## **Resist Powers With Jacques Ellul:**

Resist the Powers with Jacques Ellul Charles Ringma, Jacques Ellul, 1995      *The Word Before the Powers* Charles L. Campbell, 2002-01-01 In this examination of the ethical significance of preaching Charles Campbell provides both fresh insights into the relationship between preaching and ethics and a challenging moral vision for the contemporary church Moving beyond a narrow focus on moral decision making or social issues sermons Campbell argues that a particular ethic nonviolent resistance is inherent in the practice of preaching and shapes the moral life of the church In the face of the powers the fundamental ethical task of preaching involves building up the church as a community of resistance Employing three dimensions of character ethics vision practices and virtues Campbell demonstrates the concrete ways in which preachers may undertake this task      *Pentecostal Perspectives on Social Justice* Thomas U. Kurt, 2025-06-10 The beginnings of the Pentecostal movement were characterized by charismatic gifts and an extraordinary missionary dynamic At the same time early Pentecostals stood out from their social environment for their liberal practices on race and women s issues and for their pacifism In a world characterized by violence oppression and exploitation the question of justice is crucial for the future of this world At the same time for Pentecostals the question of the future of this world is closely linked to the kingdom of God This book explores whether there is a common denominator in Pentecostal social ethics what that denominator consists of and what its theological categories are To answer these questions it examines four representatives of the global Pentecostal church who have made prominent contributions in the field of social ethics The results are then discussed in a dialogue with Jürgen Moltmann one of the most prominent voices in systematic theology for social justice and the liberation of the oppressed

**Resistance and Contemplation** James W. Douglass, 2006-04-01 I rejoice in this day and in this book becoming available once again At Jonah House the place I ve called home for 33 years we ve had numerous copies of it in the years since it was first published One copy remains dog eared read reread studied It was a book that we reflected on together in community the backbone if you will next to the Scriptures of our on going resistance out of community Elizabeth McAlister Jonah House from the foreword This book has been of extraordinary significance to large numbers of young people resisters prisoners searchers many who have been increasingly perplexed and anguished by the course of American life in the world My brother Philip and I have used it in numerous sessions with students and others who found in it the sustenance necessary to allow them to take the next step in their struggle on behalf of life It seems to me that this book will continue in its own quiet and persistent way to reach those Americans who are capable of inviting us into any future worth speaking about Daniel Berrigan From perspectives of truth nonviolence and resistance to personal and cultural violence this book is among the few important books of the last decade Neutrality to this book is impossible people will view it as a gift or they will reject it as a threat enlightening strengthening liberating Philip Berrigan Jim Douglass is a writer and a Catholic Worker He and his wife Shelley are co founders of the Ground Zero Center for Nonviolent Action in Poulsbo WA and Mary s House a Catholic Worker house

of hospitality in Birmingham AL He is currently writing three books on the assassinations of the Kennedys Malcom X and King in the 1960 s with Orbis Books The James Douglass Reprint Series The Non Violent Cross Resistance and Contemplation Lightning East to West The Nonviolent Coming of God Reconciliation Tobias Faix,Johannes Reimer,G. J. van Wyngaard,2021-01-27 Hardly any other topic is as important for the coexistence of mankind as the question of justice and reconciliation In this volume we want to examine this important question from different interdisciplinary and international perspectives in order to develop an overall understanding that will contribute to reconciliation in various cultural and religious fields of conflict in the world Particular attention will be paid to the theological perspective on reconciliation in which justice and restoration of relationships play a central role Christ, Power and Mammon Scott Thomas Prather,2013-08-15 This book examines the role of the New Testament concept of the principalities and powers in the thought of Karl Barth and John Howard Yoder showing how this biblical concept of power is central to the fundamental theological convictions of each thinker Prather offers a scholarly account of the underexplored theological and ethical import of a major biblical theme and the book addresses questions and concerns from a wide range of academic and lay theological interest He brings Barth and Yoder into dialogue here and examines the three crucial areas the confessional distinction of church and world the demonization of political power and the intrinsic relation between the political and economic powers While other theologians have rightly identified a christocentric connection between the thought of Barth and Yoder no attempt has been made to bring them together through the sustained analysis of a single doctrinal or ethical issue this book does just that **Resistance and Theological Ethics** Ronald H. Stone,Robert L. Stivers,2004 Resistance and Theological Ethics collects the edited and updated essays that emerged from the meeting of the Theological Educators for Presbyterian Social Witness in Geneva Switzerland and southern France in 1999 These writings from educators and ethicists combine to sound a clarion call for the church to stand in resistance to social economic and political forces that threaten while embracing those that foster social justice peace and human welfare Each author emphasizes a specific call to resistance against powers grounded in particular forms of sin religious pride greed violence and domination Divided into three parts the book details social forces to be resisted presents historical and biblical examples of resistance and concludes with theological analysis and advocacy for action in contemporary American society **In the Midst of Much-Doing** Charles R. Ringma,2023-05-31 How are we to sustain activism and compassion amidst the never ending crises of the twenty first century While the concern for social justice is deeply biblical cynicism burnout and despair are all too common side effects when action is divorced from contemplation To effectively serve as the hands and feet of Jesus the church must attend to the revitalization of its inner life through the spiritual practices which feed support and sustain the work of the kingdom Rather than the fragmentation and dualism that have led denominations to choose between prayer and service evangelization and justice the church must integrate heart mind and body in order to fulfil its calling to transform the world from within

Drawing from Scripture and a wide range of Christian traditions from the monastic to the evangelical this book inspires its readers to integrate spiritual renewal and prophetic witness for the glory of God and the good of his creation **Forbidden Bookshelf's Resistance in America Collection** Nancy Howell Lee, Peter Dale Scott, Bertram Gross, 2017-06-13 From creeping capitalism to abortion to government corruption these three books shed light on controversial topics that are too often left in the dark Curated by NYU professor Mark Crispin Miller the Forbidden Bookshelf series resurrects books from America's repressed history All touching on bold and debated topics these three books are more relevant today than ever

**Friendly Fascism** Bertram Gross a presidential adviser in the New Deal era explores the insidious way that capitalist politics could subvert America's constitutional democracy First published over three decades ago this book predicted the threats and realities that occur when big business and big government become bedfellows while demonstrating how US citizens can build a truer democracy

**The Search for an Abortionist** Nancy Howell Lee's eye opening account reveals the dangerous and illegal options for women seeking an abortion before Roe v Wade Based on interviews with 114 women this groundbreaking work takes an intimate look at the abortion process

**Dallas 63** Peter Dale Scott exposes the deep state an intricate network within the American government linking Wall Street influence corrupt bureaucracy and the military industrial complex Since World War II its power has grown unchecked and nowhere has it been more apparent than at Dealey Plaza on November 22 1963 Scott details the CIA and FBI's involvement in the JFK assassination and shows how events like Watergate the Iran Contra affair and 9 11 are all connected to this behind the scenes web of corruption **Free People** Tricia Gates Brown, 2005-11-01

**AT ONCE AN INTRODUCTION TO GLOBAL ECONOMICS AND a Christian ethical examination of it** Free People looks at one of the most pressing challenges facing followers of Jesus today How does one love God and neighbor while enmeshed in a globalized economy where our lives are networked with and impact the lives of people all around the world Written in a highly readable style this book defines global economics in terms a non economist can appreciate and describes how the global economy dominates people from sweatshop workers in Bangladesh to coffee farmers in Central America to citizens of northern democracies The second half of the book offers a fresh look at biblical insights on wealth and its usage and at the New Testament concept of principalities and powers Finally Free People suggests ways for Christians to live humanly in these times by looking at the lives of specific people who in simple practical ways resist the dehumanizing power of global economics

**The Cambridge Companion to Postmodern Theology** Kevin J. Vanhoozer, 2003-07-31 Postmodernity allows for no absolutes and no essence Yet theology is concerned with the absolute the essential How then does theology sit within postmodernity Is postmodern theology possible or is such a concept a contradiction in terms Should theology bother about postmodernism or just get on with its own thing Can it Theologians have responded in many different ways to the challenges posed by theories of postmodernity In this introductory 2003 guide to a complex area editor Kevin J Vanhoozer addresses the issue head on in a lively survey of what talk about God might mean in a postmodern age and vice versa The

book then offers examples of different types of contemporary theology in relation to postmodernity while the second part examines the key Christian doctrines in postmodern perspective Leading theologians contribute to this clear and informative Companion which no student of theology should be without *The Power of the Cross* Graham Tomlin,2007-03-01 In a postmodern world the church cannot escape the question of power The contemporary critique of the church suggests that it reigned for so long in Western society not because it was more true than its rivals but because it was more powerful Is the Christian claim to truth merely a veiled bid for power Has not the church regularly abused its power during the years of Christendom Does Christian theology have the resources to answer these charges This book argues that it does in the quiet but recurrent theme of the theology of the cross It explores the origins and contours of this kind of theology in three of its major exponents St Paul Martin Luther and Blaise Pascal showing how each of them turned to a theology of the cross to combat the abuse of power within the church It concludes by considering how such theology might do the same in the postmodern context Of interest to anyone concerned with the role of the church in a postmodern world or in the theology of the cross itself this book explores vital themes for the church s life and thought both today and in the future *The Fall of the Prison* Lee Griffith,1999-01-25 Even as America s prison system is expanding at an unprecedented rate Lee Griffith makes a startling proposal in this book abolish prisons To make his case Griffith thoroughly examines prisons from the perspectives of sociology theology history and biblical exegesis Bolstered with extensive documentation as well as lively anecdotal evidence this compelling radical book is bound to stir up serious discussion *Confronting the Will-to-Power* Mark F.W. Lovatt,2006-10-19 The author takes up Niebuhr s theology and presents it to be at its heart an attempt to grapple with the most powerful and most dangerous aspect of human nature a quality Niebuhr describes as the will to power Lovatt argues forcibly that Niebuhr identifies the fundamental nature of human sin as having very specific qualities and that Niebuhr over his various works develops a theology which seeks to deal effectively with this quality both theologically and practically Lovatt discusses the main areas of doctrine covered by Niebuhr and considers how his position reflects his underlying agenda to grapple with the reality of the will to power this leads to some important conclusions about Niebuhr modern theology and the present day problem of evil **Introducing Christian Ethics** Samuel Wells,Ben Quash,2010-02-22 This comprehensive textbook redefines the field of Christian Ethics highlighting distinctions between ethical approaches and offering thoughtful insights into the complex moral challenges facing people today Redefines the field of Christian ethics along three strands universal ethics for anyone subversive ethics for the excluded and ecclesial ethics for the church Offers students substantially more than many texts most of which focus solely on issues approaches or key figures in Christian ethics this books covers all **The Power of the Church** Michael R. Wagenman,2020-11-20 It is fascinating that in all the media reports and discussions of the church s abuse of power in the early years of the twenty first century few if any seemed to notice that the accusation of the church s misuse of power presupposed a shared understanding of the

positive use of power within the church that had been violated Rather than an interest in the sociological aspect of this question this book examines the more ontological and normative aspects of it That is it investigates and discerns the foundational theological framework of culture and society and the location and purpose of the church within them As a cultural force and societal institution what does the church constructively bring to the human community In the Days of Caesar Amos Yong,2010-09-14 In the Days of Caesar is a constructive political theology formulated in sustained dialogue with the Pentecostal and charismatic renewal one of the most vibrant religious movements at the beginning of the twenty first century Amos Yong here argues that the many tongues practices and gifts of renewal Christianity offer up new resources for thinking about how Christian community can engage and transform the social political and economic structures of the world Yong has three goals here First he seeks to correct stereotypes of Pentecostalism both political and theological Secondly he aims to provoke Pentecostals to reflect theologically from out of the depths of their own Pentecostalism rather than merely to adopt some framework for theological or political self understanding Finally Yong shows that a distinctively Pentecostal form of theological reflection is not a parochial activity but has constructive potential to illuminate Christian belief and practice This book s engagement with political theology from a Pentecostal perspective is the first of its kind

*Power and Practices* Jeremy Bergen,Anthony G. Siegrist,2009-08-18 A new generation engages the theology of John Howard Yoder These essays wrestle with questions of power and its implications for social practices including policing nonviolence sexism governmentality dialogue political critique theological construction and the work of inheriting a theological tradition The authors and their approaches to Yoder s work are diverse They bring a wide array of backgrounds to the task from activism and church leadership to advanced studies and the professorate What each has in common is an instinct to place Yoder s work into new conversations and to examine it through new lenses Authors include Chris K Huebner Nekeisha Alexis Baker Paul Martens John C Nugent and Paul C Heidebrecht *Mere Discipleship* Lee C. Camp,2008-08-01 What does it mean to be a disciple of Christ today And are Christians really prepared for the answers In Mere Discipleship Lee Camp sets forth his vision of what it means to truly follow Christ challenging Christians to put obedience to Jesus as Lord ahead of allegiances to all earthly authorities be they nationalistic political economic or cultural Camp clearly lays out a sound biblical framework of what disciples believe and therefore what they should do This substantially revised and expanded second edition updates examples adds chapter introductions and summaries and includes new study questions

*Propaganda and Power in the Age of Globalization* Simon Sherratt,2024-08-15 Following victory in World War II the US and Western Europe claimed to be the champions of the political ideals of democracy and freedom along with the economic ideal of free market capitalism Two decades into the twenty first century these once noble ideals have been reduced to little more than myths myths that bear scant resemblance to the realities of the powerful political and economic forces that dominate the Western world This book examines the dangerous prospects we face as the societies built upon these myths

begin to fragment and crumble In an open and accessible style this book argues that much of the confusion that currently plagues the West is due to the fact that its social economic and political systems are saturated by a little understood and rarely acknowledged system of propaganda This book seeks to clear away this propagandistic facade in order to reveal where power really lies in Western societies examining how this power functions and how it has corrupted the ideals of democracy freedom and capitalism to suit its own ends This volume will be of value to those interested in modern history and social and political history
