The U S Army Program Manager for Assembled Chemical Weapons Alternatives PMACWA is charged with disposing of chemical weapons as stored at two sites Pueblo Colorado and Blue Grass Kentucky In accordance with congressional mandates technologies other than incineration are to be used if they are as safe and as cost effective The weapons are to be disposed of in compliance with the Chemical Weapons Convention Although an element of the U S Army the PMACWA is responsible to the Assistant Secretary of Defense for Acquisitions Technology and Logistics for completing this mission This book deals with the expected significant quantities of secondary wastes that will be generated during operations of the facilities and their closure While there are only estimates for the waste quantities that will be generated they provide a good basis for planning and developing alternatives for waste disposal while the plants are still in the design phase Establishing efficient disposal options for the secondary wastes can enable more timely and cost effective operation and closure of the facilities

Social Vulnerability to Disasters, Second Edition Deborah S.K. Thomas, Brenda D. Phillips, William E. Lovekamp, Alice Fothergill, 2013-05-09

The 2010 Haiti and Chile earthquakes the 2010 BP oil spill in the Gulf of Mexico and the 2011 Fukushima earthquake and tsunami in Japan are but a few examples of recent catastrophic events that continue to reveal how social structure and roles produce extensive human suffering and differential impacts on individuals and communities These events bring social vulnerability to the forefront in considering how disasters unfold clearly revealing that disasters are not created from the physical event alone Equally

important people even those considered vulnerable respond in innovative and resilient ways that unveil the strength of human ingenuity and spirit It is not a foregone conclusion that a hazard event even a large one will result in catastrophic loss This updated second edition of *Social Vulnerability to Disasters* focuses on the social construction of disasters demonstrating how the characteristics of an event are not the only reason that tragedies unfurl By carefully examining and documenting social vulnerabilities throughout the disaster management cycle the book remains essential to emergency management professionals the independent volunteer sector homeland security and related social science fields including public policy sociology geography political science urban and regional planning and public health The new edition is fully updated more international in scope and incorporates significant recent disaster events It also includes new case studies to illustrate important concepts By understanding the nuances of social vulnerability and how these vulnerabilities compound one another we can take steps to reduce the danger to at risk populations and strengthen community resilience overall

Features and Highlights from the Second Edition Contains contributions from leading scholars professionals and academics who draw on their areas of expertise to examine vulnerable populations Incorporates disaster case studies to illustrate concepts relevant and seminal literature and the most recent data available In addition to highlighting the U S context integrates a global approach and includes numerous international case studies Highlights recent policy changes and current disaster management approaches Infuses the concept of community resilience and building capacity throughout the text Includes new chapters that incorporate additional perspectives on social vulnerability Instructor's guide PowerPoint slides and test bank available with qualifying course adoption
