Resources, Technology and Strategy Nicolai J. Foss, Paul L. Robertson, 2005-08-02 Brings together considerations of the strategic relationship between technology and other resources such as production capabilities marketing prowess finance and organisational culture

Resources, Technology and Strategy Nicolai Foss, Paul L. Robertson, 2007-03-26 Resources Technology and Strategy brings together contributors from Europe North America and Asia to consider the strategic relationship between technology and other resources such as production capabilities marketing prowess finance and organisational culture Throughout the book these experts take a critical approach to RBP Resource Based Perspective in order to assess both its strengths and weaknesses Case studies also highlight the importance of both having and not having strong technological capabilities in settings as diverse as the US semiconductor industry small family manufacturing firms in Hong Kong and state owned enterprises in China

Nixon's Vietnam War Jeffrey P. Kimball, 1998 The signing of the Paris Agreement in 1973 ended not only America's Vietnam War but also Richard Nixon's best laid plans After years of secret negotiations threats of massive bombing and secret diplomacy designed to shatter strained Communist alliances the president had to settle for a peace that fell far short of his original aims

The Green Agenda in American Politics Robert J. Duffy, 2003 Organizations such as the Sierra Club and Friends of the Earth are familiar to anyone with an interest in environmental protection As activist groups they played by the same rules for years But in 1994 the rules changed With the Republican takeover of Congress environmental groups faced sweeping changes in federal policies that threatened the enforcement of environmental laws As these organizations intensified their efforts to meet these challenges they also altered their electoral strategies and political spending patterns This book traces those actions and shows what they mean for the future of environmentalism in the political arena While environmental advocacy groups have become bigger and better funded in recent years so have the corporate interests that compete with them for the attention of public and politicians The Green Agenda in American Politics offers a new look at environmental advocacy that focuses on contemporary lobbying electioneering and agenda setting in this new context Drawing on interviews with activists

from a wide range of organizations Robert Duffy describes what environmental groups actually do when lobbying officials or the public He examines activity at both national and state levels to emphasize their growing use of websites email and action alert networks to conduct more sophisticated grassroots campaigns and he shows how they are devoting more funds to unregulated forms of spending such as independent expenditure issue advocacy advertising and public education campaigns Duffy also tracks emerging trends in interest group politics and provides an overview of activism through the early 1990s He then documents the emergence of more aggressive action after 1994 such as providing campaign services to candidates and mounting voter registration drives He also shows how state and local groups have begun to play more important roles in the wake of the rollback of federal environmental regulations Brimming with new insights into interest group lobbies in general and contemporary environmental groups in particular Duffy s book opens a new window on the influence of Big Money in the supposedly democratic electoral process **Proceedings, Managing the High Technology Firm** Luis R.

Gomez-Mejia,Michael W. Lawless,1988 *Information Resources Management Journal* ,2001 *Human Resource Management* Raymond A. Noe,1997 The authors of this text present the view that effective management of human resources is necessary to gain a competitive advantage The four challenges that they face are the global challenge the quality challenge the social challenge and the high performance work challenge This text provides students with the technical background needed to be a successful HR professional The text also emphasizes how managers can more effectively acquire develop compensate and manage the internal and external environment that relates to the management of human resources **The Role of Research and Development in Water Resources Planning and Management for Achieving Urban Goals** Miller B.
