Death

and Dying John F. Szabo, 2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death. Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death, dying, grief, and bereavement can be extremely challenging. Although there have been several bibliographical resources published on thanatology, those titles were incomplete, limited in scope, or leaned heavily toward one area of the field. In *Death and Dying: An Annotated Bibliography of the Thanatological Literature*, John F. Szabo provides more than 2,200 citations of monographs on the science and study of death and dying. Among the areas this volume addresses are the psychological, philosophical, and attitudinal aspects of coping and dealing with the burdens of caregiving and working in the helping professions; instructional and educational topics for practitioners, primarily health care providers; cultural differences in bereavement, rituals, and grief; mourning and loss. In addition, notable titles on or relating to death and dying in popular culture, death themes in literature, methods of death, or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses. This book will be helpful to students, researchers, academics, caregivers, health care professionals, psychologists, social workers, and anyone with an interest in death, dying, bereavement, or the care of the terminally ill.

Intimacy in Later Life Kate M. Davidson, Graham Fennell, 2017-07-12 To love and be loved is arguably one of the most powerful and fundamental driving forces sustaining self-esteem and self-identity throughout the life course. Need for reciprocal loving does not change as we grow older despite failures of health, loss of a partner, late divorce, and alterations of personality due to the aging process. However, most studies of human sexuality have ignored the problems and developing patterns of older adults entering into new partnerships. To fill this gap, *Intimacy in Later Life* brings together a wide range of distinguished international scholars to address this neglected research area.

Widow to Widow Phyllis R. Silverman, 2004-11-23 *Widow to Widow* shares the experiences of widows who have found comfort and continuity in mutual help and community support programs. In the second edition of her pioneering text, Phyllis Silverman brings the success of the original widow to widow program into the 21st century, preparing a new generation of community leaders, clergy, counselors, hospice staff, social workers, and the widowed themselves to organize and implement mutual help programs.
