Responses To Crime Vol 2 Penal Policy In The Making:

Criminal Policy in Transition Penny Green, Andrew Rutherford, 2000-12-11 Criminal Policy in Transition comes along at a time when the literature in criminology is desperately short of global perspectives It helps fill that gap while it presents important new insights into changing penal policy and practice That it raises as many questions as it seems to answer is one of its great strengths The authors write knowledgeably about their home societies without being prematurely bounded by comparative criteria As a result they develop a complex and uneven image of similarities and differences of divergence and convergence through time In this sense the collection offers a model of how international collaborative work should proceed The book is the product of a workshop held at the International Institute for the Sociology of Law IISL in Onati Spain The IISL is a partnership between the Research Committee on the Sociology of Law and the Basque Government **The Criminological Foundations of Penal Policy** Lucia Zedner, Andrew Ashworth, 2003 The Criminological Foundations of Penal Policy brings together leading international criminologists to examine the link between the fruits of criminological research and the development of criminal justice policy This volume includes comparative discussions of the United States Germany Australia England and Wales It is divided into four parts Part 1 discusses the theoretical issues surrounding the relationship between public policy and the discipline of criminology Part 2 consists of three essays exploring historical aspects of that relationship Part 3 then examines three distinct areas of penal policy sentencing policing and parole as case studies of the influence of research upon the development of policy Finally in Part 4 which is explicitly devoted to international comparisons there is a consideration of the factors that distinguish research projects that do influence criminal justice policy from those that appear not to The Criminological Foundations of Penal Policy is a volume in honour of Roger Hood Professor of Criminology and Director of the Centre for Criminological Research in the University of Oxford **The Routledge Handbook of Irish Criminology** Deirdre Healy, Claire Hamilton, Yvonne Daly, Michelle Butler, 2015-12-14 This book charts the contours of the criminological enterprise in Ireland and brings together internationally recognized experts to discuss theory research policy and practice on a range of topics and in an international context **The Culture of Control** David Garland, 2024-05-31 The past 30 years have seen vast changes in our attitudes toward crime More and more of us live in gated communities prison populations have skyrocketed and issues such as racial profiling community policing and zero tolerance policies dominate the headlines How is it that our response to crime and our sense of criminal justice has come to be so dramatically reconfigured David Garland charts the changes in crime and criminal justice in America and Britain over the past twenty five years showing how they have been shaped by two underlying social forces the distinctive social organization of late modernity and the neoconservative politics that came to dominate the United States and the United Kingdom in the 1980s Garland explains how the new policies of crime and punishment welfare and security and the changing class race and gender relations that underpin them are linked to the fundamental problems of governing contemporary

societies as states corporations and private citizens grapple with a volatile economy and a culture that combines expanded personal freedom with relaxed social controls It is the risky unfixed character of modern life that underlies our accelerating concern with control and crime control in particular It is not just crime that has changed society has changed as well and this transformation has reshaped criminological thought public policy and the cultural meaning of crime and criminals David Garland's *The Culture of Control* offers a brilliant guide to this process and its still reverberating consequences

increasingly as sources of risk requiring management or containment rather than as people suitable for therapeutic responses The book draws on primary research carried out by the author including interviews with key informants involved in the field during this period such as former cabinet ministers senior civil servants campaigners and academics In conducting this investigation the author has developed a method of research which combines and synthesizes different forms of analysis to create a novel approach to socio historical research

especially those concerned with how policy is formulated in answer to the immediacy of political events or the continuum of knowledge and experiences of civil servants whichever administration is in power With a Foreword by the Rt Hon Sir John Chilcot GCB Raises crucial questions about the proper roles of civil servants and politicians Professor Rob Canton Enriches our understanding Professor David Downes Anyone interested in the state and its relationship to citizens should read this book Professor Graham Towl A uniquely rewarding book John Chilcot **Criminal Policy Making** Andrew Rutherford, 1997 This volume presents a wide ranging collection of critical essays which address aspects of criminal policy A central purpose is to illuminate those processes which determine the shape and direction of criminal policy within liberal and democratic states European Ways of Law Volkmar Gessner, David Nelken, 2007-10-30 Can there be such a thing as a European sociology of law The uncertainties which arise when attempting to answer that straightforward question are the subject of this book which also overlaps into comparative law legal history and legal philosophy The richness of approaches reflected in the essays including comparisons with the US makes this volume a courageous attempt to show the present state of socio legal studies in Europe and map directions for its future development Certainly we already know something about the existence of differences in the use and meaning of law within and between the nation states and groups that make up the European Union They concern the role of judges and lawyers the use of courts patterns of delay contrasts in penal sensibilities or the meanings of underlying legal and social concepts Still similarities in legal culture are at least as remarkable in societies at roughly similar levels of political and economic development The volume should serve as a needed stimulus to a research agenda aimed at uncovering commonalities and divergences in European ways of approaching the law
