## **Resistance And Reaction University Politics In Post Mao China:**

*Resistance and Reaction* Shirin Rai, 1991      Shanghai in Transition Jos Gamble, 2005-07-27 In the decades following the introduction of Communist Party rule in Shanghai in 1949 the city's economy infrastructure and links with the world all atrophied However the past decade has seen far reaching economic reforms implemented to recreate Shanghai as a cosmopolitan world financial and trade centre This book focuses on the lives of local residents and their perceptions of their changing city and presents an evocative series of ethnographic perspectives of the city's shifting sociological landscape in this period of transition      **China's Universities, 1895-1995** Ruth Hayhoe, 2017-12-12 This reissue 1996 provides an in depth analysis of the development of the Chinese university during the twentieth century a period of momentous social economic cultural and political change It brings together reflections on the Chinese university and its role in the two great experiments of modern China Nationalist efforts to create a modern state as part of capitalist modernisation and the Communist project of socialist construction under Soviet tutelage In addition to these two frames of discourse other models and patterns are examined for instance the persistence of cultural patterns or Maoist revolutionary thought      **Chinese Politics and Society** Flemming Christiansen, Shirin Rai, 2014-02-04 An introduction to Chinese Politics which provides an accessible overview of the structures and dynamics of Chinese politics today Concentrating on the era since 1949 the text takes a look at politics in the widest sense analysing political institutions within the crucial broader context of Chinese history and the pressures of social economic and cultural changes      Rebellions and Revolutions Jack Gray, 2002 This is a study of China from the 1800s to the present day It focuses on China's problems of development the decay and collapse of the Chinese Empire its failure to recover in the first half of the twentieth century and its rapid emergence in world affairs since the Communist Party Revolution of 1949 This new edition examines economic growth updates Chinese foreign policy provides a revised account of the Tiananmen Incident and brings the chronology completely up to date      **Women and Politics in the Third World** Haleh Afshar, 2005-07-26 Women and Politics in the Third World is the first comprehensive textbook on women's political activities in the third world It provides a feminist analytical perspective on the specific forms of resistance organisation and negotiation by women in third world states Using case studies the book focuses on difference as a theoretical basis for investigating feminine political activism Though Western analysts have attributed weakness to terms such as motherhood marriage and domesticity as choices made by non Western women the contributors show that such strategies are used by women to pursue particular goals such as seeking resources welfare or freedom from oppression for their children These strategies the book suggests should not be classified as unimportant or temporary and can be highly effective even within such discourses as Islamic fundamentalism The contributors highlight differing political approaches in regions as diverse as Latin America South East Asia China and the Middle East      Higher Education, Meritocracy and Inequality in China Ye Liu, 2016-10-08 This book investigates the changing opportunities in higher education for different

social groups during China's transition from the socialist regime to a market economy. The first part of the book provides a historical and comparative analysis of the development of the idea of meritocracy since its early origins in China and in more recent western thought. The second part then explores higher education reforms in China, the part played by supposedly meritocratic forms of selection and the implications of these for social mobility. Based on original empirical data, Ye Liu sheds light on the socio-economic, gender and geographical inequalities behind the meritocratic facade of the Gaokao. Liu argues that the Chinese philosophical belief in education-based meritocracy had a modern makeover in the Gaokao and that this ideology induces working class and rural students to believe in upward social mobility through higher education. When the Gaokao broke the promise of status improvement for rural students, they turned to the Chinese Communist Party and sought political connections by actively applying for its membership. This book reveals a bleak picture of visible and invisible inequality in terms of access to and participation in higher education in contemporary China. Written in an accessible style, it offers a valuable resource for researchers and non-specialist readers alike.

**Western Perspectives on Chinese Higher Education** Xiuwu R. Liu, 1996. This book argues that constructivism and realism, two prominent theories of scholarly inquiry in a variety of fields, both have their strengths and weaknesses as descriptive models of how research is conducted and written up and as normative models for improving inquiry.

*Obedient Autonomy* Erika E.S. Evasdottir, 2007-10-01. In the west, the idea of autonomy is often associated with a sense of freedom, a self-interested state of being unfettered by rules or obligations to others. This original anthropological study explores a type of obedient autonomy that thrives on setbacks, blossoms as more rules are imposed and flourishes in adversity. *Obedient Autonomy* analyzes this model and explains its precepts through examining the specialized and highly organized discipline of archaeology in China. The book follows Chinese students on their journey to becoming full-fledged archaeologists in a bureaucracy-saturated environment. Often required to travel in teams to the countryside, archaeologists are uniquely obliged to overcome divisions among themselves, between themselves and their peasant workers, and between themselves and bureaucratic officials. This analysis reveals how these interactions provide teachers of archaeology with stories used to foster obedient autonomy in their students. Moreover, it demonstrates how this form of autonomy enables a person to order and control their future careers in what appears to be a disorderly and uncertain world. A masterly contextualization of archaeology in China, *Obedient Autonomy* shows how the discipline has accommodated itself to a Chinese social structure and uncovers the moral, ethical, political and economic underpinnings of that context. It will be accessible to students of anthropology, even as it will provoke Euro-American archaeologists and interest social theorists of science, philosophers, gender theorists and students of Chinese society.

**The Implementation of Inclusive Education in Beijing** Kai Yu, 2014-02-27. The education implementation process in China remains uncharted by researchers. *The Implementation of Inclusive Education in Beijing: Exorcizing the Haunting Specter of Meritocracy* puts forth a general theory on China's education programs encompassing policy, processes, actions and

interactions and grounded on the views of street level bureaucrats in China Kai Yu investigates these processes and presents teachers reflections on the change process as well as implementation stories from four Beijing schools He reports on their attitudes their beliefs and their pedagogical practices for implementing the innovative education program Yu argues that the imperatives of meritocratic ideology have undermined the detracking policy and its practice The strength of a program of change rests not so much on the power of the ideas purposes and values as on the reinterpretation of the implementers based on their personal understandings of institution and practice      *A History of Chinese Civilization* Jacques

Gernet,1996-05-31 When published in 1982 this translation of Professor Jacques Gernet s masterly survey of the history and culture of China was immediately welcomed by critics and readers This revised and updated edition makes it more useful for students and for the general reader concerned with the broad sweep of China s past      *Inequality in Education* Donald B.
