**Responsive Evaluation** Jennifer C. Greene, Tineke A. Abma, 2002-01-21 With his 1973 address titled Program Evaluation Particularly Responsive Evaluation Robert Stake offered a new vision and rationale for educational and social program evaluation In this vision evaluation was reframed from the application of sophisticated analytic techniques that address distant policymakers questions of program benefits and effectiveness on the average to an engagement with on site practitioners about the quality and meaning of their practice These innovative ideas helped accelerate a transformation of the evaluation enterprise into its current pluralistic character within which remain multiple and varied legacies of key responsive evaluation principles This volume offers some of those legacies representing central epistemological artistic and political dimensions of Stake s original commitment to responsiveness This is the 92nd issue of

Continuing the Journey to Reposition Culture and Cultural Context in Evaluation Theory and Practice Stafford Hood, Rodney Hopson, Henry Frierson, 2014-12-01 Racial ethnic linguistic and cultural diversity has become of global importance in places where many never would have imagined Increasing diversity in the U S Europe Africa New Zealand and Asia strongly suggests that a homogeneity based focus is rapidly becoming an historical artifact Therefore culturally responsive evaluation CRE should no longer be viewed as a luxury or an option in our work as evaluators The continued amplification of racial ethnic linguistic and cultural diversity and awareness among the populations of the U S and other western nations insists that social science researchers and evaluators inextricably engage culturally responsive approaches in their work It is unacceptable for most mainstream university evaluation programs philanthropic agencies training institutes sponsored by federal agencies professional associations and other entities to promote professional evaluation practices that do not attend to CRE Our global demographics are a reality that can be appropriately described and studied within the context of complexity theory and theory of change e g Stewart 1991 Batram 1999 And this perspective requires a distinct shift from simple linear cause effect models and reductionist thinking to include more holistic and culturally responsive approaches The development of policy that is meaningfully responsive to the needs of traditionally disenfranchised stakeholders and that also optimizes the use of limited resources human natural and financial is an extremely complex process Fortunately we are presently witnessing developments in methods instruments and statistical techniques that are mixed methods in their paradigm designs and likely to be more effective in informing policymaking and decision making Culturally responsive evaluation is one such phenomenon that positions itself to be relevant in the context of dynamic international and national settings where policy and program decisions take place One example of a response to address this dynamic and need is the newly established Center for Culturally Responsive Evaluation and Assessment CREA in the College of Education at the University of Illinois at Urbana Champaign CREA is an outgrowth of the collective work and commitments of a global community of scholars and practitioners who have contributed chapters to this edited volume It is an international and interdisciplinary evaluation center that is grounded in the need for designing and conducting evaluations and assessments that embody cognitive cultural and interdisciplinary diversity so as to be actively responsive to culturally diverse communities and their aspirations The Center s purpose is to address questions issues theories and practices related to CRE and culturally responsive educational assessment Therefore CREA can serve as a vehicle for our continuing discourse on culture and cultural context in evaluation and also as a point of dissemination for not only the work that is included in this edited volume but for the subsequent work it will encourage
