Many white Southerners who held power before the Civil War, known as **conservatives**, wanted the South to change as little as possible. They were willing to let Africans vote and hold a few offices. Other Southerners took a harsher view. They spread terror to African Americans and anybody who supported them.

They formed secret societies to try to help the South regain its power. The most dangerous group was the **Ku Klux Klan**, or KKK. Dressed in white robes and hoods to cover their heads. They used violence to murder and scare African Americans and their allies. In 1870, Congress acted to stop the KKK's violence. Congress made it a crime to use force to keep people from voting.

*The Civil Rights Movement and the Logic of Social Change* Joseph E. Luders, 2010-01-25 Social movements have wrought dramatic changes upon American society This raises the question Why do some movements succeed in their endeavors while others fail Luders answers this question by introducing an analytical framework that begins with a shift in emphasis away from the characteristics of movements toward the targets of protests and affected bystanders and why they respond as they do This shift brings into focus how targets and other interests assess both their exposure to movement disruptions as well as the costs of conceding to movement demands From this point diverse outcomes stem not only from a movement's capabilities for protest but also from differences among targets and others in their vulnerability to disruption and the substance of movement goals Applied to the civil rights movement this approach recasts conventional accounts of the movement's outcome in local struggles and national politics and clarifies the broader logic of social change
