy and ideology underlying the content and structure of the New Zealand Curriculum Framework It contains the work of some of our leading curriculum theorists and a number of curriculum statement writers The National Government 1990 1999 primarily saw the role of this curriculum as economic and commercial to nurture an enterprise culture to enhance our global economic competitiveness This book examines the assumptions about knowledge learning individuals society and the purpose of education which underpin this extreme form of outcomes based curriculum These are located in the wider context of educational restructuring the managerial and accountability demands which now dominate practice in the sector and the creation of a competitive education marketplace P 4 of cover *Reforming New Zealand Secondary Education* R. Openshaw, 2009-08-31 This timely book argues that the New Zealand educational reforms were the product of longstanding unresolved educational issues that came to a head during the profound economic and cultural crisis of the 1970s and early 1980s *The Matrix Ate My Baby* Andrew Gibbons, 2007-01-01 Parents and teachers are under increasing pressure to make decisions about the technologies that children can and should play with during their early years The media governments toy companies child advocacy organizations and child development experts disseminate many often contradictory claims that influence practices of caring for and educating young children The Matrix Ate My Baby explores these messages that adults receive regarding the values and dangers of new technologies and of the importance of play The book interrogates the value of play as an essential component of learning and the essential role of play in a technological society s aspirations for progress Drawing upon the philosophy of technology this book provides parents teachers and teacher educators with a critique of predominant perspectives regarding the young child s increasingly hi tech world It provides alternative perspectives of technology and education in order to emphasise the importance of questioning and the value of difference for early childhood educators for parents of young children and for research of the child s play with new and old technologies **From Technicians to Teachers** Leon Benade, 2012-12-06 From Technicians to Teachers provides theoretical and practical reasons for suggesting that widespread international curriculum reform of the post 1990 period need not deprofessionalise teaching The widely held deprofessionalisation thesis is both compelling and fatalistic leading to a despairing sense that teachers are either no more than technicians or that they can be reprofessionalised through definitions of effective teachers promoted by the reforms However there are many teachers who do not see their work in either of these ways The book is structured around an in depth case study detailing the implementation of The New Zealand Curriculum in that nation one of the best international examples of neoliberal reform Benade argues that curriculum policy can and should be analysed critically while pointing out the dangers for ethical teachers that can exist in national or state curricula Energising and inspiring this book reminds

teachers and teacher educators that although they work in a globalised context their own role is fundamental and has a profoundly ethical basis despite the negative impacts of three decades of education reform Education Policy Mark Olssen, John A Codd, Anne-Marie O'Neill, 2004-06-08 Education policy is now a global matter and all the more complex for that Mark Olssen John Codd and Ann Marie O'Neill do us an invaluable service in producing a carefully theorised guide to current issues and key concerns this is an important erudite and very practical book Stephen J Ball Education Policy Research Unit University of London Given the global reach of neoliberal policies we need cogent books that enable us to better understand the major effects such tendencies have Education Policy is such a book It is insightful and well written and should be read by all of us who care deeply about what is happening in education in international contexts Michael W Apple Author of Educating the Right Way and John Bascom Professor of Education University of Wisconsin Madison I really am taken with the book the range and depth of analysis are truly impressive This book is a magnum opus and everyone in the area should read it Hugh Lauder University of Bath In their insightful and comprehensive book on education policy Mark Olssen John Codd and Anne Marie O'Neill wrestle with the big questions of citizenship and democracy in an age of globalization They argue that education policy in the 21st century is the key to security sustainability and survival The book anchored in the poststructuralist perspective of Michel Foucault traverses the whole territory of education policy not only methods and approaches of policy analysis and the dominant political perspectives that influence policy classical liberalism social democracy and neo liberalism but also those policy areas that require the closest scrutiny markets trust professionalism choice diversity and finally community citizenship and democracy This is the new policy bible for educationalists it is at once systematic provocative and instructive Michael A Peters Research Professor University of Glasgow It is rare indeed for books with such ambitious scope as this one to appear within educational scholarship This is an important book for any graduate student who is undertaking work on any aspect of education policy Education Review This book provides an international perspective on education policy and of the role and function of education in the global economy The authors present a Foucauldian perspective on the politics of liberal education within a theoretical framework necessary for the critical analysis of education policy The authors set out the analyses necessary for understanding the restructuring in education and social policy that has occurred in many countries affected by the resurgence of neo liberal political theory They examine education policy in relation to globalization citizenship and democracy The authors argue that globalization is an extension of neoliberalism and is destructive of the nation state community and democracy They show the importance of education in building strong democratic nation states and global communities based on cultural identity and inter cultural awareness This book is essential reading for students of education policy studies and social policy analysis Sexual Subjects L. Allen, 2005-09-08 Educating young people about sex and sexuality remains one of the most controversial and political areas of the school curriculum Drawing on young people's own understandings of their sexual selves knowledge and practices Sexual

Subjects considers the implications for how we conceptualize the effectiveness of sexuality education Reshaping thinking around youthful hetero sexualities Sexual Subjects challenges current approaches to teaching about sex and sexuality

Handbook of Teacher Education Tony Townsend, Richard Bates, 2006-08-09 This book has its origins in conversations that started when the International Council on Education for Teaching ICET and the Australian Teacher Education Association ATEA jointly agreed to co sponsor a World Assembly of Teacher Educators in Melbourne in July 2003 hosted by Monash University The editors of this book were not only intimately involved in the management of the conference but had also been key figures in the Associations involved Tony Townsend had been secretary and on the national board of the South Pacific Association for Teacher Education SPATE which later became ATEA and had previously managed a SPATE conference in Frankston Australia in the 1980s He is currently the President of ICET and now works at Florida Atlantic University Richard Bates has been a long time board member of ATEA and is currently President of that organization He is also a Board member of ICET The International Council on Education for Teaching ICET was founded in 1953 for the purpose of emphasizing international cooperation in educational development in order to improve the quality of teacher education as well as to expand global educational opportunities for people in teacher education Since that time ICET has developed into an international association of practitioners of teacher education policy and decision makers in education government and business dedicated to global development through education ICET is a Non Governmental Organization NGO and participates in NGO meetings and other UNESCO sponsored conferences around the world

Resisting Qualifications Reforms in New Zealand ,2019-02-18 New Zealand has been a veritable laboratory for a range of social experiments in the last twenty years including an arranged marriage with neo liberal economic policies during the late 80s and 90s These experiments extended to education where students teachers teacher educators and researchers have experienced wide ranging reforms in administration curriculum and qualifications The most contentious of these have been a series of untried and radical qualifications reforms This book offers a critical examination of these reforms from the perspective of a group of educators who resisted them by doing the unthinkable devising their own national qualification and making it work

Negotiating Ethnic Diversity and National Identity in History Education Helen Mu Hung Ting, Luigi Cajani, 2023-05-26 This edited book explores the problems and challenges of negotiating the representation of ethnic minorities within history education It investigates how states balance the non acknowledgement of the reality of cultural or religious diversity and the promotion of a point of convergence in history education to foster national identity Shifting our attention away from the intractable challenges posed by post conflict countries for reconciliation the contributors draw attention to the need to explore ways to prevent or preempt conflicts and exclusion through history education which could contribute to developing a more sustainable culture of peace Drawing on a wide range of contexts and sources this book asks how history education could contribute to forming critical historically informed and committed young

citizens The book will be of interest to students and academics working on themes such as nationalism citizenship ethnicity history education multicultural education peace studies and area studies as well as practitioners in the fields of history social studies civic or citizenship Educational Change and the Secondary School Music Curriculum in Aotearoa New Zealand Graham McPhail,Vicki Thorpe,Stuart Wise,2018-02-13 Educational Change and the Secondary School Music Curriculum in Aotearoa New Zealand provides a fascinating case study in educational change The music curriculum has been greatly affected by deep cultural and economic forces such as the growth of popular music s importance in young people s lives by demands for inclusive and multicultural education and not least by advances in technology that promise to invigorate all aspects of teaching and learning This book brings together the work of a number of leading music education scholars and teachers from Aotearoa New Zealand to both explore these issues and to share case studies of practice both the positive changes and the unintended consequences Each chapter focuses on a current issue in music education and the final chapter contains responses from a number of practitioners to the issues raised by the authors drawing together the practical and theoretical dimensions of the book **Sexuality Education and New Materialism** Louisa Allen,2018-06-20 This book aims to explore what queer thinking and new materialist feminist thought might offer the field of sexuality education It argues that queer theory in education might be queered further by drawing on feminist new materialism and extending itself to subjects beyond sexual and gender identities issues including a focus on things Allen explores how new materialism as a form of queer thinking might be brought to bear on other important issues of social justice such as classroom cultural and religious diversity *Critical Pedagogies in Physical Education, Physical Activity and Health* Julie Stirrup,Oliver Hooper,2021-07-29 Critical Pedagogies in Physical Education Physical Activity and Health explores critical pedagogy and critical work around the body health and physical activity within physical education By examining the complex relationships between policies and practice and how these are experienced by young people it elucidates the need for critical pedagogy in contemporary times With contributions from leading international experts in health and physical education and underpinned by a critical socio cultural approach the book examines how health and physical education are situated across various international contexts and the influence of policy and curriculum It explores how health is constructed by students and teachers within these contexts as well as how wider spaces and places beyond formal schooling influence learning around the body health and physical activity Finally it considers what progressive pedagogies might look like within health and physical education Chapters utilise empirical work within the field to explore various topics of relevance to critical pedagogy drawing on theoretical insights while providing practical applications and concluding with reflection points to encourage readers to consider the relevance for their own contexts Designed to support pedagogical study in a range of contexts this book will be of particular interest to undergraduate and postgraduate students teachers and researchers with an interest in physical education physical activity and health and the role they play in young people s lives Access ,2004 Education, Ethics

and Existence Peter Roberts, Andrew Gibbons, Richard Heraud, 2018-02-05 Best known today for his novels plays and short stories but also an accomplished essayist editor and journalist Albert Camus was one of the most influential literary figures of the 20th century He has gained widespread recognition for works such as *The Stranger* *Caligula* *The Plague* and *Exile and the Kingdom* In 1957 Camus was awarded the Nobel Prize for Literature In 1960 he was killed in a car accident aged just 46 Since Camus untimely death his work has been engaged by scholars in literature politics philosophy and many other fields This volume is one of the first book length studies of Camus with a specifically educational focus Camus writings raise and address ethical and political questions that resonate strongly with current concerns and debates in educational theory and the difficulties and dilemmas faced by his characters mirror those encountered by many teachers in school classrooms This book will appeal to all who wish to consider the connections between education ethics and the problem of human existence This book was originally published as a special issue of *Educational Philosophy Theory* Understanding Teaching and Learning Baljit Kaur, 2012-12-17 How do children individually and collectively make meanings of their learning experiences How can teachers become aware of children s meaning making on an ongoing basis Is it possible and useful to create an integrated theory of student learning How can classroom research enhance critical understandings of the situated nature of learning and teaching while taking into account the systemic and educational policy contexts How do differences such as class race culture gender and sexualities interact with student learning How can teachers respond effectively to the realities of today s diverse classrooms What are the current and emerging issues in classroom research These are just some of the questions this book grapples with It pays tribute to Professor Graham Nuthall s 1935 2004 research contributions a pioneering and internationally renowned classroom researcher of teaching and learning from New Zealand It has been written by emerging and experienced classroom researchers from several countries as part of a project aimed at building on and extending Nuthall s research and promoting the conducting teaching and supervision of classroom research The authors engage critically with theoretical methodological and pedagogical possibilities of their research using Nuthall s work as a springboard As a result all authors make links between theory and practice Further several leading international researchers contribute comments on future directions for classroom research and its relevance for teaching and learning **Understanding teaching and Learning Classroom Research Revisited** would be of interest to practicing or prospective teachers and teacher educators as well as scholars and students of teaching and learning **Global Perspectives and Key Debates in Sex and Relationships Education** V. Sundaram, H. Sauntson, 2016-01-26 There is a great variety of sex and relationship education in the global North and South and this book draws together the global perspectives and debates on this key topic Issues including gender based violence pornography sexual consent sexual diversity and religious plurality are all discussed with reference to cutting edge research **The Cultural Politics of Queer Theory in Education Research** Christina Gowlett, Mary Lou Rasmussen, 2017-10-02 *The Cultural Politics of Queer Theory in Education Research* represents the editors

intention to disrupt cycles of thinking about the place of queer theory in educational research The book aims to encourage dialogue about the objects and subjects of queer research the forms of politics incited by the use of queer theory in education and the methodological approaches used by scholars when queer y ing The contributions to this book come from those who find queer theory problematic as well as from those who continue to see a productive place for queer research in education however that may be defined The editors have collected contributions that attend to the boundaries that are placed around queer research in education by researchers themselves and by peers ethics committees funding bodies and university and government bureaucracies Considering how key researchers in gender and education identify with or deliberately distance themselves from queer theory this collection grapples with the contemporary cultural politics of doing queer theoretical work in different education spaces and places In short it seeks to disrupt what people think they already know about the place of queer theory in education This book was originally published as a special issue of Discourse Studies in the Cultural Politics of Education
