Fetherston, 1994-12-13 At a time when peacekeepers are struggling to fulfil increasingly demanding mandates and UN peacekeeping is in danger of losing the distinct character that won it the 1988 Nobel Peace Prize this important book argues for a clear theoretical redefinition within a conflict resolution framework and examines the practical implications for training This is a valuable and original contribution to the peacekeeping literature Dr Oliver Ramsbotham Department of Peace Studies University of Bradford Both for the blue helmets on the ground and for the diplomats at UN headquarters conflict resolution skills are essential for conducting peacekeeping operations Betts Fetherstone s excellent study points the way forward to a synthesis between conflict management and peacekeeping Hugh

philosophy and peace studies to propose a fresh lens through which to view the normative responses liberal institutions ought to give to value conflict in politics and moves beyond the apparent dichotomy between pursuing end state justice through conflict resolution or peace through conflict containment
