**Responding to Psychological Emergencies** Jeffrey A. Thomas, S. Joseph Woodall, 2006 Field Guide for Psychological Emergencies is a quick reference source for rapid intervention and mitigation of psychologically based field emergencies. The guide provides a user friendly cross referenced pragmatic reference guide to a variety of psychological maladies that are encountered by emergency services personnel and a variety of other public service professionals. The field guide provides the user with a quick easy to use source that offers pertinent information that is required to successfully mitigate incidents involving people suffering from mental disorders. The field guide will be used as a supplement to the main texts used to cover Module 4 Medical Emergencies which addresses behavioral emergencies at the EMT Basic level and the content in Module 6 Special Considerations of the DOT National Standard Curriculum. This module covers Pediatrics Geriatrics Abuse and Neglect and Patients with Special Challenges. Field Guide for Psychological Emergencies will cover content necessary to address the section on Patients with Special Challenges. In addition to supplementing the core textbook used to cover behavioral emergencies in the EMT Basic courses and Patients with Special Challenges at the Paramedic level, this field guide is designed to be used in the field as a quick reference for EMTs and Paramedics as they encounter psychological emergencies.

Prehospital Behavioral Emergencies and Crisis Response American Academy of Orthopaedic Surgeons (AAOS), Dwight A. Polk, Jeffrey T. Mitchell, 2008-12-09. Listen to a podcast with author Dwight Polk. Prehospital Behavioral Emergencies and Crisis Response offers prehospital providers and mental health professionals a comprehensive resource on effectively handling behavioral emergencies ranging from large scale disasters to substance related emergencies to psychotic disorders. This timely text also provides prehospital providers with suggestions for coping with job related stress. The text incorporates well known information gathering tools such as SAMPLE and OPQRST as well as two essential new tools for evaluating patients in a behavioral emergency: the SEA 3, a brief and simple assessment tool designed specifically for gathering information about a patient's mental status, and the SAFER R model, a simple yet thorough tool designed to help the emergency responder devise a quick and easy treatment plan for helping those in crisis. In the Field boxes are scattered throughout the chapters and highlight vital information, tips, and best practices that first responders can apply during an emergency call. End of chapter material provides vocabulary, chapter summaries, and quizzes that allow the reader to check his or her knowledge and comprehension of the chapter. Important tips for applying concepts to real life situations first responders encounter in the field, including step by step recommendations for conducting assessments. Quiz questions to evaluate students' understanding of the material. Crucial vocabulary that first responders should know when responding to behavioral emergencies. Easy to follow methods for quickly evaluating behavioral emergencies using familiar information gathering tools. Part of our Continuing Education Series, instructors can use the manual and instructor resources.
